Subject: RE: Genesee County EOC

Hi Ed,

I do have a stock set aside at the 2727 Lippincott Blvd. GCCARD location.

It is available for pick up whenever you are ready to begin home deliveries. The contact at the facility is Shawn Scott-Fitzgerald with the American Red Cross/1-563-663-2672. We also have tracking sheets that need to track which homes have been visited and returned to the local EOC somehow so they can get entered into the overall database.

Please let me know that you've received this email.

Michelle Kuzera

Subject: RE: Genesee County EOC

Hi Michelle,

Thanks for the info. Judy informed me that you called regarding the Your Ride clients that still need filter. We'll be glad to do the initial delivery and then hold off as requested.

For the 2-1-1, we'll get the passengers to the distribution centers located along the designated fixed routes. The passengers just need to let the driver know that is their intention and we will not collect the fares and will just log the count of passengers riding for the water supplies.

MTA added the 5 requested Water distribution sites as stops along the following fixed routes: Fenton, ML King, Franklin, Dupont and South Saginaw.

We are ready and willing to help - please don't hesitate to ask for assistance as needed.

Thanks again,

Edward G Burger

Subject: Genesee County EOC

Hi Ed,

I am just following up our earlier call. I have let our Joint Information Center know that the MTA has included the 5 fire stations in the bus routes. This information will be provided to 211.

I have also let Jay Eickholt know that I'll be the main point of contact for MTA.

I am following up on the supplies, we will get a stock set aside and then I can coordinate pick up with you. We are receiving a lot of supplies today.

I am also going to speak with the sheriff's department about the calls received regarding home deliveries.

Please contact me at 517.897.6009 if you need anything.

Thank you so much for your support,

**Subject:** Daily Statistics from field teams

AS OF **February 12, 2016** AT 1700 USING DATA FROM FLINT WATER RESPONSE TEAMS, POD DISTRIBUTIONS, AND GENESEE COUNTY HEALTH DISTRIBUTION DATA.

NOTE: PLEASE REMEMBER THAT PAPER DATA AND DATA ENTRY FROM PREVIOUS DAYS CONTINUES TO COME IN AND WILL BE INCLUDED IN THE TOTALS AS IT IS RECEIVED.

We are tracking **38876** residential parcels that the City of Flint has identified as non-vacant (including Franchise). Of those:

- **38329 (98.6%)** of the parcels have been engaged as part of response efforts
- **29900 (77.0%)** of the parcels have been confirmed have some form of filter
- **12187 (31.3%)** of the parcels have volunteered for water testing

We are also tracking that there are 30188 active water subscribers (metered service lines) in the city. When consolidated down and filtering out only residential there are **27,180** residential parcels that have the ability to use the Flint Water System. Of these

- **26987 (99.3%)** of of the parcels have been engaged as part of response efforts
- **23958 (88.1%)** of the parcels have been confirmed have some form of filter
- **10825 (39.8%)** of the parcels have volunteered for water testing

Please let me know if you need anything else.

**Attachments:** ActiveWaterUsersGeocodeParcelTomTom.lpk

Hi ,

Thank you very much for access and the discussion earlier today.

I don't know if it is too late for you to answer a question before this holiday weekend but here goes.

I'm looking at all the layers related to water service and this is what I find:

- ServiceLineIndexPointsMaster with 30,102 records
- Franchise Customer Residential Class Only with 137 records
- Franchise Customers Parcels by Genesee County with 130 records (The residential class is more??)
- Water Access with 28,353 out of 56,254 parcels.
- Water customers outside city = 228
- A list of addresses I received here and geocoded with 29,942 records (attached).

Do you have ideas on which one of these datasets are closer to the truth?

On the call you mentioned the 30,102 records. Is this the best number for both City and Franchise customers? Does this include the 130 or 137 from the Franchise list? Or is there any way to piece this all together.

Melissa is arriving on Tuesday morning. Would you be interested in possibly meeting with Melissa and possibly me (if I can stay through Tuesday) on Tuesday afternoon?

Thanks again.

**Cc:** Vaidyanathan, Ambarish (CDC/ONDIEH/NCEH)  
**Subject:** Flint AGOL Viewer Access

Dear MSP,

I am with the CDC/ATSDR response providing GIS support to the Michigan Department of Community and Health Services for the Flint Water Response. I and Ambarish are gathering information for the epidemiological response. We are mapping blood lead data, DEQ water data, and would like to evaluate these datasets further with EPA data. I understand that the MSG AG online website has these data.

I am presently working in the Bureau of Epidemiology offices in the Capitol View Building through Tuesday.

Would it be possible for me to obtain access to the MSG AG Online Website for this evaluation?

Thank you.

**Subject:** ArcGIS online group membership for Flint Water

This message is for James Tchorzynski. My name is Jason Stephens. I am the incoming Plans Chief for the MDEQ-ECC-IMT. I was just given an ArcGIS online account for Flint water, but after setting up my account and logging in I see that I don't have permissions to any groups. I should be in the same permissions group as Jeff Stampfly. Let me know if there is anything else you need from me.

Thanks,

Jason Stephens

**From:** FEDERALSEOC  
**Sent:** Friday, February 12, 2016 8:55 AM  
**To:** MSP-SEOCGIS; MSP-SEOCGIS2  
**Subject:** FW: no filters, no contact  
**Attachments:** no\_filters\_no\_contact\_2-11-16.csv

Upon reviewing the attached spreadsheet, there are several entries that do not have house numbers. The American Red Cross cannot visit a parcel with no house number so I am deleting them before I send this to the Red Cross. Is there any way you can permanent remove these parcels so we don't keep getting them on these types of lists?

Also a few of these addresses on Google maps shows a vacant lot. When the Red Cross goes to these addresses is there a way to report it on the iPads so the vacant parcel doesn't have to be visited again? Is there any special information on this to pass on to the Red Cross to make sure we can get things as cleaned up as possible.

Thanks!

Stacy

**Subject:** Full List of Residential Results for February 11, 2016

This note is for Thursday, February 11, 2016 \*\*\*Please note that the web stuff needs to be reviewed and approved by the Governor's office and will be posted the next day after that approval\*\*\* There were changes in the report so if Trevor could make the title the following for the web, everything should be clear: "Flint Residential Testing Report – results collected through February 10, 2016 (posted February 11, 2016)" or something equivalent. ☺

**\*\*NOTE\*\*** No. 3 needs to be sent to the following addresses: [MSP-SEOCGIS@michigan.gov](mailto:MSP-SEOCGIS@michigan.gov) and [MSP-SEOCGIS2@michigan.gov](mailto:MSP-SEOCGIS2@michigan.gov)

Please find attached the full list of residential results through the date listed above (5 attachments). Please note that this version includes concentrations in ppb and the street number is separated from street name to make it easier to find the address. Also, there are pdfs of the two worksheets for people who don't have Microsoft office. All have been prepped for the web minus the naming convention that is usually used. I will follow this format going forward. If I fail to do that then please let me know:

1. For the accordion on the lower left under the title "School and Residential Testing Results, the following are to Replace current and see above for language changes (3 attachments):

**Asset # 513922** – February 11 2016 Test Results Flint.xlsx

**Asset# 513925** – February 11 2016 Test Results Flint\_Sorted By Address.pdf

**Asset# 513930** – February 11 2016 Test Results Flint\_Sorted by Lead Concentration.pdf

2. For the same accordion underneath the DEQ reports to EPA, The Test Results Flint DEQ Reports to the EPA Asset needs updating (1 attachment):

**Asset# 513955** - February 11 2016 Test Results Flint\_DEQ Reports to the EPA.xlsx

3. The following is for the MSP-SEOCGIS for geocoding (1 attachment) and not prepped for the web; Please send to [MSP-SEOCGIS@michigan.gov](mailto:MSP-SEOCGIS@michigan.gov) and [MSP-SEOCGIS2@michigan.gov](mailto:MSP-SEOCGIS2@michigan.gov)

February 11 2016 Test Results Flint\_For MSP-SEOCGIS.xlsx

4. Calculations as requested:

#### LEAD

Data Summary for Current Date	Number	Percent		
Total number of samples:	8952			
At or below 15 ppb:	8350	93%	Above 15 ppb:	602
<5 ppb:	7320	82%		
5-15 ppb:	1,030	12%		

>15-30 ppb:	269	3.0%
>30-100 ppb:	221	2.5%
>100-150 ppb:	31	0.3%
>150 ppb:	81	0.9%

Please note that the workbooks (XLSX) contains two tabs: One has the data sorted by Lead concentration and the other is sorted by Address. Posting this data in a timely manner upon approval from the Governor's office is of the essence so that we can comply with the order issued by EPA.

**Please post this to the website ASAP upon approval of the Governor's office and make sure that all are posted so that people can look at the version that they are interested in.**

**Thank you!!!**

Ronda

AS OF **2/11/2016** AT 1700 USING DATA FROM FLINT WATER RESPONSE TEAMS, POD DISTRIBUTIONS, AND GENESEE COUNTY HEALTH DISTRIBUTION DATA.

NOTE: PLEASE REMEMBER THAT PAPER DATA AND DATA ENTRY FROM PREVIOUS DAYS CONTINUES TO COME IN AND WILL BE INCLUDED IN THE TOTALS AS IT IS RECEIVED.

We are tracking **38,876** residential parcels that the City of Flint has identified as non-vacant (including Franchise). Of those:

- **38,323 (98.6%)** of the parcels have been engaged as part of response efforts
- **29,875 (76.8%)** of the parcels have been confirmed have some form of filter
- **12,173 (31.3%)** of the parcels have volunteered for water testing

We are also tracking that there are 30188 active water subscribers (metered service lines) in the city. When consolidated down and filtering out only residential there are **27,180** residential parcels that have the ability to use the Flint Water System. Of these

- **26,985 (99.3%)** of the parcels have been engaged as part of response efforts
- **23,946 (88.1%)** of the parcels have been confirmed have some form of filter
- **10,811 (39.8%)** of the parcels have volunteered for water testing

Please let me know if you need anything else.

## MSP-SEOCGIS

---

**From:** Colberg, Nicole (DNR)  
**Sent:** Thursday, February 11, 2016 9:25 AM  
**To:** MSP-SEOCGIS; MSP-SEOCGIS2  
**Subject:** FW: Full List of Residential Results for February 10, 2016  
**Attachments:** February 10 2016 Test Results Flint\_DEQ Reports to EPA.xlsx; February 10 2016 Test Results Flint.xlsx, February 10 2016 Test Results Flint\_For MSP-SEOCGIS.xlsx; February 10 2016 Test Results Flint\_Sorted by Address.pdf; February 10 2016 Test Results Flint\_Sorted by Lead Concentration.pdf

As requested, attached please find the daily test results spreadsheets and below please find a breakdown of the Residential Sample Results for February 10, 2016 to be included in the Governor's report.

Please note the spreadsheets will be updated on the Flint Water website tomorrow morning.

Should you have any questions or need anything further, please feel free to contact me.

Thank you, Nicole

### **This note is for Wednesday, February 10,**

Please find attached the full list of residential results through the date listed above (5 attachments). Please note that this version includes concentrations in ppb and the street number is separated from street name to make it easier to find the address. Also, there are pdfs of the two worksheets for people who don't have Microsoft office. All have been prepped for the web minus the naming convention that is usually used.

1. For the accordion on the lower left under the title "School and Residential Testing Results, the following are to Replace current and see above for language changes (3 attachments):

**Asset # 513922** – February 10 2016 Test Results Flint.xlsx

**Asset# 513925** – February 10 2016 Test Results Flint\_Sorted By Address.pdf

**Asset# 513930** – February 10 2016 Test Results Flint\_Sorted by Lead Concentration.pdf

2. For the same accordion underneath the DEQ reports to EPA, The Test Results Flint DEQ Reports to the EPA Asset needs updating (1 attachment):

**Asset# 513955** - February 10 2016 Test Results Flint\_DEQ Reports to the EPA.xlsx

3. Calculations as requested:

### LEAD

Data Summary for <i>February 10 2016</i>	Number	Percent		
Total number of samples:	8749			
At or below 15 ppb:	8158	93%	Above 15 ppb:	591

<5 ppb:	7156	82%
5-15 ppb:	1,002	11%
>15-30 ppb:	264	3.0%
>30-100 ppb:	218	2.5%
>100-150 ppb:	31	0.4%
>150 ppb:	78	0.9%

Please note that the workbooks (XLSX) contains two tabs: One has the data sorted by Lead concentration and the other is sorted by address. Posting this data in a timely manner upon approval from the Governor's office is of the essence so that we can comply with the order issued by EPA.

**Please post this to the website ASAP and make sure that all are posted so that people can look at the version that they are interested in.**

**Thank you!!!**

**Cc:** Maki, Brian (DNR) <[Makib1@michigan.gov](mailto:Makib1@michigan.gov)>  
**Subject:** RE: Schools data

Hi Dan,

The attached spreadsheet is a subset of the points within the Flint boundary. I added a few points that were right on the border just in case there are accuracy issues with either the point locations or the city boundary. Any of the points that have a person's name in either the COMMONNM or OFFICIALNM field are the daycare facilities. We don't have the street address for all of the schools, but we do have the latitude longitude values for all of them.

Brian said that from what he understands the data that the SEOC is working from is a spreadsheet with no GIS component. We figure we can match up the data from any school water testing with our GIS data using the school name, address, etc.

The database I checked did not have any data for restaurants. There are hospitals, shopping malls, etc., but no restaurants. So, I checked online and found a file for the US that includes restaurants. I am currently querying out only restaurants in Flint, but that is taking some time. I will let you know once I have completed that and send you the spreadsheet for that data. The data is from 2012, but we figure that any new restaurants that have been built since then are not using lead pipes. If nothing else it is a starting point that we can add additional data to should we find other newer data elsewhere.

Let me know if you have any other questions.

Thanks,

*Lisa K. Dygert*

**Cc:** Maki, Brian (DNR)  
**Subject:** Re: Schools data

Lisa,

Back to the schools list, I took a quick look and it appears this is a statewide list, is there anyway to join it with the City's boundary and create a subset that show's only those in Flint?

Also, is this data set something from the SEOC? Just trying to be sure that we're working off of the same data.

Let me know when you get time. I'm in Flint this AM and should be back around lunch time.

Hi Dan,

The attached spreadsheet is the attribute table for the schools data which includes universities, grade schools, and preschool and day care facilities. I found several separate files and combined them all together which means that not all of the data had information for status, grades, etc. So, some of those values are null or have an unknown entered in. Let me know if you have any questions about this. We can create maps and/or analyses with this data.

I also calculated the average number of unknown service lines on the non-vacant parcels for each grid area and that value is 133. That includes some grid areas that had no unknown service line parcels in them. There were 14 grid areas with no unknown values. The highest number was 769. If I do not count the grid areas with no unknown service lines, since no one is going to look at those areas for this anyway, the average is 162. The total number of unknown service line non-vacant parcels is 10,510.

Let me know if you need to know anything else.

Thanks,

Good afternoon,

My name is Greg Downing and I'm based in the UCG in Flint. I work out of the HHS Secretary's Innovation Lab in Washington and working for Dr. Lurie on data management aspects. I understand that your work on ArcGIS online portal may have important use for some of the projects we're looking at.

I have access to the GeoHealth ArcGIS platform but didn't see the Flint ArcGIS portal information captured there (I may have missed it).

May I have access to the Flint ArcGIS, please?

Also, I will be in Lansing tomorrow morning. Would it be possible to meet with James Tchorzynski tomorrow while I'm in town in the morning (after 10:30)?

greg

**Sent:** Wednesday, February 10, 2016 4:19 PM  
**To:** MSP-SEOCGIS  
**Subject:** Re: Flint Census Block Group Data

Hi Matt,

The data is from the 2000 Census, but the general patterns did not change in 2010 (it is showing a relative index of distress, so absolute changes don't affect the categories as long as there isn't a significant change in one neighborhood vs. another). All that to say, the z-score sum used for the distress index is apt for current data too.

Cheers,  
Rick

**Subject:** Re: Schools data

Lisa,

Back to the schools list, I took a quick look and it appears this is a statewide list, is there anyway to join it with the City's boundary and create a subset that show's only those in Flint?

Also, is this data set something from the SEOC? Just trying to be sure that we're working off of the same data.

Let me know when you get time. I'm in Flint this AM and should be back around lunch time.

Hi Dan,

The attached spreadsheet is the attribute table for the schools data which includes universities, grade schools, and preschool and day care facilities. I found several separate files and combined them all together which means that not all of the data had information for status, grades, etc. So, some of those values are null or have an unknown entered in. Let me know if you have any questions about this. We can create maps and/or analyses with this data.

I also calculated the average number of unknown service lines on the non-vacant parcels for each grid area and that value is 133. That includes some grid areas that had no unknown service line parcels in them. There were 14 grid areas with no unknown values. The highest number was 769. If I do not count the grid areas with no unknown service lines, since no one is going to look at those areas for this anyway, the average is 162. The total number of unknown service line non-vacant parcels is 10,510.

Let me know if you need to know anything else.

Thanks,

**Attachments:** schools\_flint.xlsx

Some questions have come up related to Schools and how many are in Flint and locations. Lisa Dygert has started doing some work on this and I wanted to see if MSP and the SEOC have done anything related to this effort.

Again, just wanted to keep the SEOC GIS Team informed of what we are doing and being requested to do.

Also, is there any GIS related tasks going on linked to Restaurants?

**Subject:** RE: Schools data

Hi Dan,

The attached spreadsheet is a subset of the points within the Flint boundary. I added a few points that were right on the border just in case there are accuracy issues with either the point locations or the city boundary. Any of the points that have a person's name in either the COMMONNM or OFFICIALNM field are the daycare facilities.

We don't have the street address for all of the schools, but we do have the latitude longitude values for all of them.

Brian said that from what he understands the data that the SEOC is working from is a spreadsheet with no GIS component. We figure we can match up the data from any school water testing with our GIS data using the school name, address, etc.

The database I checked did not have any data for restaurants. There are hospitals, shopping malls, etc., but no restaurants. So, I checked online and found a file for the US that includes restaurants. I am currently querying out only restaurants in Flint, but that is taking some time. I will let you know once I have completed that and send you the spreadsheet for that data. The data is from 2012, but we figure that any new restaurants that have been built since then are not using lead pipes. If nothing else it is a starting point that we can add additional data to should we find other newer data elsewhere.

Let me know if you have any other questions.

Thanks,

*Lisa K. Dygert*

**To:** MSP-SEOCGIS; Thelen, Richard (DHHS)  
**Subject:** RE: 2015-10-01-City of Flint-Water Contamination / Shortage: mapping aged population (Older Adults)

Walter or Richard,

Can you provide me any guidance on interpreting and prioritizing the lead and copper test results?  
I assume we are concerned with anything > than 0, but what are the dangerous level threshold?

Thanks.  
Steve

**From:** MSP-SEOCGIS  
**Sent:** Wednesday, February 10, 2016 2:01 PM  
**To:** Betterly, Steve (DHHS) <betterlys@michigan.gov>  
**Subject:** RE: 2015-10-01-City of Flint-Water Contamination / Shortage: mapping aged population (Older Adults)

Steve:

The list named "APS Genesee ILS and ACP addresses - just Flint file dtd 1-13-16" has 584 addresses and 417 of those can be found and receive water from the city of Flint. Those 417 addresses are included in the attached spread sheet. The spreadsheet has the following column headings

Address	Street_Line_2	City	Stat	ZIP	Max_PbResultpp	Max_CuResultpp
---------	---------------	------	------	-----	----------------	----------------

MaxPbResultpp is the maximum lead level detected at that address

Max\_CuResultpp is the maximum Copper level detected at that address

Null values indicate no testing was performed at that address as of February 8, 2016

Let me know if you have any questions.

Regards,

Walter Chomentowski

Walter,

We are almost finished generated an excel list with approximately 1400 addresses for seniors living in Flint who receive in-home services.

Are you our GIS point of contact to receive this list or is there someone else?

1. Our list is sorted by service category to make it easier to for MSP to prioritize residents by level of needed service. Seniors receiving Care Management, Home Delivered Meals, Personal Care, and going to Adult Day Centers are most likely to have the higher physical or cognitive functional deficits.
2. Valley Area Agency on Aging (Valley)'s Executive Director, Kathy Boles is generating an additional list of Flint seniors and adults under age 60 who receive MiChoice Waiver services. Valley will forward that list to AASA and We will forward it to MSP.
3. Ms. Boles is contacting the Genesee Senior Millage Care Management provider to request a list of their In-Home Services clients. She estimates Senior Millage about serves another 1,400 older adults as well.
4. We also working with our APS friends to generate addresses for APS's Home Help and Adult Community Placement clients over age 60 living in Flint. We hope to have something by Wednesday at the earliest.

Steve Betterly  
AASA

**Subject:** RE: 2015-10-01-City of Flint-Water Contamination / Shortage: mapping aged population (Older Adults)

Good Morning Walter,

We think we can generate an excel report from our National Aging Program Information System (NAPIS) database listing the addresses of older adults receiving all In-Home services or one or more specific programs from grant funding this office provides to the Valley Area Agency on Aging. These programs serve a population age 60 and older that meet varying levels of functional loss up to and including being eligible for admission to a nursing home.

Please keep in mind, the list we can generate cannot be exhaustive of all older adults with functional loss because there are families that pay privately for home supportive services or may be receiving in home rehab covered by their insurance.

Specific In-Home Service Programs would include seniors who've enrolled for the following services:

Home Delivered Meals (HDM)  
 Care Management (CM)  
 Case Coordination and Support (CCS)  
 Chore  
 Homemaking  
 Medication Management  
 Personal Care  
 In Home Respite  
 Adult Day Services

Valley Area Agency on Aging is also the Medicaid MiChoice Waiver (Waiver) agent for Genesee County and can generate a list of addresses for seniors in that program. The Waiver program provides in home services to seniors and persons with disabilities who are nursing home eligible.

We would pull addresses based on the address provided by the senior or their caregiver at time of assessment/enrollment. Postal zip codes often but not always recorded.

We can start with the City of Flint and then on a 2nd run we could pull from the other communities that are also fully or partially served by the Flint Water System.

Thoughts?

Steve:

As of today I have received the following lists of data:

- VAAA enrollments 2015
- Memory Impaired and Skilled Nursing Facilities
- Subsidized Independent Living
- VAAA MiChoice Waiver addresses – 2016
- Non Subsidized Independent Living
- Assisted Living Facilities
- EMPower\_MedicalEquipmentDependentResidents
- APS Genesee ILS and ACP addresses - just Flint file dtd 1-13-16

I have not received any senior address' from anyone other than you except for the EM power data which we received from MDHHS.

Best,  
Walter Chomentowski

Walter,

We are almost finished generated an excel list with approximately 1400 addresses for seniors living in Flint who receive in-home services.

*Are you our GIS point of contact to receive this list or is there someone else?*

1. Our list is sorted by service category to make it easier to for MSP to prioritize residents by level of needed service. Seniors receiving Care Management, Home Delivered Meals, Personal Care, and going to Adult Day Centers are most likely to have the higher physical or cognitive functional deficits.
2. Valley Area Agency on Aging (Valley)'s Executive Director, Kathy Boles is generating an additional list of Flint seniors and adults under age 60 who receive MiChoice Waiver services. Valley will forward that list to AASA and We will forward it to MSP.
3. Ms. Boles is contacting the Genesee Senior Millage Care Management provider to request a list of their In-Home Services clients. She estimates Senior Millage about serves another 1,400 older adults as well.
4. We also working with our APS friends to generate addresses for APS's Home Help and Adult Community Placement clients over age 60 living in Flint. We hope to have something by Wednesday at the earliest.

Steve Betterly  
AASA

**Subject:** RE: 2015-10-01-City of Flint-Water Contamination / Shortage: mapping aged population (Older Adults)

Good Morning Walter,

We think we can generate an excel report from our National Aging Program Information System (NAPIS) database listing the addresses of older adults receiving all In-Home services or one or more specific programs from grant funding this office provides to the Valley Area Agency on Aging. These programs serve a population age 60 and older that meet varying levels of functional loss up to and including being eligible for admission to a nursing home.

Please keep in mind, the list we can generate cannot be exhaustive of all older adults with functional loss because there are families that pay privately for home supportive services or may be receiving in home rehab covered by their insurance.

Specific In-Home Service Programs would include seniors who've enrolled for the following services:

Home Delivered Meals (HDM)  
Care Management (CM)  
Case Coordination and Support (CCS)  
Chore  
Homemaking  
Medication Management  
Personal Care  
In Home Respite  
Adult Day Services

Valley Area Agency on Aging is also the Medicaid MiChoice Waiver (Waiver) agent for Genesee County and can generate a list of addresses for seniors in that program. The Waiver program provides in home services to seniors and persons with disabilities who are nursing home eligible.

We would pull addresses based on the address provided by the senior or their caregiver at time of assessment/enrollment. Postal zip codes often but not always recorded.

We can start with the City of Flint and then on a 2nd run we could pull from the other communities that are also fully or partially served by the Flint Water System.

Thoughts?

Walter,

We are almost finished generated an excel list with approximately 1400 addresses for seniors living in Flint who receive in-home services.

Are you our GIS point of contact to receive this list or is there someone else?

1. Our list is sorted by service category to make it easier to for MSP to prioritize residents by level of needed service. Seniors receiving Care Management, Home Delivered Meals, Personal Care, and going to Adult Day Centers are most likely to have the higher physical or cognitive functional deficits.
2. Valley Area Agency on Aging (Valley)'s Executive Director, Kathy Boles is generating an additional list of Flint seniors and adults under age 60 who receive MiChoice Waiver services. Valley will forward that list to AASA and We will forward it to MSP.
3. Ms. Boles is contacting the Genesee Senior Millage Care Management provider to request a list of their In-Home Services clients. She estimates Senior Millage about serves another 1,400 older adults as well.
4. We also working with our APS friends to generate addresses for APS's Home Help and Adult Community Placement clients over age 60 living in Flint. We hope to have something by Wednesday at the earliest.

Steve Betterly

**Subject:** RE: 2015-10-01-City of Flint-Water Contamination / Shortage: mapping aged population (Older Adults)

Good Morning Walter,

We think we can generate an excel report from our National Aging Program Information System (NAPIS) database listing the addresses of older adults receiving all In-Home services or one or more specific programs from grant funding this office provides to the Valley Area Agency on Aging. These programs serve a population age 60 and older that meet varying levels of functional loss up to and including being eligible for admission to a nursing home.

Please keep in mind, the list we can generate cannot be exhaustive of all older adults with functional loss because there are families that pay privately for home supportive services or may be receiving in home rehab covered by their insurance.

Specific In-Home Service Programs would include seniors who've enrolled for the following services:

Home Delivered Meals (HDM)  
Care Management (CM)  
Case Coordination and Support (CCS)  
Chore  
Homemaking  
Medication Management  
Personal Care  
In Home Respite  
Adult Day Services

Valley Area Agency on Aging is also the Medicaid MiChoice Waiver (Waiver) agent for Genesee County and can generate a list of addresses for seniors in that program. The Waiver program provides in home services to seniors and persons with disabilities who are nursing home eligible.

We would pull addresses based on the address provided by the senior or their caregiver at time of assessment/enrollment. Postal zip codes often but not always recorded.

We can start with the City of Flint and then on a 2nd run we could pull from the other communities that are also fully or partially served by the Flint Water System.

Thoughts?

**Importance:** High

Hi Eric, Attached please find for posting to the Flint Water website, the Residential Results as of February 9, 2016. This information has also been provided to Meegan Holland in the Governor's office.

Please let me know if you have any questions.

### **This note is for Monday, February 9, 2016**

Please find attached the full list of residential results through the date listed above (5 attachments). Please note that this version includes concentrations in ppb and the street number is separated from street name to make it easier to find the address. Also, there are pdfs of the two worksheets for people who don't have Microsoft office. All have been prepped for the web minus the naming convention that is usually used.

1. For the accordion on the lower left under the title "School and Residential Testing Results, the following are to Replace current and see above for language changes (3 attachments):

**Asset # 512083** – February 9 2016 Test Results Flint.xlsx

**Asset# 512511** – February 9 2016 Test Results Flint\_Sorted By Address.pdf

**Asset# 512510** – February 9 2016 Test Results Flint\_Sorted by Lead Concentration.pdf

2. For the same accordion underneath the DEQ reports to EPA, The Test Results Flint DEQ Reports to the EPA Asset needs updating (1 attachment):

**Asset# 512820** - February 9 2016 Test Results Flint\_DEQ Reports to the EPA.xlsx

3. The following is for the MSP-SEOCGIS for geocoding (1 attachment) and not prepped for the web; Please send to **MSP-SEOCGIS@michigan.gov** and **MSP-SEOCGIS2@michigan.gov**

February 9 2016 Test Results Flint\_For MSP-SEOCGIS.xlsx

Please note that the workbooks (XLSX) contains two tabs: One has the data sorted by Lead concentration and the other is sorted by address. Posting this data in a timely manner upon approval from the Governor's office is of the essence so that we can comply with the order issued by EPA.

Please post this to the website ASAP and make sure that all are posted so that people can look at the version that they are interested in.

Thank you!!!

Good Morning Walter,

We think we can generate an excel report from our National Aging Program Information System (NAPIS) database listing the addresses of older adults receiving all In-Home services or one or more specific programs from grant funding this office provides to the Valley Area Agency on Aging. These programs serve a population age 60 and older that meet varying levels of functional loss up to and including being eligible for admission to a nursing home.

Please keep in mind, the list we can generate cannot be exhaustive of all older adults with functional loss because there are families that pay privately for home supportive services or may be receiving in home rehab covered by their insurance.

Specific In-Home Service Programs would include seniors who've enrolled for the following services:

- Home Delivered Meals (HDM)
- Care Management (CM)
- Case Coordination and Support (CCS)
- Chore
- Homemaking
- Medication Management
- Personal Care
- In Home Respite
- Adult Day Services

Valley Area Agency on Aging is also the Medicaid MiChoice Waiver (Waiver) agent for Genesee County and can generate a list of addresses for seniors in that program. The Waiver program provides in home services to seniors and persons with disabilities who are nursing home eligible.

We would pull addresses based on the address provided by the senior or their caregiver at time of assessment/enrollment. Postal zip codes often but not always recorded.

We can start with the City of Flint and then on a 2nd run we could pull from the other communities that are also fully or partially served by the Flint Water System.

Thoughts?

**Subject:** Residential Parcels Marked Vacant By Field Teams  
**Attachments:** Vacant\_NoFilter\_20160209.xlsx

Attached is the spreadsheet of addresses marked vacant by the Field Teams and do not have a filter.

Just as an FYI:

12,275 Parcels Marked Vacant by Field Teams (this number has gone up since the last time this subset of data was pulled)

7,279 Parcels Marked Vacant by Field Teams but have a confirmed filter.

4,996 Parcels Marked Vacant by Field Teams and do not have a confirmed filter. These could be accurate vacant parcels but the above data casts some doubt on that.

**Subject:** Updated Residential Parcel Statistics

AS OF **2/9/2016** AT 1700 USING DATA FROM FLINT WATER RESPONSE TEAMS, POD DISTRIBUTIONS, AND GENESEE COUNTY HEALTH DISTRIBUTION DATA.

NOTE: PLEASE REMEMBER THAT PAPER DATA AND DATA ENTRY FROM PREVIOUS DAYS CONTINUES TO COME IN AND WILL BE INCLUDED IN THE TOTALS AS IT IS RECEIVED.

We are tracking **38,876** residential parcels that the City of Flint has identified as non-vacant (including Franchise). Of those:

- **38,322 (98.6%)** of the parcels have been engaged as part of response efforts
- **29,813 (76.7%)** of the parcels have been confirmed have some form of filter
- **12,112 (31.2%)** of the parcels have volunteered for water testing
- **965 (2.5%)** of the parcels have not had personal contact (not home or did not visit a POD)

We are also tracking that there are 30188 active water subscribers (metered service lines) in the city. When consolidated down and filtering out only residential there are **27,180** residential parcels that have the ability to use the Flint Water System. Of these

- **26,985 (99.3%)** of of the parcels have been engaged as part of response efforts
- **23,897 (87.9%)** of the parcels have been confirmed have some form of filter
- **10,758 (39.6%)** of the parcels have volunteered for water testing
- **657 (2.4%)** of the parcels have not had personal contact (not home or did not visit a POD)

Please let me know if you need anything else.

**Subject:** RE: Matching of Senior addresses with DEQ's High Lead test addresses

What do you think about taking this one step further and not only identify the ones whose water tested high, but identify the ones who have no test results, so we could reach out to them and encourage them to submit their samples. We are doing this with our foster care homes, and keep hounding them until they have all been tested. This may generate some requests for assistance, that we should be able to address with our rapid response framework.

**Subject:** Matching of Senior addresses with DEQ's High Lead test addresses

Hello again Walter,

Back in January AASA forwarded to the MSP GIS unit several spreadsheets with addresses of at-risk Flint seniors for GIS geo-mapping. These lists included Flint seniors receiving in-home services from VAAA, Medicaid eligible Flint seniors and persons with disabilities receiving MDHHS MiChoice Waiver funded services through VAAA, and seniors receiving, and Flint seniors enrolled in MDHHS Adult Protective Services (APS) Home Help program and in the APS Adult Community Placement (placed in Adult Foster Care Homes) Program. My understanding is that the Genesee County Senior Millage Care Management program send MSP a list of their Flint clients directly. All in all, about 3,000+ addresses of frail at-risk Flint seniors.

REQUEST: Could your GIS unit cross-reference these addresses of at-risk seniors with the addresses from DEQ that tested high lead levels?

This would help facilitate the direct follow-up with those seniors, or their caregivers, living at high lead addresses by our local VAAA, APS, and Genesee Senior Millage Care Management program partners.

To be helpful, I'll re-send the various lists sent by AASA in January w/ various encryption keys sent separately. This will not include the Genesee Senior Millage's info. As I mentioned earlier, that list(s) was not sent through AASA, but rather sent directly to MSP by the Genesee Senior Millage program.

Thanks so much.

**Subject:** RE: 2015-10-01-City of Flint-Water Contamination / Shortage: mapping aged population (Older Adults)

Walter,

We are almost finished generated an excel list with approximately 1400 addresses for seniors living in Flint who receive in-home services.

Are you our GIS point of contact to receive this list or is there someone else?

1. Our list is sorted by service category to make it easier to for MSP to prioritize residents by level of needed service. Seniors receiving Care Management, Home Delivered Meals, Personal Care, and going to Adult Day Centers are most likely to have the higher physical or cognitive functional deficits.
2. Valley Area Agency on Aging (Valley)'s Executive Director, Kathy Boles is generating an additional list of Flint seniors and adults under age 60 who receive MiChoice Waiver services. Valley will forward that list to AASA and We will forward it to MSP.
3. Ms. Boles is contacting the Genesee Senior Millage Care Management provider to request a list of their In-Home Services clients. She estimates Senior Millage about serves another 1,400 older adults as well.

4. We also working with our APS friends to generate addresses for APS's Home Help and Adult Community Placement clients over age 60 living in Flint. We hope to have something by Wednesday at the earliest.

Steve Betterly

Subject: RE: 2015-10-01-City of Flint-Water Contamination / Shortage: mapping aged population (Older Adults)

Good Morning Walter,

We think we can generate an excel report from our National Aging Program Information System (NAPIS) database listing the addresses of older adults receiving all In-Home services or one or more specific programs from grant funding this office provides to the Valley Area Agency on Aging. These programs serve a population age 60 and older that meet varying levels of functional loss up to and including being eligible for admission to a nursing home.

Please keep in mind, the list we can generate cannot be exhaustive of all older adults with functional loss because there are families that pay privately for home supportive services or may be receiving in home rehab covered by their insurance.

Specific In-Home Service Programs would include seniors who've enrolled for the following services:

Home Delivered Meals (HDM)  
Care Management (CM)  
Case Coordination and Support (CCS)  
Chore  
Homemaking  
Medication Management  
Personal Care  
In Home Respite  
Adult Day Services

Valley Area Agency on Aging is also the Medicaid MiChoice Waiver (Waiver) agent for Genesee County and can generate a list of addresses for seniors in that program. The Waiver program provides in home services to seniors and persons with disabilities who are nursing home eligible.

We would pull addresses based on the address provided by the senior or their caregiver at time of assessment/enrollment. Postal zip codes often but not always recorded.

We can start with the City of Flint and then on a 2nd run we could pull from the other communities that are also fully or partially served by the Flint Water System.

Thoughts?

**Subject:** FW: Information for AASA

Good afternoon Walter,

Attached is an encrypted file from VAAA in Flint of another 79 addresses for City of Flint seniors, age 60 and older, who are receiving services through the MiChoice Medicaid Waiver Program. These are very frail Medicaid eligible seniors who would be in nursing homes but the in-home services they receive.

An encryption key will be sent separately.

Also attached are 4 unencrypted files listing unlicensed senior housing facilities that serve Flint seniors ranging in function from fairly independent to needing assistance with activities of daily living. Thought it would be good to know where these facilities are located in relationship to the hot spots.

Thanks again for mapping out these seniors living in Flint.

**Subject:** RE: 2015-10-01-City of Flint-Water Contamination / Shortage: mapping aged population (Older Adults)

Walter,

We are almost finished generated an excel list with approximately 1400 addresses for seniors living in Flint who receive in-home services.

Are you our GIS point of contact to receive this list or is there someone else?

1. Our list is sorted by service category to make it easier to for MSP to prioritize residents by level of needed service. Seniors receiving Care Management, Home Delivered Meals, Personal Care, and going to Adult Day Centers are most likely to have the higher physical or cognitive functional deficits.
2. Valley Area Agency on Aging (Valley)'s Executive Director, Kathy Boles is generating an additional list of Flint seniors and adults under age 60 who receive MiChoice Waiver services. Valley will forward that list to AASA and We will forward it to MSP.
3. Ms. Boles is contacting the Genesee Senior Millage Care Management provider to request a list of their In-Home Services clients. She estimates Senior Millage about serves another 1,400 older adults as well.
4. We also working with our APS friends to generate addresses for APS's Home Help and Adult Community Placement clients over age 60 living in Flint. We hope to have something by Wednesday at the earliest.

**Subject:** RE: 2015-10-01-City of Flint-Water Contamination / Shortage: mapping aged population (Older Adults)

Good Morning Walter,

We think we can generate an excel report from our National Aging Program Information System (NAPIS) database listing the addresses of older adults receiving all In-Home services or one or more specific programs from grant funding this

office provides to the Valley Area Agency on Aging. These programs serve a population age 60 and older that meet varying levels of functional loss up to and including being eligible for admission to a nursing home.

Please keep in mind, the list we can generate cannot be exhaustive of all older adults with functional loss because there are families that pay privately for home supportive services or may be receiving in home rehab covered by their insurance.

Specific In-Home Service Programs would include seniors who've enrolled for the following services:

Home Delivered Meals (HDM)  
Care Management (CM)  
Case Coordination and Support (CCS)  
Chore  
Homemaking  
Medication Management  
Personal Care  
In Home Respite  
Adult Day Services

Valley Area Agency on Aging is also the Medicaid MiChoice Waiver (Waiver) agent for Genesee County and can generate a list of addresses for seniors in that program. The Waiver program provides in home services to seniors and persons with disabilities who are nursing home eligible.

We would pull addresses based on the address provided by the senior or their caregiver at time of assessment/enrollment. Postal zip codes often but not always recorded.

We can start with the City of Flint and then on a 2nd run we could pull from the other communities that are also fully or partially served by the Flint Water System.

Thoughts?

**Cc:** Wamsley, Scott (DHHS); Berke, Eric (DHHS); Boles, Kathy; Thelen, Richard (DHHS); Sederburg, Kari (DHHS)  
**Subject:** Matching of Senior addresses with DEQ's High Lead test addresses

Hello again Walter,

Back in January AASA forwarded to the MSP GIS unit several spreadsheets with addresses of at-risk Flint seniors for GIS geo-mapping. These lists included Flint seniors receiving in-home services from VAAA, Medicaid eligible Flint seniors and persons with disabilities receiving MDHHS MiChoice Waiver funded services through VAAA, and seniors receiving, and Flint seniors enrolled in MDHHS Adult Protective Services (APS) Home Help program and in the APS Adult Community Placement (placed in Adult Foster Care Homes) Program. My understanding is that the Genesee County Senior Millage Care Management program send MSP a list of their Flint clients directly. All in all, about 3,000+ addresses of frail at-risk Flint seniors.

REQUEST: Could your GIS unit cross-reference these addresses of at-risk seniors with the addresses from DEQ that tested high lead levels?

This would help facilitate the direct follow-up with those seniors, or their caregivers, living at high lead addresses by our local VAAA, APS, and Genesee Senior Millage Care Management program partners.

To be helpful, I'll re-send the various lists sent by AASA in January w/ various encryption keys sent separately. This will not include the Genesee Senior Millage's info. As I mentioned earlier, that list(s) was not sent through AASA, but rather sent directly to MSP by the Genesee Senior Millage program.

Thanks so much.

**Subject:** Re: LOVELAND parcel mapping from Detroit

Thank you, James. I picked up the cold myself and am just starting to put it down after a few days. \*shudders\*

If you or anyone has questions please let me know. Our passion and expertise is making beautiful, intuitive parcel dashboards for displaying and updating property data.

While we're here, please let me quickly share a related issue that's been on our minds and may have further damaging consequences for Flint if it's not being addressed.

As you may know, several Michigan communities have had a really tragically bad time under our state's strict tax foreclosure laws where properties are foreclosed after falling 2 years behind on property taxes and then auctioned at the end of the 3rd year (Public Act 123 of 1999).

We've been tracking tax foreclosure in Detroit for years, and it's worse than it's ever been with 33,000 occupied homes housing 100,000 people due to be foreclosed and auctioned this year (I know that looks like a typo but it's not...): [detroit.makeloveland.com](http://detroit.makeloveland.com).

Flint has also been hit hard by tax foreclosure as you can see in this map of Genesee County Land Bank properties which have mostly gone to the land bank from tax foreclosure and not selling at the auction: <http://makeloveland.com/landbank/mi/genesee/flint#b=none>

With the water problems reducing property values so heavily and causing untold local economic problems, do you know if anyone is looking into the impact on property tax delinquency? It wouldn't be surprising to see a lot of occupied houses moving into tax foreclosure next year and the year after.

Also note, I know in previous years in Detroit that unpaid water bills were tacked on top of delinquent tax bill which helped pull some people into foreclosure. That has stopped in the last year here, but I'm not sure how it currently works in Flint.

I raise this because if it's not addressed it could be a further shock to the system and to Flint residents over the next year if people's houses are taken away for falling behind during this difficult period. If this is a digression I apologize, but I want to make sure that experts and authorities who are looking into the water are aware of this side effect.

Thank you, and I hope you continue to feel better. Please keep up the hard work.

Hi James. I hope you are well! Just sharing a link we put up to visualize water data as it appears: [makeloveland.com/flint](http://makeloveland.com/flint) . This first map shows recent lead levels for 6,000 or so homes via the Department of Environmental Quality page. As more mappable information comes out publicly, and more stories emerge, we'd like to add it to the map and credit it. If there's anything else you think we should post please let me know. Thank you and keep it up!

Jerry

Sent from my iPhone

On Jan 30, 2016, at 12:37 PM, Jerry Paffendorf <[jerryp@gmail.com](mailto:jerryp@gmail.com)> wrote:

James, thank you for your time on the phone today.

As I mentioned we specialize in parcel mapping, data visualization, field collection, and the public display of information.

Please see our base parcel map of Flint at <https://makeloveland.com/us/mi/genesee> . We could easily integrate water and other data and make it very simple for people to see and update as work happens.

<image1.PNG>

<image2.PNG>

We also have census data integrated:

<image3.PNG>

Please also see our citywide survey of land use, vacancy, and property conditions in Detroit: [motorcitymapping.org](http://motorcitymapping.org) .

<image4.PNG>

Click a neighborhood and then click a property characteristic like "Fire Damage" to highlight all properties of that kind.

<image5.PNG>

Under Explore you can get very granular in your search, like show me every unoccupied house owned by the public that is in poor or suggest poor condition... or, in Flint, say, show me every occupied house with lead pipes who we haven't connected with yet.

<image6.PNG>

I think you will get the idea quickly and see that I'm not exaggerating when I say we are the best in the world at this work. Our maps are pretty and fast and easy to use, and can handle tons of data.

The conversation we have had with Flint so far has been around providing a public dashboard for their Blight Elimination program build on our Site Control platform: [sitecontrol.us](http://sitecontrol.us). As you discuss how to show and update and integrate the water data into Flint systems, please keep it in mind that we already have a positive conversation going there, so maybe there's a way to combine it.

Thank you for your time on the phone. Please pass this note on to your team and anyone you think will be interested. We are very close to Flint and so can join any meetings as well. We're happy to do whatever it takes to be involved in helping the city and state get on top of this.

Oh, and finally, the blog post and map my my colleague Alex made this morning after someone tweeted us a link about your digitizing the paper maps: <https://makeloveland.com/blog/digitizing-maps-showing-locations-of-flin> .

Hopefully talk to you soon. All my best,

Jerry Paffendorf

**To:** MSP-SEOCGIS; Henderson, Justin (MDARD)  
**Cc:** Hainstock, Lisa (MDARD); MSP-EOC-MDARD  
**Subject:** RE: Food Establishments

Correct, but we'd like to see the facility names, addresses, and corresponding test results.

As it is now, we're only seeing a summary of what is in each zone, for instance, Zone 1 has x number of facilities, etc.

Thank you,

Dan Metiva III

**Subject:** Full List of Residential Results for February 8, 2016  
**Attachments:** February 8 2016 Test Results Flint\_Sorted by Lead Concentration.pdf; February 8 2016 Test Results Flint\_Sorted by Address.pdf; February 8 2016 Test Results Flint\_For MSP-SEOCGIS.xlsx; February 8 2016 Test Results Flint.xlsx; February 8 2016 Test Results Flint\_DEQ Reports to EPA.xlsx

**Importance:** High

Hi Eric, Attached please find for posting to the Flint Water website, the Residential Results as of February 8, 2016. This information has also been provided to Meegan Holland in the Governor's office.

Please let me know if you have any questions.

### **This note is for Monday, February 8, 2016**

Please find attached the full list of residential results through the date listed above (5 attachments). Please note that this version includes concentrations in ppb and the street number is separated from street name to make it easier to find the address. Also, there are pdfs of the two worksheets for people who don't have Microsoft office. All have been prepped for the web minus the naming convention that is usually used. I will follow this format going forward. **If I fail to do that then please let me know:**

1. For the accordion on the lower left under the title "School and Residential Testing Results, the following are to Replace current and see above for language changes (3 attachments):

**Asset # 512083** – February 8 2016 Test Results Flint.xlsx

**Asset# 512511** – February 8 2016 Test Results Flint\_Sorted By Address.pdf

**Asset# 512510** – February 8 2016 Test Results Flint\_Sorted by Lead Concentration.pdf

2. For the same accordion underneath the DEQ reports to EPA, The Test Results Flint DEQ Reports to the EPA Asset needs updating (1 attachment):

**Asset# 512820** - February 8 2016 Test Results Flint\_DEQ Reports to the EPA.xlsx

3. The following is for the MSP-SEOCGIS for geocoding (1 attachment) and not prepped for the web; Please send to **MSP-SEOCGIS@michigan.gov** and **MSP-SEOCGIS2@michigan.gov**

February 8 2016 Test Results Flint\_For MSP-SEOCGIS.xlsx

4. Calculations as requested:

Data Summary for <i>Current Date</i>	Number	Percent		
Total number of samples:	8317			
At or below 15 ppb:	7771	93%	Above 15 ppb:	546
<5 ppb:	6812	82%		
5-15 ppb:	546	7%		
>15-30 ppb:	293	3.5%		
>30-100 ppb:	95	1.1%		
>100-150 ppb:	27	0.3%		
>150 ppb:	68	0.8%		

Please note that the workbooks (XLSX) contains two tabs: One has the data sorted by Lead concentration and the other is sorted by address. Posting this data in a timely manner upon approval from the Governor's office is of the essence so that we can comply with the order issued by EPA.

**Please post this to the website ASAP and make sure that all are posted so that people can look at the version that they are interested in.**

**Thank you!!!**

**From:** MSP-SEOCGIS2  
**Sent:** Monday, February 08, 2016 7:32 PM  
**To:** plangc  
**Cc:** MSP-SEOCGIS  
**Subject:** Updated Residential Parcel Statistics

AS OF **February 8, 2016** AT 1700 USING DATA FROM FLINT WATER RESPONSE TEAMS, POD DISTRIBUTIONS, AND GENESEE COUNTY HEALTH DISTRIBUTION DATA.

NOTE: PLEASE REMEMBER THAT PAPER DATA AND DATA ENTRY FROM PREVIOUS DAYS CONTINUES TO COME IN AND WILL BE INCLUDED IN THE TOTALS AS IT IS RECEIVED. ALSO, WE IDENTIFIED ADDITIONAL WATER SUBSCRIBERS IN RESIDENTIAL PARCELS WHICH RESULTED IN THE RED CHANGE BELOW.

We are tracking **38,876** residential parcels that the City of Flint has identified as non-vacant (including Franchise). Of those:

- **38322 98.6%** of the parcels have been engaged as part of response efforts
- **29769 76.6%** of the parcels have been confirmed have some form of filter
- **12093 31.1%** of the parcels have volunteered for water testing

We are also tracking that there are **30188** active water subscribers (*metered service lines*) in the city. When consolidated down and filtering out only residential there are **27180** residential parcels that have the ability to use the Flint Water System. Of these

- **26985 99.3%** of the parcels have been engaged as part of response efforts
- **23857 87.8%** of the parcels have been confirmed have some form of filter
- **10741 39.5%** of the parcels have volunteered for water testing

Please let me know if you need anything else.

**Subject:** FW: Full List of Residential Results for February 7, 2016  
**Importance:** High

Hi Darlene, Attached please find for posting to the Flint Water website, the Residential Results as of February 7, 2016. This information has also been provided to Meegan Holland.

Please let me know if you have any questions.

**This note is for Sunday, February 7, 2016. There were changes in the report so, if Darlene could make the title the following for the web, everything should be clear: "Flint Residential Testing Report – results collected through February 5, 2016 (posted February 7, 2016)" or something equivalent. ☺**

Please find attached the full list of residential results through the date listed above (5 attachments). Please note that this version includes concentrations in ppb and the street number is separated from street name to make it easier to find the address. Also, there are pdfs of the two worksheets for people who don't have Microsoft office. All have been prepped for the web minus the naming convention that is usually used. I will follow this format going forward. **If I fail to do that then please let me know:**

1. For the accordion on the lower left under the title "School and Residential Testing Results, the following are to Replace current and see above for language changes (3 attachments):

**Asset # 512083 – February 7 2016 Test Results Flint.xlsx**

**Asset# 512511 – February 7 2016 Test Results Flint\_Sorted By Address.pdf**

**Asset# 512510 – February 7 2016 Test Results Flint\_Sorted by Lead Concentration.pdf**

2. For the same accordion underneath the DEQ reports to EPA, The Test Results Flint DEQ Reports to the EPA Asset needs updating (1 attachment):

**Asset# 512820 - February 7 2016 Test Results Flint\_DEQ Reports to the EPA.xlsx**

3. The following is for the MSP-SEOCGIS for geocoding (1 attachment) and not prepped for the web; Please send to **MSP-SEOCGIS@michigan.gov** and **MSP-SEOCGIS2@michigan.gov**

**February 7 2016 Test Results Flint\_For MSP-SEOCGIS.xlsx**

4. Calculations as requested:

**Total number of samples: 7948**

**7430 out of 7948 (94%) are at or below 15 ppb (518 above)**

**<5 ppb: 6513 (82%)**

**5-15 ppb: 917(11%)**

**> 15 ppb: 518 (7%)**

**>30 ppb: 279 (4%)**

**>100 ppb: 87 (1%)**

**>150 ppb: 62 (0.8%)**

Please note that the results are for all samples reported out through today February 7, 2016 in all documents. In addition, the workbooks (XLSX) contains two tabs: One has the data sorted by Lead concentration and the other is sorted by address.

Posting this data in a timely manner upon approval from the Governor's office is of the essence so that we can comply with the order issued by EPA.

Please post this to the website ASAP and make sure that all are posted so that people can look at the version that they are interested in.

Thank you!!!

Susan

**Importance:** High

**Follow Up Flag:** Follow up  
**Flag Status:** Flagged

Hi Darlene, Attached please find for posting to the Flint Water website, the Residential Results as of February 7, 2016. This information has also been provided to Meegan Holland.

Please let me know if you have any questions.

**This note is for Sunday, February 7, 2016. There were changes in the report so, if Darlene could make the title the following for the web, everything should be clear: "Flint Residential Testing Report – results collected through February 5, 2016 (posted February 7, 2016)" or something equivalent. ☺**

Please find attached the full list of residential results through the date listed above (5 attachments). Please note that this version includes concentrations in ppb and the street number is separated from street name to make it easier to find the address. Also, there are pdfs of the two worksheets for people who don't have Microsoft office. All have been prepped for the web minus the naming convention that is usually used. I will follow this format going forward. **If I fail to do that then please let me know:**

1. For the accordion on the lower left under the title "School and Residential Testing Results, the following are to Replace current and see above for language changes (3 attachments):

**Asset # 512083** – February 7 2016 Test Results Flint.xlsx

**Asset# 512511** – February 7 2016 Test Results Flint\_Sorted By Address.pdf

**Asset# 512510** – February 7 2016 Test Results Flint\_Sorted by Lead Concentration.pdf

2. For the same accordion underneath the DEQ reports to EPA, The Test Results Flint DEQ Reports to the EPA Asset needs updating (1 attachment):

**Asset# 512820** - February 7 2016 Test Results Flint\_DEQ Reports to the EPA.xlsx

3. The following is for the MSP-SEOCGIS for geocoding (1 attachment) and not prepped for the web; Please send to **MSP-SEOCGIS@michigan.gov** and **MSP-SEOCGIS2@michigan.gov**

4. Calculations as requested:

Total number of samples: 7948

7430 out of 7948 (94%) are at or below 15 ppb (518 above)

<5 ppb: 6513 (82%)

5-15 ppb: 917 (11%)

> 15 ppb: 518 (7%)

>30 ppb: 279 (4%)

>100 ppb: 87 (1%)

>150 ppb: 62 (0.8%)

Please note that the results are for all samples reported out through today February 7, 2016 in all documents. In addition, the workbooks (XLSX) contains two tabs: One has the data sorted by Lead concentration and the other is sorted by address.

Posting this data in a timely manner upon approval from the Governor's office is of the essence so that we can comply with the order issued by EPA.

**Please post this to the website ASAP and make sure that all are posted so that people can look at the version that they are interested in.**

**Thank you!!!**

**Cc:** plangc  
**Subject:** Water meter numbers

Hi all

I am not sure who would have this, so I am asking the group. We are trying to understand the decline in water cases being distributed, which can have many reasons, so that we can forecast the future need of bottle water. One of the questions is whether people are using the city water more. Is there a contact person with the water department or are there new meter readings to see if there is an increase in the citizens using the city water now that there are faucet filters being distributed throughout the city?

Thanks  
Sam

Hi James. I hope you are well! Just sharing a link we put up to visualize water data as it appears: [makeloveland.com/flint](http://makeloveland.com/flint) . This first map shows recent lead levels for 6,000 or so homes via the Department of Environmental Quality page. As more mappable information comes out publicly, and more stories emerge, we'd like to add it to the map and credit it. If there's anything else you think we should post please let me know. Thank you and keep it up!

On Jan 30, 2016, at 12:37 PM, Jerry Paffendorf <jerryyp@gmail.com> wrote:

James, thank you for your time on the phone today.

As I mentioned we specialize in parcel mapping, data visualization, field collection, and the public display of information.

Please see our base parcel map of Flint at <https://makeloveland.com/us/mi/genesee> . We could easily integrate water and other data and make it very simple for people to see and update as work happens.

<image1.PNG>

<image2.PNG>

We also have census data integrated:

<image3.PNG>

Please also see our citywide survey of land use, vacancy, and property conditions in Detroit: [motorcitymapping.org](http://motorcitymapping.org) .

<image4.PNG>

Click a neighborhood and then click a property characteristic like "Fire Damage" to highlight all properties of that kind.

<image5.PNG>

Under Explore you can get very granular in your search, like show me every unoccupied house owned by the public that is in poor or suggest poor condition... or, in Flint, say, show me every occupied house with lead pipes who we haven't connected with yet.

<image6.PNG>

I think you will get the idea quickly and see that I'm not exaggerating when I say we are the best in the world at this work. Our maps are pretty and fast and easy to use, and can handle tons of data.

The conversation we have had with Flint so far has been around providing a public dashboard for their Blight Elimination program build on our Site Control platform: [sitecontrol.us](http://sitecontrol.us). As you discuss how to show and update and integrate the water data into Flint systems, please keep it in mind that we already have a positive conversation going there, so maybe there's a way to combine it.

Thank you for your time on the phone. Please pass this note on to your team and anyone you think will be interested. We are very close to Flint and so can join any meetings as well. We're happy to do whatever it takes to be involved in helping the city and state get on top of this.

Oh, and finally, the blog post and map my my colleague Alex made this morning after someone tweeted us a link about your digitizing the paper maps: <https://makeloveland.com/blog/digitizing-maps-showing-locations-of-flin> .

Hopefully talk to you soon. All my best,

Jerry Paffendorf

Good morning Brian,

Unfortunately I adopted the water line data when I started working with the city and I have very limited metadata available. Below I've included a key for the Material field.

10"ENC - 10" Diameter Concrete Encased  
C.W. - (He didn't have an answer for this one)  
CI - Cast Iron  
CIP - Cast Iron  
CONC - Concrete Encased  
DI - Ductal Iron  
ENC - Concrete Encased  
GAL - Galvanized Iron  
N.C. - (He didn't have an answer for this one)  
R C CONC - Concrete Encased  
RC CONC - Concrete Encased  
STEEL - Steel

**Subject:** Apps

Hey Brian,

We wanted to touch base today to figure out what our plan is for apps for DEQ teams. EPA has an app that they are using for their field data collection. We worked diligently to ensure that they provide us an account to the app to get a feel for how it works and potentially make it available for state teams to enter information into (although that still remains unclear at this time).

In short, there is an outstanding request that we really need to push your way... and I wouldn't be surprised if you are already working it.

The core of it is to have a tool for DEQ teams to use to round up data on water testing, plumber activities, and interview/case management questions.

Maybe it would be best to have a quick call today if you have time.

## MSP-SEOCGIS

---

**From:** MSP-SEOCGIS2  
**Sent:** Sunday, February 07, 2016 7:34 PM  
**To:** MSP-SEOCGIS; MSP-SEOCGIS2  
**Subject:** For Monday

For Monday:

Brianna requested that the dashboard data on the screens be replaced with a more static map. I guess the PODS and the teams aren't using them like they were, so she thinks Capt. Will notice this, and want it changed anyway. She suggested that we replace it with a Filter Density Map, or something with the areas that still need to be visited if possible.

Also, I attached a rough procedure of the process to update the water sampling points. It's not particularly hard, it is just tedious and takes a while. If you want, I can just do the new list when I get back on Weds.

Tom,

Attached is the POD map Lt. Roach and I created for the initial Church Distribution Plan. Please use at your discretion.. You may want to ask GIS to add the Flint City Ward boundaries as an overlay. Ken Kolenda, should be able to print this out for your visual aid. Again,, our plan was just an initial plan.

**Attachments:** poi\_test results.pdf

Cheryl,

Please see the message from our GIS staff below. I attached three maps that will provide a snapshot of the test results in the surrounding areas for points of interest.

In terms of a heatmap for the entire city, it looks like there is not enough data material available yet for parts of the city to create something that would be a realistic and representative overview.

Please let us know if these are helpful for you.

Thanks,  
Henrik

**Subject:** Water Samples Map

Henrik,

The heat maps really don't work that well for this, as some areas have only 1 or two houses tested, and then you would be averaging based on 1 or 2 samples.

I have included the Water Sample Results by Team Assignment Area (Township & Section), this is the scale at which the parcels are most easily viewable. I included the addresses:

1150 Robert T Longway, Flint 48503 - Holiday Inn Express  
1241 E. Kearsley St., Flint 48503 - The Whiting (entire Cultural Center)  
624 E. Kearsley St., Flint, 48503 - Whaley Historical House  
1201 N Grand Traverse, Flint, 48503 - Whaley Childrens Center  
3501 Lapeer Rd., Flint 48503 - Perani Arena (Dort Event Center)

You can find them on Team Assignment Areas 5, 7 & 15.

There are two attachments, one is a wall map for reference. The second is 38 pages long, broken down by team area.

-Nikkia

**Subject:** Updated Residential Parcel Statistics

AS OF February 3, 2016 AT 1700 USING DATA FROM FLINT WATER RESPONSE TEAMS, POD DISTRIBUTIONS, AND GENESEE COUNTY HEALTH DISTRIBUTION DATA.

NOTE: PLEASE REMEMBER THAT PAPER DATA AND DATA ENTRY FROM PREVIOUS DAYS CONTINUES TO COME IN AND WILL BE INCLUDED IN THE TOTALS AS IT IS RECEIVED.

We are tracking 38,876 residential parcels that the City of Flint has identified as non-vacant (including Franchise). Of those:

- 37955 97.6% of the parcels have been engaged as part of response efforts
- 28376 73.0% of the parcels have been confirmed have some form of filter
- 11681 30.0% of the parcels have volunteered for water testing
- 1644 4.2% of the parcels that have been visited by a Flint Water Response Team but not had personal contact (not home and did not visit a POD)

We are also tracking that there are 30188 active water subscribers (metered service lines) in the city. When consolidated down and filtering out only residential there are 26812 residential parcels that have the ability to use the Flint Water System. Of these

- 26500 98.8% of the parcels have been engaged as part of response efforts
- 22573 84.2% of the parcels have been confirmed have some form of filter
- 10270 38.3% of the parcels have volunteered for water testing
- 1057 3.9% of the parcels have not had personal contact (not home or did not visit a POD)

Please let me know if you need anything else.

**Attachments:** Flint Water Line Work?

I was wondering if there is any data related to water mains for the city? I looked through the Flint AGO and didn't see anything related to water mains or supply lines for the city.

Any help on where I might be able to locate this data would be greatly appreciated.

I have attached the request that I have received for what the request is that I received.

**Attachments:** MDARD\_LHD\_Flint\_List\_020516.xlsx

Hello MSP GIS colleagues!

It was great meeting with you (Walter and Melissa) earlier today. Attached please find a list of the establishments we've been targeting for assessment of proper water use and for sampling, as requested. It contains both MDARD-regulated and local health department (LHD-regulated) facilities. We're glad to talk further if you need any explanations of the data. It looks like our ArcGIS online account is up and running, so that's good!

I'll be putting in a MI CIMS resource request for some of the visual/tabular data of city sections and water test results.

Thanks for all your help, we'll be in touch.

-Justin

**This note is for Friday, February 5, 2016**

**\*\*NOTE\*\* No. 3 needs to be sent to the following addresses: MSP-SEOCGIS@michigan.gov and MSP-SEOCGIS2@michigan.gov**

Please find attached the full list of residential results through the date listed above (5 attachments). Please note that this version includes concentrations in ppb and the street number is separated from street name to make it easier to find the address. Also, there are pdfs of the two worksheets for people who don't have Microsoft office. All have been prepped for the web minus the naming convention that is usually used. I will follow this format going forward. **If I fail to do that then please let me know:**

1. For the accordion on the lower left under the title "School and Residential Testing Results, the following are to Replace current and renamed to end with this date of February 5, 2016 (3 attachments):

**Asset # 512083** – February 5 2016 Test Results Flint.xlsx

**Asset# 512511** – February 5 2016 Test Results Flint\_Sorted By Address.pdf

**Asset# 512510** – February 5 2016 Test Results Flint\_Sorted by Lead Concentration.pdf

2. For the same accordion underneath the DEQ reports to EPA, The Test Results Flint DEQ Reports to the EPA Asset needs updating (1 attachment):

**Asset# 512820** - February 5 2016 Test Results Flint\_DEQ Reports to the EPA.xlsx

3. The following is for the MSP-SEOCGIS for geocoding (1 attachment) and not prepped for the web; Please send to **MSP-SEOCGIS@michigan.gov** and **MSP-SEOCGIS2@michigan.gov**

**February 5 2016 Test Results Flint\_For MSP-SEOCGIS.xlsx**

Please note that the results are for all samples reported out through today February 5, 2016 in all documents. In addition, the workbooks (XLSX) contains two tabs: One has the data sorted by Lead concentration and the other is sorted by address.

Posting this data in a timely manner upon approval from the Governor's office is of the essence so that we can comply with the order issued by EPA.

**Please post this to the website ASAP and make sure that all are posted so that people can look at the version that they are interested in.**

**Cc:** Browne, Elizabeth (DEQ); MacKenzie-Taylor, Deb (DEQ); Norton, Susan (DEQ)  
**Subject:** RE: Full List of Residential Results for February 5, 2016

**This note is for Friday, February 5, 2016**

**\*\*NOTE\*\* No. 3 needs to be sent to the following addresses: [MSP-SEOCGIS@michigan.gov](mailto:MSP-SEOCGIS@michigan.gov) and [MSP-SEOCGIS2@michigan.gov](mailto:MSP-SEOCGIS2@michigan.gov)**

Please find attached the full list of residential results through the date listed above (5 attachments). Please note that this version includes concentrations in ppb and the street number is separated from street name to make it easier to find the address. Also, there are pdfs of the two worksheets for people who don't have Microsoft office. All have been prepped for the web minus the naming convention that is usually used. I will follow this format going forward. **If I fail to do that then please let me know:**

1. For the accordion on the lower left under the title "School and Residential Testing Results, the following are to Replace current and renamed to end with this date of February 5, 2016 (3 attachments):

**Asset # 512083 – February 5 2016 Test Results Flint.xlsx**

**Asset# 512511** – February 5 2016 Test Results Flint\_Sorted By Address.pdf

**Asset# 512510** – February 5 2016 Test Results Flint\_Sorted by Lead Concentration.pdf

2. For the same accordion underneath the DEQ reports to EPA, The Test Results Flint DEQ Reports to the EPA Asset needs updating (1 attachment):

**Asset# 512820** - February 5 2016 Test Results Flint\_DEQ Reports to the EPA.xlsx

3. The following is for the MSP-SEOCGIS for geocoding (1 attachment) and not prepped for the web; Please send to **MSP-SEOCGIS@michigan.gov** and **MSP-SEOCGIS2@michigan.gov**

February 5-2016 Test Results Flint\_For MSP-SEOCGIS.xlsx •

Please note that the results are for all samples reported out through today February 5, 2016 in all documents. In addition, the workbooks (XLSX) contains two tabs: One has the data sorted by Lead concentration and the other is sorted by address.

Posting this data in a timely manner upon approval from the Governor's office is of the essence so that we can comply with the order issued by EPA.

**Please post this to the website ASAP and make sure that all are posted so that people can look at the version that they are interested in.**

**Thank you!!!**

**Cc:** Browne, Elizabeth (DEQ)  
**Subject:** Full List of Residential Results for February 4, 2016  
This note is for Thursday February 4, 2016 Also, on the Content # 75373 there is unwanted assets appearing. Please remove the following, since they appear in the new documents attached. I am not sure how they all have the same asset numbers but appear on the page:  
Flint Residential Testing Report Sorted by Lead Concentration - results through February 2, 2016 [PDF icon]  
<[http://www.michigan.gov/documents/flintwater/January\\_29\\_2016\\_Test\\_Results\\_Flint\\_Sorted\\_by\\_Lead\\_Concentration\\_512510\\_7.pdf](http://www.michigan.gov/documents/flintwater/January_29_2016_Test_Results_Flint_Sorted_by_Lead_Concentration_512510_7.pdf)>  
Flint Residential Testing Report Sorted by Address - results through February 1, 2016 [PDF icon]  
<[http://www.michigan.gov/documents/flintwater/January\\_29\\_2016\\_Test\\_Results\\_Flint\\_Sorted\\_by\\_Address\\_512511\\_7.pdf](http://www.michigan.gov/documents/flintwater/January_29_2016_Test_Results_Flint_Sorted_by_Address_512511_7.pdf)>  
Flint Residential Testing Report - results through February 1, 2016 [Excel icon]  
<[http://www.michigan.gov/documents/flintwater/Flint\\_Residential\\_Testing\\_Report\\_January\\_26\\_2016\\_512083\\_7.xlsx](http://www.michigan.gov/documents/flintwater/Flint_Residential_Testing_Report_January_26_2016_512083_7.xlsx)>

Please find attached the full list of residential results through the date listed above (5 attachments). Please note that this version includes concentrations in ppb and the street number is separated from street name to make it easier to find the address. Also, there are pdfs of the two worksheets for people who don't have Microsoft office. All have been prepped for the web minus the naming convention that is usually used. I will follow this format going forward. If I fail to do that then please let me know:

1. For the web page [http://www.michigan.gov/flintwater/0,6092,7-345-75251\\_75373---,00.html](http://www.michigan.gov/flintwater/0,6092,7-345-75251_75373---,00.html), found under the accordion lower left "Keeping lead out: Water Test Results and Reports"/ "Keeping lead out of the home: Tips and Residential Water Test Results", the following are to Replace current and renamed in the content page to end with this date of February 4, 2016 (3 attachments):

Asset # 512083 – February 4 2016 Test Results Flint.xlsx

Asset# 512511 – February 4 2016 Test Results Flint\_Sorted By Address.pdf

Asset# 512510 – February 4 2016 Test Results Flint\_Sorted by Lead Concentration.pdf

2. For the same accordion underneath the DEQ reports to EPA, The Test Results Flint DEQ Reports to the EPA Asset needs updating (1 attachment):

Asset# 512820 - February 4 2016 Test Results Flint\_DEQ Reports to the EPA.xlsx

3. The following is for the MSP-SEOCGIS for geocoding (1 attachment) and not prepped for the web:

February 4 2016 Test Results Flint\_For MSP-SEOCGIS.xlsx

Please note that the results are for all samples reported out through today February 4, 2016 in all documents. In addition, the workbooks (XLSX) contains two tabs: One has the data sorted by Lead concentration and the other is sorted by address.

Posting this data in a timely manner upon approval from the Governor's office is of the essence so that we can comply with the order issued by EPA.

Please post this to the website ASAP upon approval of the Governor's office and make sure that all are posted so that people can look at the version that they are interested in.

Thank you!!!

Calix,

DNR highlighted that a second meeting may be beneficial while we have folks down there between the leadership of all of the GIS staff participating in the incident.

I know that CDC, EPA, and others have been in Flint assisting. My rough tally is that there are about 30 GIS staff working on projects for the Flint Water Emergency. I want to make sure we are all synched up and on the same page.

Scott Bailey is CC'd. He is the FEMA GIS Coordinator for this incident. He can definitely help to facilitate making sure everyone has made it to the table so everyone gets a chance to meet in person if possible.

Also, any update on times for the DPW/City GIS meet?

Hey Calix,

I wanted to touch base as a result of a meeting we had this morning with the Center for Shared Solutions.

For background, they are the centralized resource here at the state for GIS. It's a very large group of GIS professionals with a wide range of skill sets and resources.

They asked how they could get involved and I recommended to them that they could potentially be of great benefit to you with regards to getting local resources optimized or built out that can be used to help manage infrastructure within the city long term. I know that they have standing relationships with ESRI and City Works (which I think is what the DPW is using). They could easily get representatives to the table from these vendors and start helping to build out a plan that is sustainable for the City of Flint that ensures you are getting the best from the software you have.

I don't want to push too far down this route unless you are comfortable with it. But, I think if we orchestrated a meeting with them they could really be helpful.

Please let me know your thoughts.

Good morning everyone,

I won't be able to make the call today. I woke up pretty ill and I'm not able to make it into work. I'll catch up on what I missed and what is needed tomorrow when I'm in.

---

### Flint MI GIS Coordination Call

Please excuse the change in time. I have a commitment to another Public Health call for Flint MI at 11:00 and cannot move it. I hope this time works for everyone. Please use the following number with the passcode  
This line is limited to 25 so please feel free to send me the names of any additional staff you feel we need to include in the coordination call. I have attached the current list of the invitees. Please update as needed and return it to me. Looking forward to making the sharing of the data as seamless as possible.

Items to discuss:

- Mapping products produced currently
- Mapping products needed
- Data produced
- Data needed
- Method for data exchange
- Method for product exchange
- Coordination with other agencies
- Other

Let me know if there are additional items to add to the agenda.

**Cc:** MSP-SEOCGIS; MSP-SEOCGIS2; FEDERALSEOC  
**Subject:** Lead Service Line Maps vs Water Test Kit Results

With Reference to the Last map of Lead Service Lines.

We started cross referencing points and are finding no correlation between lead service line maps with high lead levels.

We need to do more research to really flesh this out. But, it's actually quite fascinating that they aren't pairing up.

Please wait to use the lead service line map to guide operations until we can learn more about the lead service line dataset as it does not appear to be an accurate guide as to where high lead levels are appearing in the water system at this time.

**Subject:** Lead Service Line Map  
**Attachments:** Lead\_Parcels\_20160131\_COMPLETE.pdf

Please be advised that the attached Lead Service Line map is complete.

U of M Flint has been doing similar work. On Thursday we plan to touch base with them to cross validate our results.

Note, that the yellow could go either way.

Maybe this could help target our efforts in on known lead locations.

As a breakdown of the 38,831 residential parcels:

**21,044 (54%)** were noted as having a service line other than lead (copper, galvanized, tubeloy, etc.)

**13,978 (36%)** Residential Parcels did not have a record of what their service line was.

**3809 (10%)** Residential Parcels have a record of having a lead service line in the records, of those:

- **3734 (98%)** have been contacted
- **2908 (76%)** have been confirmed as having received a filter
- **1095 (29%)** are participating in water testing

We can also look into comparing to water test kit results if interested. But, I find it interesting that over half the city is thought not to have lead service lines.

**Subject:** Updated Residential Parcel Stastics

AS OF 1/31/2016 AT 1700 USING DATA FROM FLINT WATER RESPONSE TEAMS, POD DISTRIBUTIONS, AND GENESEE COUNTY HEALTH DISTRIBUTION DATA.

NOTE: PLEASE REMEMBER THAT PAPER DATA AND DATA ENTRY FROM PREVIOUS DAYS CONTINUES TO COME IN AND WILL BE INCLUDED IN THE TOTALS AS IT IS RECEIVED.

We are tracking **38,831** residential parcels that the City of Flint has identified as non-vacant (including Franchise). Of those:

- **37,628 (97.0%)** of the parcels have been engaged as part of response efforts
- **28,081 (72.3%)** of the parcels have been confirmed have some form of filter
- **12,712 (32.7%)** of the parcels have volunteered for water testing
- **2243 (5.8%)** of the parcels have not had personal contact (not home or did not visit a POD)

We are also tracking that there are 29994 active water subscribers (metered service lines) in the city. When consolidated down and filtering out only residential there are **26,673** residential parcels that have the ability to use the Flint Water System. Of these:

- **26,395 (99%)** of the parcels have been engaged as part of response efforts
- **22,334 (83.7%)** of the parcels have been confirmed have some form of filter
- **11,169 (41.8%)** of the parcels have volunteered for water testing
- **1635 (6.1%)** of the parcels have not had personal contact (not home or did not visit a POD)

Please let me know if you need anything else.

Hey Michelle,

CPT advised that we need to be sure to synch up with the UCG GIS personnel.

Could you please advise on a good point of contact?

I know that we are going to be coming down to Flint Thursday in order to bring DTMB/CSS to meet with the city regarding their long term strategy to get the most out of their systems and integrate data we've gathered during the incident into their workflows for long term updates.

Maybe we could tie a meeting in during that day.

Conveyed message to Mark Durno (EPA). He was pleased to hear that and offered that they have completed GIS efforts to map lead service lines, unknown lines, and other material lines and offered to share that with DEQ if we have anyone that would like to come to their office to view. I inquired if there is a way the information can be shared electronically and he thought perhaps pdf. I suspect there are ways to share the electronic data, but don't have a solid enough understanding of GIS to know. Please let me know if you would like me to pursue same with DNR GIS team.

Durno also commented that it was very helpful to have you and other state agencies on the UCG call this morning and thought it was a positive step to move towards working together with a common operating picture.

**Subject:** Re: EPA Sampling

Advise EPA that DEQ will have sampling sites available at Monday's meeting that have a high probability of lead service lines. Residents have indicated they would cooperate with sampling teams.

Sent from my iPhone

On Jan 30, 2016, at 8:41 PM, Ducharme, Mark (DEQ) <[DUCHARMEM@michigan.gov](mailto:DUCHARMEM@michigan.gov)> wrote:

Today, I provided EPA with 50 "Flint Water Response Team" badges and lanyards to wear when they are working in the community. These are the same badges used by the volunteer canvassing workers to assure the residents the workers knocking on their doors are legitimate. The same badges were also provided to MDARD teams earlier in the week and reported during an SEOC brief on January 29, 2016.

Today, EPA advised they deployed two sampling teams to work on sequential sampling and a filter pilot through Monday, February 1, 2016. The filter pilot was described as collection of a sample from an unfiltered tap, followed by collection from a filtered tap, installation of a new filter, and collection of a sample through the newly installed filter. They have identified 30 homes for this 3 day effort. I don't know the locations or addresses, but may be able to obtain same if needed (please advise). Results were not discussed. DEQ, Robin Oeming, accompanied one of the EPA teams during the past week, which was primarily tasked with residual chlorine sampling. DEQ did not have personnel with EPA today and none scheduled for tomorrow. Oeming is scheduled to accompany one of EPA sampling teams on Monday, February 1, 2016.

Please route to DEQ ECC for information and to inquire direction whether a DEQ representative should be deployed with each EPA sampling team going forward.

Thank you.

Henrick:

We do not have a data set of lead levels for the city. We have locations of water testing sites but they are not public information at this time. We can make maps of affected areas but not lead levels at this time.

## MSP-SEOCGIS

**From:** Bailey, Scott <Scott.Bailey@fema.dhs.gov>  
**Sent:** Saturday, January 30, 2016 3:35 PM  
**To:** MSP-SEOCGIS  
**Subject:** Parcels w/DNR Service Line Points  
**Attachments:** DNRLayerParcelJoin.lpk

Hi Nikkia,

Attached is the layer package I discussed with you. I would recommend recreating the data on your end to ensure you're using the most current data.

I used the Flint Parcel Data and DNR Service Line Index Points - DNR Updates from the Flint AGOL:

Process I used:

1. Created a new field called "LeadNoLead" and gave lead point/parcels a value of 1, 2 for other, and 3 for unknown.
2. Spatial Join –DNR point to Parcel Poly
3. Summarize the value by Minimum and that will prioritize Lead on parcels that multiple points.

Join lets you append additional data to this layer's attribute table so you can, for example, symbolize the layer's features using this data.

What do you want to join to this layer?

Join data from another layer based on spatial location

1. Choose the layer to join to this layer, or load spatial data from disk:

Flint Service data - DNR updates

2. You are joining: Points to Polygons

Select a join feature class above. You will be given different options based on geometry types of the source feature class and the join feature class.

☒ Each polygon will be given a summary of the numeric attributes of the points that fall inside it, and a count field showing how many points fall inside it.

How do you want the attributes to be summarized?

☐ Average ☒ Minimum ☐ Standard Deviation  
☐ Sum ☐ Maximum ☐ Variance

☐ Each polygon will be given all the attributes of the point that is closest to its boundary, and a distance field showing how close the point is (in the units of the target layer).

Note: A point falling inside a polygon is treated as being closest to the polygon. (i.e., a distance of 0).

3. The result of the join will be saved into a new layer.

Specify output shapefile or feature class for this new layer:

I:\Projects\Disasters\EM\_3375\Data\Flint.gdb\Join\_Output

About joining data

OK Cancel

Also, do you have the latest water tracking team layer? I don't think I'm seeing it on the AGOL.

**Subject:** Re: News Release - State Using Technology to Identify Lead Pipes and Track Water Resource Distribution in Flint

The screen shot one is ridiculous. First, it is a screen shot. And second, it shows nothing but a mess of points. Our GIS said that was a good map?

According to Matt, he believed the map was provided by our GIS people several days ago. The release was drafted by Meegan but edited by the JIC. I agree, the maps aren't very professional and need more context in terms of the release.

**State Using Technology to Identify Lead Pipes and Track Water Resource Distribution in Flint**

**FOR IMMEDIATE RELEASE**  
**January 29, 2016**  
**Release #: 22**

Flint, Mich. – In an effort to help identify the location of lead pipes and other components of Flint's water infrastructure, GIS experts from the City of Flint, State of Michigan, the University of Michigan – Flint, and FEMA have translated hundreds of hand-drawn plat maps from the 1980s and hand-written notes on thousands of cards about updates to home plumbing systems into digitized maps. These maps are helping with the response and determine where safe water is needed.

"Mapping infrastructure to this depth of detail is highly unusual," said Capt. Chris A. Kelenske, deputy state director of emergency management and homeland security and commander of the Michigan State Police, Emergency Management and Homeland Security Division. "Since most of the water system infrastructure is underground, we can't just walk out and survey it, so GIS mapping is a critical component of the state's coordinated response."

Once the maps are in digital format, they are synched with 2015 parcel data. The maps can then be overlaid with Census information and infrastructure information, allowing analysts to pinpoint which homes have lead service lines.

"The state is making progress in organizing, cataloging, and converting water service line information from paper to searchable

databases and digitized maps," said Scott Bailey, a GIS data analyst with FEMA helping with the mapping project. "This is going to be a success story because prior to this event, this type of information was not available in a GIS environment."

The GIS systems have already assisted response teams as they go door to door to deliver water supplies to residents. Each team is armed with an iPad that feeds information into the GIS system. The online application uploads home data in real time, noting whether there are children in the household and which ones have been provided with bottled water, a water test kit, a water filter and replacement cartridges. The information has also helped identify the number of inhabited homes in a city affected by blight. Old data may show a street full of residents, when some houses are actually vacant.

**Subject:** Draft New Stats for Review for Samples Through January 29

Captain K

In addition to what we reported to Planning, i.e. 4084 water samples out of 4351 sampled through January 29, 2016 are at or below the action level of 15 ppb for lead, pictured below, and attached for consideration is an excel sheet with some additional statistics for your consideration.

Threshold	# tests	%
Total # test results	4351	
# tests < 5 ppb	3587	82%
# tests between 5 to 15 ppb	497	11%
# tests > 15 ppb	267	6%
Total % of three thresholds		99% (rounding)
# tests ≤ 15 ppb	3997	92%

AS OF January 29, 2016 AT 1700 USING DATA FROM FLINT WATER RESPONSE TEAMS, POD DISTRIBUTIONS, AND GENESEE COUNTY HEALTH DISTRIBUTION DATA.

NOTE: PLEASE REMEMBER THAT PAPER DATA AND DATA ENTRY FROM PREVIOUS DAYS CONTINUES TO COME IN AND WILL BE INCLUDED IN THE TOTALS AS IT IS RECEIVED.

We are tracking 38,831 residential parcels that the City of Flint has identified as non-vacant (including Franchise). Of those:

- 37577 96.7% of the parcels have been engaged as part of response efforts
- 27855 71.7% of the parcels have been confirmed have some form of filter
- 12710 32.7% of the parcels have volunteered for water testing
- 3342 8.6% of the parcels that have been visited by a Flint Water Response Team but not had personal contact (not home and did not visit a POD)

We are also tracking that there are 29994 active water subscribers (metered service lines) in the city. When consolidated down and filtering out only residential there are [total records in attribute table filtered by Active Water Subscribers and Residential/Vacant] residential parcels that have the ability to use the Flint Water System. Of these

- 26363 87.9% of of the parcels have been engaged as part of response efforts
- 22158 73.9% of the parcels have been confirmed have some form of filter
- 11167 37.2% of the parcels have volunteered for water testing
- 2568 8.5% of the parcels have not had personal contact (not home or did not visit a POD)

Please let me know if you need anything else.

**Subject:** Updated Statistics from Field Team and POD Activities

WE ARE ACTIVELY WORKING TO REFINE DATA, PLEASE NOTE THAT WATER FILTER NUMBERS WERE REVIEWED AND WE HAVE A MORE ACCURATE CALCULATION. AS SUCH THE NUMBER DROPPED SLIGHTLY. ADDITIONALLY, WE ARE ACTIVELY WORKING WITH THE PARCEL DATA TO FURTHER REFINE THE TOTAL RESIDENTIAL PARCEL COUNT, AS SUCH THE NUMBER MAY FLUCTUATE SLIGHTLY TODAY AND TOMORROW.

AS OF 1/28/2016 AT 1700 USING DATA FROM FLINT WATER RESPONSE TEAMS, POD DISTRIBUTIONS, AND GENESEE COUNTY HEALTH DISTRIBUTION DATA.

NOTE: PLEASE REMEMBER THAT PAPER DATA AND DATA ENTRY FROM PREVIOUS DAYS CONTINUES TO COME IN AND WILL BE INCLUDED IN THE TOTALS AS IT IS RECEIVED.

We are tracking 38593 residential parcels that the City of Flint has identified as non-vacant (including Franchise). Of those:

- 35785 (93%) of the parcels have been engaged as part of response efforts
- 25221 (65%) of the parcels have been confirmed have some form of filter
- 9670 (25%) of the parcels have volunteered for water testing
- 4391 (11%) of the parcels have not had personal contact (not home or did not visit a POD)

We are also tracking that there are 29994 active water subscribers (metered service lines) in the city. When consolidated down and filtering out only residential there are 26673 residential parcels that have the ability to use the Flint Water System. Of these

- 25693 (96%) of of the parcels have been engaged as part of response efforts
- 20788 (78%) of the parcels have been confirmed have some form of filter
- 8531 (32%) of the parcels have volunteered for water testing
- 3319 (12%) of the parcels have not had personal contact (not home or did not visit a POD)

Please let me know if you need anything else.

**Subject:** Salem Lutheran- Flint

Salem Lutheran  
2610 M L King Ave,  
Flint Twp, MI 48505

*Pastor Monica Villarreal, phone*

Essentially she is a pastor at a church in the 48505 zip code. This zip code is the only "effected area" that does not have a fire station in walking distance. Many of the folks in this community do not have transportation. Her church is partnering with the MI Food Bank so that her church can be a resource center of sorts.

A flyer went out to the entire MI Lutheran community from the church "main campus" asking for donations to this church because they are "charging the efforts for the 48505 zip-code".....

A few asks:

1. Would someone from SEOC be able to reach out and "coordinate efforts" with this church?
2. Would someone be able to fact check the zip code of 48505 not having a resource center?
3. Is there any way to include this individual in the "concerned pastors group"?

Thank you,

Laura

**Subject:** RE: Center for Shared Solutions

Calix,

DNR highlighted that a second meeting may be beneficial while we have folks down there between the leadership of all of the GIS staff participating in the incident.

I know that CDC, EPA, and others have been in Flint assisting. My rough tally is that there are about 30 GIS staff working on projects for the Flint Water Emergency. I want to make sure we are all synched up and on the same page.

Scott Bailey is CC'd. He is the FEMA GIS Coordinator for this incident. He can definitely help to facilitate making sure everyone has made it to the table so everyone gets a chance to meet in person if possible.

Also, any update on times for the DPW/City GIS meet?

Hey Calix,

I wanted to touch base as a result of a meeting we had this morning with the Center for Shared Solutions.

For background, they are the centralized resource here at the state for GIS. It's a very large group of GIS professionals with a wide range of skill sets and resources.

They asked how they could get involved and I recommended to them that they could potentially be of great benefit to you with regards to getting local resources optimized or built out that can be used to help manage infrastructure within the city long term. I know that they have standing relationships with ESRI and City Works (which I think is what the DPW is using). They could easily get representatives to the table from these vendors and start helping to build out a plan that is sustainable for the City of Flint that ensures you are getting the best from the software you have.

I don't want to push too far down this route unless you are comfortable with it. But, I think if we orchestrated a meeting with them they could really be helpful.

Please let me know your thoughts.

Good morning,

I've attached the MTA bus routes and bus stopsshapefiles. I received this data from the MTA some time ago and used it once, so I'm not incredibly familiar with it.

I verified the bus routes in mid-2015 and they all seemed correct but I was told the bus stops aren't accurate.

**Subject:** FW: Arrest Snyder Event Today at 4:40 p.m., Flint City Hall UPDATE

Good Morning,

168 individuals have now indicated they plan to attend this protest rally today. The MIOC has prepared the below information for situational awareness and public safety concerns.

At this time there are no known credible threats. Unfortunately, this issue has received a large amount of negative media exposure. Cher has "tweeted" the Governor should be executed over the Flint water issue and filmmaker Michael Moore has started a petition asking the U.S. Attorney General to prosecute and arrest Snyder and called for a

thorough FBI investigation over his handling of the Flint water crisis. Rachel Maddow, MSNBC, reported the responsibility for the tragedy falls to Governor Snyder. They have emailed Maddow inviting her to attend the rally. All of this media exposure creates the potential for attendance by groups with divergent views or lone wolf individuals who seek to engage in destruction of property, assault, or other types of crimes which may potentially result in incidents at, or associated with the event.

The MIOC will continue to monitor open source today for any threats and provide updates as any new information or suspicious activity connected to the event is located.

MICIMS Incident for monitoring: 2015-10-01-City of Flint-Water Contamination / Shortage

---

**Subject:** URGENT - SEOC Activation

On January 4, 2016, Genesee County requested that a "State of Emergency/Disaster" be issued by Governor Snyder. Today, the Governor issued a State of Emergency declaration.

EMHSD will activate the SEOC tomorrow at 0800 and will conduct a briefing at 0900 on the event. All state agencies are to send a representative to the 0900 briefing. MDHHS and MDEQ have been directed to brief on the situation. Following initial SEOC briefings, each state agency, in consultation with the State Director, must determine if they need to play a role in ongoing SEOC operations to contribute to addressing the problem. At minimum, MDEQ, MDHHS, Education, DTED, DTMB, and MDARD should maintain a presence in the SEOC. The initial focus of the SEOC will be to:

- Identify and implement any needed protective actions to protect public health and safety;
- Develop situational awareness;
- Develop understanding of technical aspects;
- Coordinate damage assessment;
- Coordinate public information; and
- Identify programs to assist in remediating damage.

RICK SNYDER  
GOVERNOR

STATE OF MICHIGAN  
EXECUTIVE OFFICE  
LANSING

BRIAN CALLEY  
LT. GOVERNOR

## PROCLAMATION

### DECLARATION OF EMERGENCY

WHEREAS, Section 1 of Article V of the Michigan Constitution of 1963 vests the executive power of the state of Michigan in the Governor; and

WHEREAS, under the Emergency Management Act, Act No. 390 of the Public Acts of 1976, as amended, MCL 30.401 to 30.421, the Governor is responsible for coping with dangers to this state or the people of this state presented by a disaster or emergency or threat thereof, and may issue executive orders and proclamations, having the force and effect of law to implement the Act; and

WHEREAS, under Section 3 of the Emergency Management Act, 1976 Public Act 390, MCL 30.403, the Governor shall, by executive order or proclamation, declare a state of emergency if the Governor finds that an emergency has occurred or that the threat of an emergency exists; and

WHEREAS, on April 25, 2014 the City of Flint, Michigan switched from the Detroit water system to the Flint River as a water source, the harmful effects of *untreated water struck the city's water infrastructure, causing leaching of lead into the water which caused damage to the water system and potential negative health impacts to the citizens*; and

WHEREAS, the area affected includes parts of the City of Flint, within the County of Genesee; and

WHEREAS, the damaged water infrastructure and leaching of lead into the city's water caused damage to public and private water infrastructure, and has either caused or threatened to cause elevated blood lead levels, especially in the population of children and pregnant women, and causing a potential immediate threat to public health and safety and disrupting vital community services; and

WHEREAS, from October 1, 2015 to this date, the County of Genesee and the City of Flint have taken a number of actions to cope with the situation, including but not limited to, switching back to the Detroit water system on October 16th, declaring local states of emergency, activating the emergency response and recovery aspects of their emergency operations plan, marshaling

and distributing required resources on a city-wide level, and issuing emergency public information and bulletins; and

WHEREAS, local resources have been insufficient to address the situation, and additional assistance from voluntary organizations and the state is required to protect public health, safety, and property, and to lessen or avert the threat of more severe and long lasting impacts to the community;

NOW, THEREFORE, I, RICHARD D. SNYDER, Governor of the state of Michigan, pursuant to the Constitution of the state of Michigan and provisions of Act No. 390 of the Public Acts of 1976, as amended, do hereby proclaim that a state of emergency exists in the aforementioned county and municipality; and

FURTHER, the Emergency Management and Homeland Security Division of the Department of State Police shall coordinate and maximize all state efforts, and may call upon all state departments to utilize resources at their avail to assist in the emergency area pursuant to the Michigan Emergency Management Plan; and

FURTHER, termination of this emergency will occur at such time as the threats to public health, safety, and property caused by the emergency no longer exist and appropriate programs have been implemented to recover from the effects of this emergency, but in no case longer than February 1, 2016, unless extended as provided by Act No. 390.

Given under my hand and the  
Great Seal of the State of Michigan this  
5th day of January in the Year of Our  
Lord, Two Thousand and Sixteen.

  
RICHARD D. SNYDER  
GOVERNOR

Hi All:

A "Flint Update" Press Conference with the Governor and (tentatively) the Mayor is being planned for tomorrow (Monday 1/11) afternoon in Flint at the new JIC. I was asked to reach out to ask all of you to participate.

I'll be sending a hold to all of your calendars for 1:00 PM – 4:00 PM. The exact time will be finalized later today but I wanted to give you a heads up so you could plan accordingly.

Please don't hesitate to get in touch with me if you have questions or concerns. I'll keep you updated as logistics are nailed down.

Thank you!  
Corey

**STATE OF MICHIGAN  
DEPARTMENT OF STATE POLICE**

**DATE:** January 11, 2016  
**TO:** Department Members  
**FROM:** Col. Kriste Kibbey Etue, Director  
**SUBJECT:** Activation of State Emergency Operations Center

On January 5, Gov. Rick Snyder declared a state of emergency for Genesee County due to the ongoing health and safety issues caused by lead in the city of Flint's drinking water. By declaring a state of emergency, Governor Snyder has made available all state resources in cooperation with local response and recovery operations.

The declaration authorizes the Michigan State Police, Emergency Management and Homeland Security Division (MSP/EMHSD) to coordinate state efforts. In addition, Governor Snyder activated the State Emergency Operations Center (SEOC) to coordinate the action's of state departments in the state's response and recovery efforts.

The SEOC is the emergency operations center for the state of Michigan and is overseen by the MSP/EMHSD. The SEOC is supported by staff from MSP/EMHSD and staffed by members of state agencies and other partners for decision making and information coordination during disasters or emergencies in the state of Michigan.

On January 6, a State of Michigan Joint Information Center (JIC) was also established to lead the state's messaging and information response in support of the SEOC and in coordination with the Genesee County Emergency Operations Center and the City of Flint.

Going forward, to better coordinate the health and safety of the residents of Flint and to ensure they are aware of and have access to the resources available within their community, the SEOC will serve as a central point of coordination between the local and state response efforts.

The state of Michigan is working in full partnership with the Flint Water Advisory Task Force, all levels of government and water quality experts, to find both short-term and long-term solutions to ensure the health and safety of Flint residents.

As a resource, an informational flyer can be found [here](#). For updates and additional information, visit [www.mi.gov/flintwater](http://www.mi.gov/flintwater).

[[http://michigan.gov/images/msp/GD\\_CKKE\\_483116\\_7.png](http://michigan.gov/images/msp/GD_CKKE_483116_7.png)]

Note: Dates are January 14 and January 15.

The department is soliciting volunteers from within the department, both enlisted and civilian, to join water resource teams working to hand out bottled water, water filters, replacement cartridges, and water testing kits at homes in the city of Flint. This effort is part of the state's  
response<[http://links.govdelivery.com:80/track?type=click&enid=ZWFzPTEmbWFpbGluZ2lkPTIwMTYwMTEyLjUzNjkWODkxJm1lc3NhZ2VpZD1NREltUFJELUJVTc0yMDE2MDExMi41MzY5MDg5MSZkYXRhYmFzZWlkPTEwMDEmc2VyaWFsPTE3MjQ5NzYyJmVtYWlsaWQ9bW9vdHNqOG1pY2hpZ2FuLmdvdiZ1c2VyaWQ9bW9vdHNqOG1pY2hpZ2FuLmdvdiZmbD0mZXh0cmE9TXVsdGI2YXJpYXRlSWQ9JiYm&&100&&http://michigan.gov/deq/0,4561,7-135-3313\\_3675\\_73946---,00.html](http://links.govdelivery.com:80/track?type=click&enid=ZWFzPTEmbWFpbGluZ2lkPTIwMTYwMTEyLjUzNjkWODkxJm1lc3NhZ2VpZD1NREltUFJELUJVTc0yMDE2MDExMi41MzY5MDg5MSZkYXRhYmFzZWlkPTEwMDEmc2VyaWFsPTE3MjQ5NzYyJmVtYWlsaWQ9bW9vdHNqOG1pY2hpZ2FuLmdvdiZ1c2VyaWQ9bW9vdHNqOG1pY2hpZ2FuLmdvdiZmbD0mZXh0cmE9TXVsdGI2YXJpYXRlSWQ9JiYm&&100&&http://michigan.gov/deq/0,4561,7-135-3313_3675_73946---,00.html)> to the ongoing health and safety issues caused by lead in the city of Flint's drinking water.

Teams are being assembled for shifts on Thursday, January 14 and Friday, January 15. Volunteers will begin their assignment in Flint at 9 a.m. and end by 4 p.m. Volunteers can be available for one or both days. Lunch will be provided.

Employees chosen for this assignment are considered to be working on-duty; this

assignment would be considered their scheduled work day. Overtime or compensatory time is not authorized for this assignment.

Transportation will be provided using state vehicles; mileage reimbursement for personal vehicles is not authorized. Volunteers should dress for working outdoors and wear foot attire appropriate for walking.

Interested employees should obtain the approval of their supervisor. Supervisors must forward the names of approved volunteers and their email addresses through the chain of command to bureau with the date(s) available by 1 p.m. tomorrow, Wednesday, January 13.

Confirmation of selected employees, along with additional logistical details, will be made via email by 5 p.m. on Wednesday, January 13.

For questions, please contact Insp. Scott Marier at 517-373-7761.

**Subject:** MSP Resource Request - Flint Water Response Teams

Capt. Kapp,

Per our discussion, the SEOC has requested MSP FSB coordinate and manage the Flint Water Response Teams for the City of Flint-Water Contamination / Shortage incident. The POC at the EOC is Ms. Michelle Kuzera, she will be able to assist with any questions or concerns. MSP FSB will be responsible for the following:

- Establish a Water Response Team Commander for all team operations.
- Coordinate and manage Water Response Team structure.
- Coordinate and manage Water Response Team resources.
- Coordinate walking routes with concentration in the most hazardous lead level areas.
- Coordinate logistics for Water Response Teams.
- Coordinate iPad distribution and tracking.
- Coordinate and integrate with state, county, and local personnel as well as volunteers assigned to work on Water Response Teams.
- Coordinate and manage team security with MSP and County personnel.
- Determine hours of operation based on assessment of area, hours of daylight, and any other safety information pertinent to operations.
- Coordinate with Sheriff's department resources.
- Staff each team with the appropriate number of MSP enlisted personnel for security purposes.
- Provide a daily report of all activities to include best practices and issues or concerns.

- Attend the 9:30 am and 4:30 pm SEOC briefings via conference call as well as any other conference calls necessary to complete the above mission.

In addition to the above Water Response Team objectives MSP FSB is still responsible for all previously assigned tasks and functions.

Please feel free to contact me if you have any questions regarding this assignment. Please forward the contact information of the commander you have identified for this mission as well as a schedule for *staffing this position once it has been assigned and established.*

Sir

I would like to request Lt. Cremonte be made available to staff the operations chief position in the local EOC. This is being staffed by one of my personnel (Michelle Kuzera) who will need to transition out (only to get a couple days occasionally) so we would want her to shadow her for a couple days first. This mission would need to be available for some time if possible to avoid staff burnout. Lt. Cremonte has the experience as a District Coordinator, EOC operations at the local level, as well as the right command bearing I need in the local EOC. This would not be in the capacity as a FSB employee but EMHSD one.

Can you check with LTC Sands to see if this is possible and if Lt. Cremonte is okay with it?

**Subject:** RE: MSP Resource Request - Flint Water Response Teams

I discussed with Matt Bolger and Mike Johnson and we are on the same page. The only thing that all need to be aware of is I anticipate ramping up the teams significantly as logistics can support. We will likely need to add a layer between the MSP WRT Commander and field commanders – that would probably be an ARC lead, A State Agency lead, Other volunteer lead, and a County lead so the WRT commander has good span of control. I am thinking we could get to the point where we have 50+ teams (best case scenario).

The WRT commander can figure that out but I am good with this - MSP needs to coordinate all the teams sir.

Chris

**Subject:** Flint Water Informational e-mail

Good Morning

I am sending this as an informational e-mail.

Currently, the Flint Post and 3<sup>rd</sup> HST are fulfilling the SEOC - requests for personnel and coordination command to the Flint Water Situation. With over 125 volunteers scheduled today and tomorrow, troopers are providing security to volunteer teams handing out water and filters, street-by-street and house-by-house.

Today we have the following enlisted numbers in place:

There are many assignments that fall under this portion of the overall operation and the Response Commander reports to command within the EOC.

I will send these out periodically as there may be a request to up our commitment based on the number of volunteers and supply of filters over the next weeks.

Thank you  
Gene

**Subject:** Brief of District PIO Activities since Saturday 01/09/16

Capt. a brief snapshot so far,

>On Sunday 01/10/16 I spoke at a press conference at Fire Station 1 to discuss the five newly established water resource sites in Flint as well as the water resource teams being deployed on Tuesday 1/12/16 which would be going door to door.

>On Monday I worked out of the JIC center and assisted with the Governors press conference as well as conducting several interviews.

>On Monday I contacted Sgt. Jim Lang at the Tri-City Post and he began to handle some of the local PIO responsibilities.

>On Tuesday 1/13/16 I held a press conference at the GCCARD building with Capt. Tafoya from the Genesee County Sheriff Department. I gave a brief overview of the role of the water resource teams and how the resources were going to be deployed. I also gave the media an opportunity to get photos and footage of the water resource teams as they deployed door to door to distribute free bottled water, water filters, water filter replacement cartridges and water testing kits to residents throughout the city.

>On Tuesday I coordinated with several media personnel to get them interviews and video of the water resource teams and water distribution sites.

>On Wednesday 1/14/16. I spoke at a press conference at fire station 3 in regards to the National Guard assistance in the City of Flint. The sheriff spoke as well as Major Keegean from the National Guard.

>On Wednesday I performed several interviews and coordinated with several media personnel to get them interviews and video of the water resource teams and water distribution sites.

>On Thursday 1/15/16 I attended the press conference at the Saginaw National Guard Armory where Major General Gregory Vadnais spoke. I also gave a couple of follow up interviews.

>The General was asked a very direct question from the reporter from the LA Times. As the General who oversaw Hurricane Katrina, do you think Flint has enough water distribution centers or should they have more? The General advised in his snapshot of the resource centers he attended, there were no long lines, there was not an extended wait time and he believed what Flint had at this time was adequate.

>The Media I have spoken to include local and national including: Good Morning America, ABC World News, NBC Nightly News, CBS Evening News, Vice News out of New York, LA Times, Script News, ABC, NBC, CBS, Fox, M-Live, WSGW Radio and many more.

>I have also taken several photos and posted to our Twitter account.

Sir

I would like to request Lt. Cremonte be made available to staff the operations chief position in the local EOC. This is being staffed by one of my personnel (Michelle Kuzera) who will need to transition out (only to get a couple days occasionally) so we would want her to shadow her for a couple days first. This mission would need to be available for some time if possible to avoid staff burnout. Lt. Cremonte has the experience as a District Coordinator, EOC operations at the local level, as well as the right command bearing I need in the local EOC. This would not be in the capacity as a FSB employee but EMHSD one.

Can you check with LTC Sands to see if this is possible and if Lt. Cremonte is okay with it?

LTC Sands:

I just took what amounts to a complaint against a trooper for overly aggressive and intimidating actions while distributing water in the City of Flint.

In a nutshell, Mr. Bernard Lawler, a manager with DHHS, came into the JIC and proceeded to relay a his concerns about how his wife was treated yesterday by a uniform trooper who was assisting with the water distribution in his neighborhood.

Mr. Lawler indicated he was a prior member of the Flint City Council.

I believe he should be contacted by the local post command.

Mr. Lawler can be reached either at work:

Colonel

In accordance with Official Order 4 I am requesting notification be sent to FSB and out to the field regarding a planned mobilization for Tuesday January 19, 2016.

Based on additional intelligence that has been gathered over the last 24 hours it is apparent that several groups plan to protest at the Capitol. The majority of the protest is centered around Flint Water. There are groups, who support the Governor such as the Michigan Republicans, who plan to hold a water drive during the same time other vocal anti-governor groups will be demonstrating.

The MIOC is currently creating a document compiling all current

Intel.

In addition to the above listed we are requesting

Draft mobilization notification for your review prior to distribution. Would you please review and advise of any edits.

Thanks...

Jim

**Phase 1 Planned Mobilization -**

A Phase 1 mobilization has been approved for Tuesday, January 19, 2016, at the State Capitol. The mobilization is in support of the State of the State detail due to the potential of civil unrest resulting from planned protests.

The platoon will consist of the following district commitments:

Second District - \_\_\_\_\_  
Fifth District - \_\_\_\_\_  
Sixth District - \_\_\_\_\_

District commanders shall forward a completed UD-121 for their squad(s) to F/Lt. Joseph Thomas (Platoon Leader), with copies to F/Lt. Brody Boucher (Operational Commander), Insp. Steve O'Neill (First District), Spl/Sgt. Al Avery (Staging), and Operations no later than 5 p.m. Monday, January 18, 2016.

In addition \_\_\_\_\_

Operations Commander - F/Lt. Brody Boucher  
Platoon Leader - F/Lt. Joseph Thomas, Lansing Post  
Asst. Platoon Leader - Lt. Kevin Caldwell, Brighton Post  
Staging Officer - Spl/Sgt. Al Avery, First District Headquarters

Staging: Tuesday, January 19, 2016 -

Equipment: Class B uniform

Mobilization gear ( \_\_\_\_\_ )

Appropriate clothing for expected cold weather

Squads will be : \_\_\_\_\_

*Impacted personnel are to take the appropriate actions in response to this notification as outlined in Official Order #4. The MIOC, First District, and Capitol Security command will continue to monitor events for public safety and situational awareness recognizing that all citizens have a constitutionally protected right to assemble.*

Authority: Lt. Col. W. Thomas Sands, Deputy Director, Field Services Bureau

Insp. Jim Shaw

Colonel

In accordance with Official Order 4 I am requesting notification be sent to FSB and out to the field regarding a planned mobilization for Tuesday January 19, 2016. The Special Operations Division

Based on additional intelligence that has been gathered over the last 24 hours it is apparent that several groups plan to protest at the Capitol. The majority of the protest is centered around Flint Water. There are groups, who support the Governor such as the Michigan Republicans, who plan to hold a water drive during the same time other vocal anti-governor groups will be demonstrating.

The MIOC is currently creating a document compiling all current Intel.

FYI

I will call you in the morning. I told Gene to standby bringing in more troopers. I wanted to discuss with you first.

We may need to look at only one trooper per group. With this many in the city, backup would be close.

Amy

This simply means more volunteers of national guard troops. This probably also means more uniforms which will have to come from other Posts. I will reach out to the other commanders in the morning seeking district support.

Talk to you in the morning.

**Subject:** Update: Request for additional Troopers/County and or Local LE for Door to Door Operations

F/Lt. Kish,

The Governor has approved the use of the National Guard for the Door to Door Operations in Flint. So, please proceed with the planning process for obtaining the additional Troopers/County and or Local Officers with marked patrol vehicles to assist the National Guard. As stated below, they plan on deploying teams on Wednesday 1-20-16.

**\*\* Critical Info\*\*** Capt. Kelenske has asked that the above information not be released to the media or any personnel outside the SEOC or Local EOC's. This information will probably be announced by the Governor during his State of the State Address tomorrow (1-19-16).

Thank you for your assistance,

Spl/Lt. Mardella Horhn

**Subject:** Request for additional Troopers/County and or Local LE for Door to Door Operations

F/Lt. Kish,

Below is just to give you a heads-up.

The SEOC may be requesting additional Troopers/County or Local Officers along with marked patrol vehicles to assist with the Door to Door Operations with the National Guard starting tomorrow (1-19-16). The SEOC is still waiting for the Governor to approve the use of National Guard personnel. We should know more this afternoon. If approved the National Guard will be deploying the below:

- A total of National Guard personnel will be assisting with the Door to Door Operations.
- There will also be National Guard Command Officers responding to supervise personnel.
- On Tuesday (1-19-16) of the National Guard personnel will be arriving. The Door to Door Operations will be split into two groups. National Guard personnel will be involved in the Door to Door Operations in the morning and National Guard personnel will be Deployed for the Door to Door Operations in the afternoon.
- The remaining National Guard personnel will be arriving on Wednesday (1-20-16).

I will let you know if and when the use of the National Guard personnel are approved for use.

**Updated Information (1:55 p.m.):**

- If approved, all National Guard personnel will be arriving on Wednesday (1-20-16). As stated above, of the National Guard personnel will be boots on the ground assisting with the Door to Door Operations and will be National Guard **Command Officers**. Upon arrival the National Guard personnel will report to the local EOC for briefing and will be deployed into the field using Michigan Department of Corrections transport vehicles. There will be approximately teams deployed.

**Please note: Still waiting on Governors approval.**

Thank you,  
Spl/Lt. Mardella Horhn

**Subject:** Complaint against trooper

Lt., Mr. Bernard Lawler of [REDACTED] complained about a trooper's actions yesterday and follow-up with Mr. Lawler was requested. I made contact by phone with Mr. Lawler today at approximately 3:45PM. He was at work and I asked if I could meet him in person to discuss what happened. Mr. Lawler said a phone conversation was more than adequate. His wife was currently at home and he felt she would be too intimidated if a trooper showed up at the residence. Mr. Lawler went on to say he is a State Employee with the Department of Health and Human Services. He is also a former Flint City Council member who is still active in communicating with his surrounding community.

Yesterday, his wife became aware that one of the water distribution teams working their neighborhood missed their house. His wife and her mother jumped in the car and drove down the street and stopped near the distribution team. His wife made contact with one of the state troopers assigned to the team and requested water and supplies. Mr. Bernard said his wife was driving their Cadillac. His wife told him the trooper looked at the Cadillac and then back at her and asked if there were any kids in the home. Before she could answer, thankfully, a National Guard Soldier standing with the trooper answered her and said she could have the water/supplies. He said his wife felt degraded by the trooper's question and demeanor. Mr. Bernard, being employed by DHHS, said he knew the script of what was supposed to be said by the troopers and this trooper's response was not correct.

His wife didn't want to make a complaint because she was afraid the state police would begin harassing her. Mr. Bernard was very concerned about this trooper and other state troopers' reported actions throughout the city. He has hear from neighbors and the Mayor who also told him she they've heard similar stories of state troopers degrading members of the public. He said it shouldn't matter what the economic status is of certain citizens within the city of Flint. Everyone should be treated with respect.

Mr. Bernard said he made contact with a state police sergeant yesterday after the incident occurred. This contact took place at the EOC. He explained to the sergeant what had happened. He became upset and angry as the sergeant began to explain why the trooper asked the question and why he may have been perceived to have a demeaning attitude. Mr. Bernard didn't feel like the sergeant really cared about what happened.

I asked Mr. Bernard if he wanted to make a formal complaint against the trooper. I explained that this complaint would travel up the chain of our command and a review of the trooper's actions would take place. I also asked Mr. Bernard if he wanted me to simply make contact with the trooper and talk to him about what happened rather than make a formal complaint. I followed up by assuring Mr. Bernard that I was not trying to talk him out of filing a complaint. Mr. Bernard requested that I talk to the trooper and use this incident as a reminder of how state troopers should and should not talk/treat people. He would be more than satisfied if this incident could be used as an example in training to help troopers work better with the public.

I spoke to Mr. Bernard at length as to what is expected of his state police and how all people should be treated with respect and dignity. Upon finishing up our conversation, I left Mr. Bernard my name and cell phone number. I advised Mr. Bernard to keep the number handy in case he needed anything now or in the future. Mr. Bernard thanked me and seemed more than satisfied with our conversation. A short time later, Mr. Bernard sent me a text message asking if I could follow up with talking to the sergeant that pulled him into the hall and justified the trooper's behavior. I acknowledged his request.

Mr. Bernard Lawler's TX:

Subject: Complaint against Trooper

LTC Sands:

I just took what amounts to a complaint against a trooper for overly aggressive and intimidating actions while distributing water in the City of Flint.

In a nutshell, Mr. Bernard Lawler, a manager with DHHS, came into the JIC and proceeded to relay a his concerns about how his wife was treated yesterday by a uniform trooper who was assisting with the water distribution in his neighborhood.

Mr. Lawler indicated he was a prior member of the Flint City Council.

I believe he should be contacted by the local post command.

Mr. Lawler can be reached either at work:

Subject: Flint Status Update

All,

As of January 21, Rich Baird has assumed the Lead Point of Contact role for Flint. This has been communicated to the existing team working on the Flint water emergency. As of today, an office has been opened in the State of Michigan building located at 125 Union Street in downtown Flint. In addition to the individual team members listed below, a representative from DEQ, DHHS and the Department of Civil Rights will join Rich's team.

Per Rich, here is a list of the "Mission Flint" team and a summary of roles and responsibilities:

LG Calley—Will establish an office in Flint and provide input to POC Leader. He will also be focused on sustaining a quality partnership with Dr. Mona Hanna-Attisha and DHHS to attest to blood sampling protocols and interpretation, and begin executing additional monitoring/education and remediation for those impacted. He will also provide input and guidance to the EO communications team on ways to be more proactive with messaging and the public narrative (drawing attention to volunteers, community groups, and stories that are happening but not getting into the narrative).

Harvey Hollins—Harvey will continue (with R. Baird) to nurture a quality partnership with Mayor Weaver and her team, pastor groups, and provide grass roots community leadership so that we can stay acutely attuned to the needs of the Flint Community and bring resources to bear. Harvey will also serve as the co-facilitator for the FWIACC with the first meeting occurring on January 27.

Bill Nowling—Bill will step back from the role he is playing as Crisis Leader for Communications Department. Meegan Holland will work closely with LG Calley to improve (department wide) proactive efforts in messaging and narrative. Bill will approve all communications from our Flint Team. He will coordinate the Mercury team communications engagement and engage with Mark Davidoff and the Deloitte team to provide more support to Mayor Weaver (through his associate Ms. Cockrell).

Tori Sachs—Tori will continue playing a "utility" role on a variety of fronts, including supporting the philanthropic campaign, eliciting University engagement (Community Scholars, etc.), monitoring vendors and follow up with third party validation groups, assisting with messaging and volunteer deployment, and supporting Col. Greg Durkac in tracking our critical matters and decisions organization framework.

Colonel Greg Durkac—SME for project management, logistics, and organizational frameworks for critical matters and decisions. He lives in Linden (just outside Flint) and is deferring his retirement for this assignment.

Captain Chris Kelenske—As Chris winds down from Phase 1 Emergency Stabilization, it is important he remain engaged as a spokesperson, coordination expert, and leveraging his expertise as we continue a different model of community outreach (testing, monitoring, engaging resources, etc.). He will also work with Harvey on the FWIACC and in continued community outreach.

Nat Forstner/Ben Geiger— Will take the lead on data collection, analytics, comparative interpretation and

communication to Governor Snyder and principals. Need more benchmarking and historical data not just from Michigan but around the country.

Others who have agreed to engage as appropriate are Mike Finney (community outreach), Nick Khouri (treasury support and financing), Chris Rizik (*Entrepreneurial recruitment and identification of venture capital/other capital*) Peter Remington (Philanthropic and Campaign Strategy) and Matt Rizik (Intergovernmental relations City/County).

Clearly there will many more connection points as represented in the FWIACC but the above represent a type of "executive committee" to lead us into Phase 2 and 3 of "Mission Flint".

Please feel free to reach out to me, Rich or Jarrod if you have any questions or suggestions.

Thanks,

Beth

Yesterday morning we briefly discussed assigning F/Lt. Bowman in the SEOC as the PIO. I appreciate your support for this assignment.

Capt. Kelenske approved this yesterday, but I do not know if anybody reached out to First District or to F/Lt. Bowman.

Please advise F/Lt. Bowman to reach out to F/Lt. Sweeney tonight for the time and location to report. (New SEOC)

Please confirm when this is put in place for tomorrow.

Thank you

Steve,

A request is being made by Capt. Kelenske for Kyle Bowman to assist as the PIO Liaison in the SEOC. He would provide relief for Kevin Sweeney who has been assisting in the SEOC.

If so, please have him make contact with Kevin Sweeney tomorrow.

Let me know, thanks.

**From:** Sands, Thomas (MSP)  
**Sent:** Friday, February 12, 2016 1:43 PM  
**To:** Zarotney, Greg (MSP); Hinkley, Lori (MSP) (hinkleyl@michigan.gov)  
**Subject:** RE: URGENT - Records Request

Lori,

I have not been able to go into my messages yet. I received this last night, and I have been swamped today. My guess is 30-40 records.

Thanks.

**From:** Zarotney, Greg (MSP)  
**Sent:** Thursday, February 11, 2016 5:01 PM  
**Subject:** URGENT - Records Request  
**Importance:** High

The department has been directed to provide copies of all records in our possession related to the Flint water matter to the Governor's office. You are receiving this email because you have been identified as an individual who may have records that must be produced. If there are any department members who you think may be in possession of records related to Flint water, please forward this message to those members.

Records include memos, handwritten notes, emails and attachments, and text messages in your possession, regardless of who produced the record. Be sure when you search your email messages that you look in your inbox, sent box, and trash. In preparation for the production, you must estimate the number of records you have in your possession and provide that estimate to Ms. Lori Hinkley no later than **2:00 PM on Friday, February 12, 2016**.

You must then provide a copy of each record in your possession to the Legislative and Legal Resources Section no later than close of business on **Thursday, February 18, 2016**.

Members who work at Headquarters must provide paper copies to F/Lt. Chris Hawkins in the Office of the Director. Members who work at the State Secondary Complex must provide a paper copies Ms. Lori Hinkley. Ms. Hinkley is located on the second floor of the new Headquarters building. Department members who work outside of these worksites may send copies of records in their possession via e-mail to [MSP-FOIAProject@michigan.gov](mailto:MSP-FOIAProject@michigan.gov).

In addition to this initial production of records, the department is required to provide copies of newly created records on an ongoing basis. Until further notice, copies of all newly created records shall be forwarded to [MSP-FOIAProject@michigan.gov](mailto:MSP-FOIAProject@michigan.gov).

**REMINDER:** Public records can only be disposed of consistent with an approved retention schedule. As it applies to emails and text messages related to the Flint water matter, please use the retention schedule in place for general correspondence which is **two years**. Please save all emails and text messages for at least two years. Prior to expiration of the two year period you will have an opportunity to re-evaluate the content of the messages to determine if an additional retention period is necessary. If you have issues with accommodating emails based on your mailbox size, please archive them. Do not print and file them as the metadata must be retained as well.

If you have any questions with these instructions, please contact [Ms. Lori Hinkley](#).

I know using the NG can be a concern. In this case (going door to door), I think we could make significant ground using NG and MSP troops to fill our door to door teams in the future. We have the ... teams of DHHS personnel and troopers going out Tuesday and will be the model. With the weather and safety concerns in some areas, I would like to look into this ... but I know from another seat this may be a bad solution. The mission would be to hand out water, filters, test kits. Troopers would provide security if needed.

NG is the most expensive resource to use unless I get the training orders modified for this mission (that is typically weekend duty).

It would definitely make the statement that the state is doing something which apparently what an editorial in the Detroit News has stated we are not doing anything.

The other option is to mobilize troopers to do this. We would have trucks with supplies and would have maybe ... troops per truck to go door to door. MSP FSB would have to plan this.

Looking for thoughts on this as we need to get more door to door teams out and that planning has to start now.

I was just informed that the G is doing a media event tomorrow and I am being asked to be there. Based on emails I have seen between the LTG and others and now this media event, we should mobilized a platoon to create \_\_\_ more teams for distribution made of troopers. The sticking point will be logistics but we will work on that. Lt. Johnson is already having planning discussions on this but we know approval will be required. This would put \_\_\_ state teams in Flint.

Good afternoon sir:

Just fyi I was contacted by the SEOC, F/Lt. Mike Johnson, at 1:20 p.m. this afternoon with a planned mobilization request for c tomorrow, January 11th, in Flint. I was advised the mission was in support of the Flint water distribution and that personnel would be utilized to assist with the distribution of water and filters to residents. The request was being made by Capt. Kelenske based discussions from updated information from the Flint EOC.

Prior to contacting you with the request I called Capt. Kapp ensure he was in the loop and to obtain additional information on the current status. After speaking with Capt. Kapp I was recontacted by F/Lt. Johnson at 1:40 p.m. who advised to cancel the personnel request at this time.

No additional action needed at this time sir. I know you have been monitoring this situation with the Third District and the SEOC but wanted you to aware of the original ask in the event the status changes over the next day.

Jim

# FLINT WATER RESPONSE TEAM

UPDATE | SUNDAY, JANUARY 10, 2016

As you are likely aware, on January 4th, Genesee County declared a "local state of emergency," which activated additional local resources. The county then took the important step of requesting a governor's declaration of emergency for Genesee County, which I declared on January 6. This declaration has made available all state resources in cooperation with local response and recovery operations. With many resources available to Flint residents, this update is being issued in order to provide the latest information regarding actions and available resources.

**FLINT WATER ASSISTANCE LINE: 211**

### WATER RESOURCE LOCATIONS

These sites will be open seven days a week from 9 a.m. to 9 p.m. and will distribute:

- Bottled water
- Water filters
- Replacement cartridges
- Water testing kits

Fire Station #1 310 East 5th St. Flint, MI 48502  
Fire Station #3 1525 Martin Luther King Ave. Flint, MI 48503  
Fire Station #5 3402 Western Rd. Flint, MI 48506  
Fire Station #6 716 West Pierson Rd. Flint, MI 48505  
Fire Station #8 202 East Atherton Rd. Flint, MI 48507

### WATER FILTER PICK-UP SITES

Water filters and replacement cartridges continue to be available Monday through Friday, between 9 a.m. and 4 p.m. at the following locations:

- Michigan Department of Health and Human Services office  
125 E. Union St. Flint, MI 48502
- Michigan Department of Health and Human Services office  
4809 Clio Road Flint, MI 48504
- Genesee County Community Action Resource Department office  
2727 Lippincott Flint, MI 48507
- Genesee County Community Action Resource Department office  
601 N. Saginaw Flint, MI 48502
- Flint City Hall  
1101 S. Saginaw St. Flint, MI 48502

If you require transportation or any other assistance, please call 211.

**For more information, visit [www.mi.gov/FlintWater](http://www.mi.gov/FlintWater).**

We will continue to work to improve the water situation in Flint. Community members and local officials are working together to make sure we hear and respond to concerns. I'll plan to continue keeping you updated on the latest news and information. My office is available to assist you by calling 517-335-7858.

Sincerely,

Rick Snyder  
Governor

Hi All:

A "Flint Update" Press Conference with the Governor and (tentatively) the Mayor is being planned for tomorrow (Monday 1/11) afternoon in Flint at the new JIC. I was asked to reach out to ask all of you to participate.

I'll be sending a hold to all of your calendars for 1:00 PM – 4:00 PM. The exact time will be finalized later today but I wanted to give you a heads up so you could plan accordingly.

Please don't hesitate to get in touch with me if you have questions or concerns. I'll keep you updated as logistics are nailed down.

Thank you!  
Corey

Lt Colonel Sands,

In follow-up to your discussion with Colonel Etue regarding resources/explanation for Flint Post troopers, the attached memo was posted on Official Correspondence late today. In addition to explaining the department's role in this emergency, there is a link to a flyer that is being distributed to Flint residents, as well as the state website that contains all *resources and updates for this emergency*.

Please let me know if you need anything else.

**STATE OF MICHIGAN  
DEPARTMENT OF STATE POLICE**

**DATE:** January 11, 2016  
**TO:** Department Members  
**FROM:** Col. Kriste Kibbey Etue, Director  
**SUBJECT:** Activation of State Emergency Operations Center

On January 5, Gov. Rick Snyder declared a state of emergency for Genesee County due to the ongoing health and safety issues caused by lead in the city of Flint's drinking water. By declaring a state of emergency, Governor Snyder has made available all state resources in cooperation with local response and recovery operations.

The declaration authorizes the Michigan State Police, Emergency Management and Homeland Security Division (MSP/EMHSD) to coordinate state efforts. In addition, Governor Snyder activated the State Emergency Operations Center (SEOC) to coordinate the actions of state departments in the state's response and recovery efforts.

The SEOC is the emergency operations center for the state of Michigan and is overseen by the MSP/EMHSD. The SEOC is supported by staff from MSP/EMHSD and staffed by members of state agencies and other partners for decision making and information coordination during disasters or emergencies in the state of Michigan.

On January 6, a State of Michigan Joint Information Center (JIC) was also established to lead the state's messaging and information response in support of the SEOC and in coordination with the Genesee County Emergency Operations Center and the City of Flint

Going forward, to better coordinate the health and safety of the residents of Flint and to ensure they are aware of and have access to the resources available within their community, the SEOC will serve as a central point of coordination between the local and state response efforts.

The state of Michigan is working in full partnership with the Flint Water Advisory Task Force, all levels of government and water quality experts, to find both short-term and long-term solutions to ensure the health and safety of Flint residents.

As a resource, an informational flyer can be found [here](#). For updates and additional information, visit [www.mi.gov/flintwater](http://www.mi.gov/flintwater).

Lt. Colonel Sands,

In follow-up to your discussion with Colonel Etue regarding resources/explanation for Flint Post troopers, the attached memo was posted on Official Correspondence late today. In addition to explaining the department's role in this emergency, there is a link to a flyer that is being distributed to Flint residents, as well as the state website that contains all resources and updates for this emergency.

Please let me know if you need anything else.

Ok, to clarify, we've got NO vehicles to load up....and NO SUVs to transport DHHS.

We've got an alternative for loading supplies via the Sheriffs office, but Briana advised that DHHS would have SUVs here to transport volunteers.

Paul,

It sounds like the filters are stuck in transit in West Michigan. DHHS is working on getting an ETA for the next batch.

The plan right now is to load up at GCCARD, then head to the DHHS offices to pick up the filters that are in stock, then head out on the mission. Once I get word that the additional filters have arrived, I'll send that along.

I believe you have the GIS maps showing where filters have already been delivered. At those locations, we do not need to deliver another filter, but may need to drop off replacement filters.

The GIS iPads should be there and Calix from Flint GIS will be there to provide a quick tutorial on their use.

Matt

I just spoke to Insp. Bolger at the SEOC requesting information on what they can support with logistics for Thursday and Friday this week. I would also like to push that out to Saturday.

Once the logistics are worked out, I will let you know. This will give us a better idea of the numbers we will be requesting from each Bureau to support this effort.

I will keep you posted.

As we spoke earlier about this issue, we will be putting out a department wide request to do this community service.

I'd like each Bureau to coordinate the appropriate number of staff needed for these 2 dates.

This will be "One Team"... Providing service with a purpose.

We will work on that but we have to clear up all the potential HR issues first. Just to be clear, we're asking for volunteers for this Thursday and Friday and potentially other dates in the upcoming weeks that have not been determined? We are not looking for volunteers on Saturday, right? That would make things easier from an HR perspective.

I would like to push Thursday and Friday for MSP.

I was just briefed by Gina Holmes, Director of MCSC that there are hundreds of volunteers just waiting to be deployed.

We can discuss later today.

On my 0830 call with the local EOC with a JIC rep that the integration of all resources had to be pushed more. This is exactly what we needed. Capt. Tafoya has been our go to person and staff has a great relationship with him in the EOC. Great job by Kaiser also.

Hollywood just called. Apparently Brad Pitt is sick (strep throat I think)...  
They'd like Capt. Kelenske to escort Angelina on the red carpet this week.

I told them NO. He's busy.

**Subject:** Volunteers needed for water resource teams in Flint

The department is soliciting volunteers from within the department, both enlisted and civilian, to join water resource teams working to hand out bottled water, water filters, replacement cartridges, and water testing kits at homes in the city of Flint. This effort is part of the state's response to the ongoing health and safety issues caused by lead in the city of Flint's drinking water.

Volunteers will begin their assignment in Flint at 9 a.m. and end by 4 p.m. Volunteers can be available for one or both days. Lunch will be provided.

Employees chosen for this assignment are considered to be working on-duty; this assignment would be considered their scheduled work day. Overtime or compensatory time is not authorized for this assignment.

Transportation will be provided using state vehicles; mileage reimbursement for personal vehicles is not authorized. Volunteers should dress for working outdoors and wear foot attire appropriate for walking.

Interested employees should obtain the approval of their supervisor. **Supervisors must forward the names of approved volunteers and their email addresses through the chain of command to bureau with the date(s) available by 1p.m. tomorrow, Wednesday, January 13.**

Confirmation of selected employees, along with additional logistical details, will be made via email by 5 p.m. on Wednesday, January 13.

For questions, please contact Insp. Scott Marier at 517-373-7761.

Tom / Dave

The State of the State is scheduled for Tuesday 1/19/16.

The Governor has taken hits from both the media and the public on the state's response to the Flint water crisis. With the State of the State only days away, I want to ensure we have the appropriate security measures in place to address the high tensions and threats that have been intended for the Governor.

As the Ops Plan is developed, I want to ensure that the MIOC is fully engaged in providing intelligence reports up to and during the event.

Tom, please provide a copy of the Ops plan to the Director, the Ops Desk, and myself.

Thank you

**Subject:** SEOC Update 1/12/16 - Flint Water - Limited Distribution

**INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR’S OFFICE**

### Update 1/12/16 – 8<sup>th</sup> Day (7<sup>th</sup> Full Day) After Governor’s Declaration of an Emergency

I apologize in advance for the length of this report. With the supply issues we had the last couple of days I wanted to share our inventory plus what we anticipate to ensure we do not have supply issues.

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Fine-tune logistics
- Increase and deploy door to door teams (tate teams added to teams from the Sheriff’s Department)
- Increase collaboration and messaging of collaboration with local agencies (specifically the Sheriff’s Department)

#### Attached Documents:

- SitRep 7
- Executive Order Activating the National Guard

#### Key items for tomorrow to note are:

- The Governor signed an Executive Order activating the National Guard. Mission will be to relieve ARC volunteers at the PODs (Fire Stations) which will free up the ARC volunteers for door to door activities.
  - I have briefed the ARC Disaster Officer on this plan.
- The Governor requested, through FEMA Region V, support from the Federal Emergency Management Agency (FEMA) to bring together and identify other federal agencies that may have programs and funding that could be dedicated to assisting Flint as part of an interagency recovery plan. One of the existing LNOs has been identified as the POC for this. He will be a great liaison for the FWIACC.
- The door to door teams will continue at 0830 Wednesday morning and continue through the weekend and ramp up door to door operations with additional teams. Teams are focusing on the high lead level areas.
- We will look at all commodities and see where we are and where we need to be while working with the ARC logistics specialist.

#### Items to Note

- PSA video sent out to Flint citizens on resources available.

- Water
  - Today's numbers - 7,824 cases of water arrived today, 1/12/16 (109 pallets)
  - Ordered:
    - 19,152 cases of water are going to arrive Wednesday, 1/13/16 (266 pallets)
      - 1/3 is going to GCCARD and the rest is going to the new warehouse
    - 12,768 cases to arrive daily beginning Thursday through Saturday (177 pallets a day)
- Filters
  - Today's numbers
    - Ordered on 1/11/16 and delivered 1/12/16 direct to GCCARD
      - 2,000 – Brita filter faucet mounts
    - Filter Replacements
      - 2,400 – Brita filter replacements (single pack)
      - 8,000 – Brita filter replacements (two pack)
  - Ordered on 1/12/16 to arrive Wednesday
    - Faucet Mounts – To be delivered direct to GCCARD on 1/13/16 (Wednesday)
      - 10,000 – PUR Vertical faucet mount
      - 2,500 – PUR Horizontal mount
    - Replacement Filters – To be delivered direct to GCCARD on 1/13/16 (Wednesday)
      - 10,000 – PUR replacement filters (3 pack)
      - 10,000 – PUR replacement filters (single pack)
    - PUR Combination Pack – to be delivered to GCCARD on 1/13/16 (Wednesday)
      - 10,700 – PUR combo packs
- To arrive Thursday
  - Zero Water Pitcher (8 Cup) – Delivering direct to GCCARD on 1/14/16 (Thursday)
    - 1,300 – Zero Water pitchers
  - Faucet Mounts – Delivering direct to GCCARD on 1/14/16 (Thursday)
    - 11,000 – PUR vertical faucet mount
    - 1,500 – PUR Horizontal faucet mount
    - 5,000 – Brita faucet mount
    - 10,000 – Brita adv faucet mount white
    - 12,000 – Brita adv faucet mount chrome
  - Replacement Filters – Delivering direct to GCCARD on 1/14/16 (Thursday)
    - 117,600 – PUR replacement filter
- Test Kits
  - 6601 unassembled kits arrived at GCCARD today, 1/12/16.
  - 500 have been assembled and are ready for distribution
  - 1000 additional unassembled kits have been ordered to be delivered at GCCARD (no ETA yet)
  - 10,142 unassembled kits to arrive at GCCARD early next week
- Second warehouse – Located in Flint
  - 100,000 square feet of secure warehouse obtained.
  - Accepting commodities beginning Wednesday, January 13
- Logistics Support
  - The American Red Cross Logistics Planner arrived from DC today as requested. I outlined what her mission was and how I saw the progression forward. This logistics planner will assist in streamlining the inventory and distribution process now and into the future.

- Door to Door Numbers

- Today the app implementation for the field went extremely well. There were a few issues that were quickly addressed. One related to how form fields should be filled out. Another was getting styluses for teams so that they don't have to remove their gloves in the cold. All very simple to fixes.
- We are working on version 2.0 so this can be used at the PODs
- We should be able to greatly optimize distribution in the near future as we mapped the active water subscribers from Flint's DPW and are adding them to the field team members apps. Of the ~56,000 possible addresses, this reduces the number of possible homes to visit down to ~29,000.
- Notes from the field commander:
  - "Today we started out the day using two groups that consisted of approximately 10 people in each group. We eventually combine groups with Genesee County Sheriff's group and they brought two more groups with approx. 10 people (Local UAW) in each group. This made us a lot more efficient and we were able to set up a game plan. Tomorrow I feel we will be more efficient and we will have a better plan in place to get the maximum output out of our resources."
- In the end, there were 394 total home visits with the following breakdowns:
  - 217 Door Hangers
  - 152 Vacant Homes
  - 117 Water Distributions
  - 112 Filters
  - 3 Pitchers
  - 48 Water Test Kits

- 211

- CALL VOLUME:
  - 185 calls for water-related issues had been received as of 4:45 pm.

- Logistics made contact with Comcast and will be supplying them with filters and replacement cartridges for their deliveries in their work trucks as they make services calls. They will follow our procedures for reporting (our checklist).

Chris

---

#### Update 1/11/16

The focus today was the media event and getting the supplies and logistics on track. Most of the activity today was working on logistics for the water and other supplies.

#### Attached Documents:

- SitRep 6

#### Key items for tomorrow to note are:

- The door to door teams will start at 0830 Tuesday morning. It is reported that troopers are going to the door but DHHS employees are the lead with a troop car nearby.
  - State and local GIS created an App today for the teams to use tomorrow but I see potential use at distribution sites.
  - The App data will be used for our maps as we survey the public/distribute supplies and we will be getting real time metrics through the site from the field send back to the SEOC. We are using Android tablets tomorrow but in the future can use any mobile device for this.

#### Items to Note

- It was reported that only one POD (Station 5) was out of water longer than 30-45 minutes. This site was ~2 hours without water and part of that was the truck went to the wrong station. Trucks were sent as soon as the local EOC was notified.
- We also did not receive a DHHS shipment that was to come in which caused some filter delivery issues.
- Supplies are limited at this time; however, we are getting our shipments starting at 0630 tomorrow.
- We have Home Depot giving us 12,768 cases (this was a late development so the SitRep indicates half the amount) of water every day starting tomorrow. We are still working with other distributors too.
- ARC is flying in a logistics planner tomorrow. Three additional staff will be with her to shadow and help. We are turning warehouse logistics over to ARC logistics. We are moving tomorrow to a process that has a distribution center (GCCARD) and a warehouse that is 100,000 square that will maintain mass quantities. Staff has continually been placing orders for supplies to ensure we get a head of this. The intent is to keep the warehouse full so we do not have these continual issues of supplies.
- Began mapping lead service lines (anticipate having draft of lead service lines Friday).
- Coordinated with local IT managers overseeing filter tracking system to streamline data collection.

#### Local Emergency Operations Center

- Working to coordinate resources at the local level to maintain adequate supplies at all PODs.
- Demand has exceeded supplies and supplies are moving rapidly from PODs today. Working to make sure POD managers notify us when they start running low.
- Working to establish a warehouse for local resource storage.
- Established trigger points for resources at PODs and hourly inventory reporting from the PODs.
- Discussed potential long term water sources between local EOC and SEOC.
- Established planning cycle/meeting scheduled for 1/12/16.
- Local EOC EMHSD staff with Natasha Henderson to request deployment of City representative at local EOC.

Chris

#### Update 1/10/16

##### Attached Documents:

- SitRep 5
- Door card (English version but Spanish version will be ready for Tuesday)

I have a local EOC section listed below but state personnel are heavily engaged in management of both locations. We occasionally hit some road bumps with this event but all personnel are working well together to accomplish our goals (especially state agency personnel).

I have had good discussion with FEMA LNOs. Two statements have been developed from our discussions that hopefully helps put this in more context but if it is more confusing I apologize:

1. In the immediate response, the State, in collaboration and coordination with city of Flint and county of Genesee are working to get water, water filters, and testing kits to the affected population. In conjunction, the state will coordinate with federal agencies to ascertain what resources can come to bear to help mitigate the issue.
2. If asked about a federal declaration from FEMA, we need to articulate the definition of major and emergency declaration and state or note to ourselves that it appears to not qualify; however, there may exist opportunities to leverage federal assistance from some agencies (i.e....EPA) under their own authority to help address this issue.

- We need to really manage expectations on the potential for a federal declaration...not that we will not go after one but it will be difficult to get.
- A major disaster is defined in the Stafford Act as any ***"nature catastrophe (including hurricane, tornado, storm, high water, winddriven water, tidal wave, tsunami, earthquake, volcanic eruption, landslide, mudslide, snowstorm, or drought) or, regardless of cause any fire, flood, or explosion.....causes damage of sufficient severity and magnitude, to warrant major disaster assistance.....to supplement the efforts and available resources of States, and local government....."***
- An emergency declaration is ***"is any occasion or instance for which, in determination .....assistance is needed to supplement State and local efforts and capabilities to save lives and protect property and public health and safety or to lessen or avert the threat of a catastrophe....."***
  - This is limited to immediate and short-term assistance (I hate to put times on this but short-term is like 3 weeks), essential to save lives, protect public health and safety and property.
- Severity of the situation is ***"A finding that the situation is of such severity and magnitude that effective response is beyond the capability the state and affected local governments, and that the state requires supplementary federal emergency assistance to save and to protect property...."***
- Nature of assistance for Emergency Declaration is for ***"Debris removal, emergency protective measures, direct federal assistance...."***
  - Debris Removal = *self-explanatory and we do not have this*
  - Emergency Protective measures = *water, commodities, transportation (remember ... to supplement what the locals and state are already doing if we need more)*
  - Direct federal assistance= *what specific type of work is requested, and what are the reasons why the state/local government cannot perform or contract for performance. Essentially what is the need that state/local govt cannot provide. I can see this being something we need but we may be able to get this outside a federal declaration under the federal agencies own authority to help address this issue.*

Back to the update...

#### Key items for tomorrow to note are:

- Training is occurring for the door to door teams scheduled for Tuesday morning.
- Deploying an additional MSP District Coordinator to the local EOC for command and control support.
- Deploying two DTMB trucks and two drivers for sustained logistical support for the week.
- Media event with the Governor in Flint.
- New Incident Action Plan starts (1/11 0800 -1/13 0800 operational period). Our objectives are as follows:
  1. Ensure all households within impacted community have required resources.
  2. Ensure accurate tracking and accounting of all commodities.
  3. Improve and maintain public information strategy.
  4. Develop a long term public health and services plan.
  5. Ensure adequate staffing to support operational requirements.
  6. Identify possible assistance programs.
  7. Develop an approved GIS strategy.
  8. Maintain coordination between partner agencies and organizations.
  9. Enhance situational awareness and common operating picture of all activities.
  10. Develop a comprehensive Recovery Plan.

#### Items to Note

- All 9 churches had filter systems/replacement filters, information sheets, and water test kits delivered as requested by each pastor/reverend on Sunday. We did not think we could get them water due to the limited time but we did end up getting water to all 9 churches with the other items.
- Fire station resource locations stayed open from 9a to 9p and will continue with those hours until further notice (Staffing is in place until Saturday). ARC is staffing these locations.

- The media event was held at Fire Station No. 1 and report back is that it went well and the spirit of collaboration between local, state, non-governmental partners is strong was relayed.
- The door to door teams will have the hours of 8:30 a.m. to 5 p.m.
  - Each will have logistics support from DTMB, security from MSP, and contact personnel from DHHS.
  - The door card is attached that will be left if no one is home.
- Worked to identify a storage location within the City of Flint for water and supplies. G-CARD is identified as temporary location but we are moving toward a state run warehouse operation (looking at private sector partners to assist, especially with the warehouse management side).
  - GCCard is large enough, centrally located and comes staffed. GCCard has 75,000 sq ft with warehouse managers to assist with tracking resources coming in and out.
- GIS will provide us daily updates of how much was distributed each day but note we have a delay in data entry from delivery to entry in the GIS system. Over the weekend there was a problem locally with staffing to get this completed. A solution is in place and will be implemented so we get timely data. Distributed to date (as of 1/8/16).
  - 12,386 filters
  - 1,985 replacement filters
  - 354 Pitchers
  - 2500 Lead Testing Kits
- Establishing and tracking of resources is a priority. Staffing has been assigned to get a good handle on these to ensure distribution sites maintain an appropriate level of inventory. I have requested trigger points get put in place so we do not get below certain levels in the main warehouse location.
  - Contacts with some large water distributors have been made and their and our logistics chiefs will connect first thing this week.
  - We have ordered an additional (expedited delivery with ETAs tomorrow)
    - 40,000 Brita Filters
    - 40,000 Brita Replacement Filters
    - 1000 Zero 8-Cup Pitchers
    - 1000 Zero 8-Cup Pitchers
    - 2000 PUR Replacement Filters
    - 93 Pallets of water (about 6700 cases)
- GIS continues to produce multiple maps for use.
- JIC Items
  - Requested PSA on the radio. Media has been approved and working with MAB.
  - Requested JIC to contact Comcast and Dish Network for availability for continuous running of filter install/replacement and test kit video.
  - A news release will likely going out tomorrow regarding canvassing in neighborhoods. Continued social media messaging.
    - Tuesday – embed state PIO with one of the canvassing teams to liaison with media.
    - JIC moving tomorrow to Flint.

### Local Emergency Operations Center

I am providing you some information on some issues we ran into at the PODs. This has been addressed with additional state resources and processes put in place so we do not run out of resources. Public concerns/complaints have not been brought to my attention at this time. Staff is working very hard to ensure we do not run out of supplies at the PODs and they understand the consequences. No one in the Local EOC or State EOC is happy the following occurred and I felt you should know in case it is brought up. Again, I believe we have fixed this and I take full responsibility for any supplies not being on site.

### Fire Station Inventory Levels:

Station 1:

- Only time without supplies - 15 minutes without water while the truck was unloaded.

Station 3:

- Ran out of replacement filters around 7:00, replacement filters delivered around 7:30. Had to pick up replacement filters from Home Depot and deliver.

#### Station 5:

- Ran out of water around 5:00, water was delivered around 6:30. We needed to find additional trucks because DTMB drivers were over hours. The ARC stepped up and found a truck to go and pick up a pallet of water and deliver.
- Somewhere between 4:00-6:00 they ran out of lead test kits. No way to restock these because City facilities were closed and could not reach anyone.

#### Station 6:

- Around 5:00 ran out of water, filters, and replacement kits. Replacement kits were delivered around 7:30. Additional water and filters were delivered after 9:00 due to the DTMB drivers heading back to Lansing. Food Bank was called and had to get drivers in to operate trucks, pick up water from the School District, load and deliver to all sites. Delays occurred with weather conditions and needing to use last minute sheriff EOC staff to load due to issues with City workers. City workers were scheduled to help and left around 7:00 without helping.
- 2 pallets of water were dropped off in the afternoon and within 1 hour were gone. This was much faster than we expected. On 1/9 they didn't go through 2 pallets of water at any station for the hours 9:00-4:00.
- We received news that a reverse 9-1-1 call notified residents of water which caused an unanticipated amount of people obtaining water. There was also a report of 1 person walking out with 2 cases of water and trying to sell in the parking lot.

#### Station 8:

- Around 7:00 ran out of filters and lead tests. Filters were delivered around 8:00 from the food bank trucks.
- Hourly reports were requested in the morning from volunteers but this information was not received as to the status throughout the day. Early inventory of supplies took between 1 hour-1.5 hours to receive in the EOC. We were not advised of low counts, just zero numbers.
- Reports received that the last couple of hours were slow.
- Residents were advised of the other sites and the opportunity to obtain supplies.

#### Restocking Plan

- United Way set up meeting with Food Bank to discuss.
- Had EOC meeting on this topic to discuss options.

#### Churches:

- All 9 churches received waters, filters, and informational bulletins.
- Lt Roach received positive feedback from 3 of the pastors.
- No complaints were received.

#### Signage:

- Provided information to SEOC on signage requirements at the fire stations.

#### Storage:

- Researched storage spaces; established temporary site at GCCARD.

#### Personnel:

- Lack of local EOC leadership (seems somewhat checked out) with IC and Deputy IC (doing an okay job).
- Captain TaFoya (Genesee County) helped tremendously today with all the plans outlined above and attended the press conference.
- Tina Martinez at the Food Bank and Matt Purcell at GCCARD were extremely helpful in getting last minute operations set up.

Chris

---

Update 1/9/16

SitRep 4 attached for more in depth information. The below only contains some items worked on today and while the format in the attached SitRep is not perfect (it is created automatically by MICIMS) it does contain a lot more information you may want to read. I also attached one of our maps. It is our filter distribution map. All filters handed out by anyone working with us feeds into this now. We are continuing to refine these and at this time there is a delay in the upload of address data but we are working on it. We have a way to go to get filters in every home but this will help direct us to those who need still them. We also are working on identifying abandoned homes.

Key items for tomorrow to note are:

- 9 churches will have ARC volunteers and filters for distribution. Some may also get water.
- 5 fire stations are a distribution point for water, filter systems/replacement filters, and water test kits. While only open today until 4 p.m., tomorrow and until further notice they are open from 9a to 9p.
- Media event will take place on the above tomorrow.

#### Items to Note

- 211 has some issues with call load but it is being worked on. 2-1-1 Director contacted MDHHS PIO to discuss/resolve caller wait times and messaging. We anticipate an increase in activity tomorrow in 211 calls so we requested and received an increase to staff 211.
- We are shifting tasks the SEOC took on that are handled more effectively and efficiently at the local EOC. We have established command and control in their EOC. We are running things there but that is not being made public. We are doing this in partnership but we are clearly handling the operation with state personnel oversight.
- A 3rd FEMA LNO arrived today upon my request. This has nothing to do with a Presidential request for a declaration but support for some other items I want worked on for long term recovery.
- We continue morning calls with the local EOC leadership and local emergency manager on what our goals for the day are as well as any issues/concerns.
- Five 5 fire stations have received water, water filters, replacement cartridges, and water testing kits with American Red Cross personnel at each location to assist with delivery of resources and collection of addresses receiving them. These locations will be open from 9a – 9p daily until determined they are no longer needed. Those picking up water testing kits will be advised that they can return the test kits to the fire departments (where they will be picked up and taken to the Flint City Hall), the Flint Water Treatment Plant, or they can take them directly to the Flint City Hall. For those unable to return the kits, 211 can make arrangements for pick up the kits. We understand response to these sites has been positive thus far. The Genesee County EOC will be monitoring these supplies and request replacement of products as needed.
  - A call is going out tomorrow morning to advise this information ... I do not believe it was every resident but *Tori Sachs has that info if needed.*
- I approved a press release today to advise the public that all levels are working together to ensure delivery of filters, test kits and water; noting that all of these items were delivered to the 5 Flint fire department stations. It was stressed that the public should be aware that the local and state agencies have been working cooperatively to assist the residents - and will continue to do so. This was done to hopefully end or at least minimize the "who can get water and filters out first" when all of this has been connected with the state and coordinated since the state declaration was put in place.
- The arrangement of 2,000 filters, to be taken to 9 local churches on Sunday, January 10, is ongoing. The filters have been secured; they are now in the possession of the DTMB. DTMB will return to Flint on Sunday morning to deliver these to necessary locations. The American Red Cross will be on site at each church to assist with distribution and recording addresses (for GIS). The local EOC is working to ensure these arrangements are complete and run smoothly. Future engagement with the faith based community will occur to assist with additional distribution.
- A Flint City liaison has not been in the EOC but starting Monday this will be in place to keep the Flint Mayor apprised of activities being conducted in the city. She also has been advised she can call me at any time if she needs anything.
- Training has been confirmed for the door-to-door operation scheduled to start Tuesday. Four teams are initially scheduled with more to potentially be put in place. These are the teams that will be handing out water, filter

systems/replacement filters, test kits and information. If nobody is home, a door hanger with information is being left. DHHS personnel and \_\_\_\_\_ will be on these teams.

- Training will take place at 1 p.m. on Monday afternoon at the DHHS office on Clio Road. DEQ and DHHS will provide the training.
  - Training is so those going door to door can explain what the filters do, how to install them, if they need install help to call 211 who has a list of people who can install the filters, and answer any other questions versus just handing them the filter.
- Hours of operation will be Tuesday through Friday from 8:30 a.m. to 5 p.m. AT THIS TIME. I am reevaluating these times to increase contact with someone versus just leaving information.
- Logistics are being finalized for the teams and trucks to handle stocking and re-stocking of materials during daily operations.
- GIS maps will provide guidance on deployment locations for these teams and other teams in the field.
- A pilot project at Freeman Elementary with LARA and DEQ has been initiated to see if replacing certain plumbing components in faucets at the school will drop the lead level.

#### MSP/EMHSD GIS Section Updates

Accomplished Today (January 9):

- Produced a Point of Distribution Map. Contains four types of distribution points; Churches, Water Resource Sites, Filter Distribution Sites, Water Distribution Sites.
- Produced Filter Distribution Map.
- Developed process of how best to handle geocoding the household filter locations, worked on processing the data.
- Worked on map of franchise customers outside of Flint City.
- Produced maps for MDARD on food establishments and Local Health Departments.
- Produced map of Church Filter Distribution map for DTMB.

#### Local Emergency Operations Center

- The state has deployed 10 personnel to the Genesee County EOC to ensure we have command and control at the local level. On 1/8/15 The state personnel took over the incident management functions of the Genesee County EOC (not public). The arrival of additional staff allowed the local Emergency Management Coordinator to delegate tasks which relieved a tremendous amount of stress.
- Additional Sherriff staff (2-positions) will be shadowing the state incident management team to allow for transition to the county personnel later in the incident when we are comfortable with them handling things. Not sure when that will be but we have secured a direct bill hotel for staff to stay in Flint as long as needed.
- With the additional staff, the Local EOC will be able to take over functions previously handled by the SEOC including:
  - Logistical activities to support church operations.
  - Logistical activities to support fire stations operations.
  - Coordinate Donations Management activities and draft donations management plan
  - Coordinate Volunteer Management activities
  - Identify local storage/staging facilities
  - Overall inventory tracking
  - Tracking of Points of Distribution (PODs)

Chris

---

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/8/16

SitRep 3 attached.

There is a significant difference in what is being presented by the media and what the local EOC is relaying to us at the SEOC. It is also being driven by the media that this is a state versus local response (who is providing more and quicker versus a coordinated effort between all). That said, I advised SEOC personnel that perception is reality in some eyes and we are to move forward to address items that typically are addressed at the local level. I have ordered the SEOC open all weekend due to make the quick wins that we need and continue to get the coordination and collaboration in place that is needed (but make gains on our own as needed).

#### Items to Note

- Two FEMA LNO's arrived today and are in the SEOC. A third LNO was requested from FEMA due to some unique issues with this event to include having to deploy more of my staff to the local EOC to get more structure and/or find out why there is an issue with the message the media is showing versus what we are hearing from the local EOC.
- We finally received from the local EOC 8 locations (we were told originally early in the week they had 80-90) that are their Points of Distribution (PODs) for water in conjunction with the local food bank. The PODs are not getting water from the food bank even though the food bank has water. We are going to resolve this issue as we can help deliver the water to the PODs but we were not aware of this. 8 PODs is not enough locations if water needs to be distributed to citizens. Speaking with the ARC Regional Administrator later today, I believe ARC got water to those locations but I need to confirm that in the morning. The food bank reported they had 376 cases of water.
- We have learned that a low number of residents are testing their water when DEQ can test 400 kits per day. This is an added focus that we believe can be increased through dissemination of test kits with the filters and any water.
- I found out the Mayor was okay with using fire stations as distribution points for water, filters, and water test kits. While this did not come to me through the local EOC, I advised we needed to get water, filters, and test kits to these locations for tomorrow. The distribution at 5 Flint Fire Department stations has been coordinated to be in place by 10:00 am tomorrow morning.
  - DTMB has provided a truck and driver to pick up water test kits from DEQ lab in Lansing, water from the Food Bank and water filters and replacement cartridges from GCARD in Genesee County.
  - 10 American Red Cross (ARC) volunteers will meet the DTMB truck at GCARD at 9:00 am to be provided information about filters. Instructions will be included in water test kits. They will then report to the 5 fire stations to assist in distribution of resources to the public and track addresses of same.
  - Residents will be told where they can drop off their water test kits, or that they can return them to the fire station the next day. Coordination will occur on pick up of water test kits daily to be taken to the Flint City Hall, who will then delivery them to the DEQ testing lab.
- STILL FINALIZING - We have made available 2,000 Filters for distribution on Sunday as parishioners leave mass/services. This will be 200 filters for 10 churches in Flint. While this is a small number of churches, we do not want to waste an opportunity to hand out filters and this seems like a quick way to so. The filters will be put on the DTMB truck on Saturday for delivery to TBD locations for distribution. Logistics remain undetermined as I am still waiting on a list of the churches, pastors/reverends/hours or services/etc. The DTMB truck will be returning to Lansing approximately 11:00 a.m. so we need to finalize this quickly on Saturday. We may utilize ARC to assist with this.
- The Recovery branch is working with the JIC to develop a door hanger card. DTMB is working on the printing portion of the hanger card. Recovery will also be finalizing logistics over the weekend for neighborhood canvassing to occur early next week. 40 volunteers have signed up to attend training on Monday afternoon to complete this task. The mission will be to deliver water sample kits along with water filters/replacement cartridges, and water.

- It appears that 211 has become overloaded. DHHS is researching ways to increase capacity for calls.
- A Volunteer Management Coordinator is in the Genesee County EOC as of today.
- A Donations Management Coordinator has been requested and she will be in the Genesee County EOC Saturday.
- DHHS had a conference call with GM today; they indicated they can provide cash, and supplies, but primarily manpower. No commitments were made at this point. We inquired as to availability of warehouse space and trucks. It was left as GM being a major resource pool that we can tap into as we determine missions. Further conversations will occur, but primarily GM just wanted us to know they are there if needed.
- An additional EMHSD staff member was sent to the Genesee County EOC to act as Operations Section Chief and obtain awareness of the situation there.
- GIS staff met with various parts of Genesee County/Flint personnel to try to get a handle on data available.
- GIS continues to work with local GIS personnel with three GIS staff going to Flint today to work with them. GIS staff is working with U of M on how best to proceed with digitizing water lines for long term recovery.

Chris

---

#### UPDATE 1/7/16

A summary of some of today's SEOC activities is provided below. Attached is the following:

- Today's SitRep which contains more information than below.
- The resource request/task assignment sheet for your situational awareness. *This is how locals request resources as well as how we track resources and any assignments and/or tasks that are to be completed.*
- JIC Task Tracking – for your situational awareness on how we are tracking requests and assignments. Once someone is assigned a task or resource request it allows them to document what work has been or will be done as shown at the bottom of the document.

#### **Items to note:**

- I received a document this evening from Genesee County which appears to be damage assessment information. Analysis of this will occur tomorrow. It appears to be infrastructure and costs to fix it and no other impacts.
- I spoke with Jamie Curtis, Genesee County Commissioner, this evening. A very good relationship is in place with him, especially with our District Coordinator (DC). I also have our DC working on developing stronger relationships with the Mayor/Mayor's office.
- GIS staff continue to obtain data and work with County and City personnel to get a picture of where resources have been provided, need to be provided, as well as infrastructure locations (pipes) that could be affected.
- Personnel and agencies have been tasked with developing a plan to get people in the community to deliver information, hand out filters, etc. *This would target those areas we are showing minimal or no filter distribution based on the data we are collecting. The plan is to get them in the field by Tuesday and the plan will be provided to me tomorrow.*
- Filters can be obtained at the following locations:
  - Michigan Department of Health and Human Services office, 125 E. Union St., Flint, MI 48502

- Michigan Department of Health and Human Services office, 4809 Clio Road, Flint, MI 48504
- Genesee County Community Action Resource Department office, 2727 Lippincott, Flint, MI 48507
- Genesee County Community Action Resource Department office, 601 N. Saginaw, Flint, MI 48502
- Conducted briefing with local EOC and county executive.
- Conducted briefing with state agencies (daily updates).
- Began work to schedule legislative/congressional conference calls. Tentatively scheduled for 2 p.m. Friday.
- JIC continued to develop messaging.
- Provided input to local EOC regarding best methods of identifying health and non-structural impacts for damage assessment process.
- Deployed two EMHSD/SEOC liaisons to assist the local EOC.
- Published the Incident Action Plan and continued assignment of objectives/tasks.
- FEMA Liaison Officers just arrived in Lansing to assist command and general staff.
- I spoke with Harvey a few times and he should have talking points later tonight or tomorrow a.m. for his use and also for others who may speak to media outside of state government who may benefit from our messaging.
- We held a media round table at 1 P.M. at the SEOC. Dr. Wells and I spoke and answered questions to numerous media outlets.
- Local agencies and NGOs continue to provide water and filters to citizens.
- The website, [www.michigan.gov/flintwater](http://www.michigan.gov/flintwater), was update with information and links to assistance to include 211. Additional recommendations were provided to include information on the testing water in homes.

#### EMHSD GIS:

##### Accomplished Today:

- Reproduced Socio-Economic Status Map
- Reproduced Predicted Affected Populations Map
- Cleansed old data and reports for water filter distributions
- Created draft map of water filter distributions (Refinement needed before releasing final product)
- Scheduled on-site visit with Flint GIS Department and Genesee County GIS Department
- Formatted databases to host content
- Researched service line database creation and scheduled meeting with U of M Flint to discuss timelines and resource needs
- Generated water infrastructure map (does not include building service lines)

##### Tasks for Tomorrow:

- Meet with Flint City GIS
- Meet with Genesee County GIS
- Meet with U of M Flint GIS
- Finalize water filter distributions map
- Finalize plan for data distribution methods

Chris

---

#### UPDATE 1/6/16

A summary of today's SEOC activities is provided below. I tried to distill this as best I could but there has been a lot of activity and discussion to get an accurate assessment of the situation. Attached is the final draft of objectives and tactics for the operational period and agency situation report (SitRep) which has more SEOC agency information. I have implemented weekly operational periods.

Advise if you want anyone else copied or off this distribution.

## Daily Update

- Set goals for SEOC and identified response/recovery emphasis
- Requested FEMA liaison officers (LNO) from FEMA Region V. Two LNOs will be on site by ~3 p.m. 1/7/16. Both are known contacts to me and some staff and one has worked extensively with me during the SE MI flooding in a command and control position. These personnel have been specifically tasked with this mission. **THEY ARE NOT HERE TO ASSIST WITH A PRESIDENTIAL DECLARATION REQUEST BUT TO ASSIST ME.**
- PIOs from multiple agencies were here and established the Joint Information Center (JIC). News released pushed out on this. I am very happy with the PIO work and movement toward coordinated messaging.
- Held briefing for State Agency Emergency Management Coordinators, which included presentations from DEQ and DHHS subject matter experts to ensure situational awareness and to develop a common operating picture.
  - I opened the briefing by identifying our initial goals, items to think about while subject matter experts were briefing us, and how we are to move forward, find quick wins, and regain trust.
  - **MDHHS – Elevated Blood Lead Levels**
    - Dr. Elizabeth Wells gave an in depth summary of lead poisoning and what has occurred in terms of health monitoring throughout the Flint crisis.
  - **MDEQ – Water Testing Protocols**
    - Mr. George Krisztian of MDEQ gave an in depth summary of the testing protocols and summary results that as they have developed throughout the emerging crisis.
- Developed Incident objectives, strategy and tactics (see attached)
- Identified SEOC and state agency staff positions
- Assigned work tasks for SEOC operation period from 0800 January 6, 2016 to 1700 January 8, 2016
- Reviewed planned actions, prepared *final draft Incident Action Plan*
- **Made contact with the Genesee County Emergency Manager first thing in the morning and held a conference call mid-day to discuss roles. Daily 0830 command conference calls with local EOC command staff starts tomorrow. Tomorrows call will include the County Commissioner and the City Administrator (both invited). Topics include the incident action plan objectives and establishing better local coordination, command and control to facilitate integration with the SEOC. The local EOC is not functioning as it needs to with personnel and local coordination and we are working on that issue.**
- I will be in Flint tomorrow for a 2 p.m. media round table with local officials that was set up by the JIC.
- The attached initial objectives will be updated at least every operational period and as needed. I listed the objectives below but the tactics to accomplish them is in the attached if you want further information.
  1. Activate the State Recovery Task Force (SRTF).
  2. Establish and maintain coordination between the City of Flint, Genesee County, state and federal agencies, and appropriate medical experts.
  3. Obtain and maintain situational awareness and common operating picture of all activities.
  4. Establish SEOC operational period and hours of operations.
  5. Investigate and identify all available programs for assistance with direct or related impacts, including the federal Lead Pipe Replacement Program.
  6. Develop a comprehensive GIS strategy.
  7. Coordinate response and recovery activities with MIVOAD and identify potential mission areas.
  8. Establish and coordinate routine communication between SMEs and coordinate technical assistance among state agencies and to local agencies.
  9. Provide technical assistance to the local Damage Assessment process.
  10. Establish a Joint Information Center (JIC) and develop a public information strategy.
  11. Monitor MI CIMS for resource requests and address as appropriate.
  12. Establish and disseminate cost center information for the incident.
- Additional tasks include:
  - Determine what federal agencies are already involved and their status
  - Identify potential water supplies
  - Determine where affected homes are located, where filters/pitchers (and replacements) were installed/provided, and determine who needs filters, etc.

- Determine how filter distribution is handled, and if it can be handled more efficiently and effectively
- Determine what mechanisms are in place for nutrition supplementation

**EMHSD GIS Accomplishments:**

- Hosted a conference call to begin coordination with Flint City and Genesee County GIS departments and the SEOC
- Established a daily call with county and city GIS personnel to synchronize GIS efforts in support of the Flint water crisis at 8:30 A.M.
- Began consolidating local data from local GIS practitioners into a consolidated database, to include:
  - Water Pipeline Locations
  - Filter Distribution Locations
  - November 25, 2015 Water Monitoring Results (Partial, some data remains to be digitized)
  - Affected School Locations
  - Predictive analysis of blood lead levels for affected area
  - Updated Parcels
  - Demographics
  - Block Groups
- Produced a map for the filter distribution locations
- Began contacting specialists who developed historic maps depicting the Flint Water Crisis to obtain the data

**From:** Kelenske, Chris (MSP)  
**Sent:** Tuesday, January 05, 2016 6:13 PM  
**To:** Etue, Kriste (MSP); Gorski, Gary (MSP); Smith, Paul (GOV)  
**Cc:** Baird, Richard (GOV); Hollins, Harvey (GOV)  
**Subject:** RE: Update - Genesee County Declaration

I forgot to advise that we have asked key state agency PIOs to be in the SEOC for the briefing.

---

**From:** Kelenske, Chris (MSP)  
**Sent:** Tuesday, January 05, 2016 6:06 PM  
**To:** Etue, Kriste (MSP); Gorski, Gary (MSP); Smith, Paul (GOV)  
**Cc:** Baird, Richard (GOV); Hollins, Harvey (GOV)  
**Subject:** Update - Genesee County Declaration

Below are some key points for your situational awareness (FYSA) that have taken place or will take place within the next 15 hours.

- I was on the phone with Sean Kammer, Assistant to the Flint City Administrator, when the declaration hit the news so I advised him immediately. He was going to let the City Administrator know.
- I contacted MSP Lt. Roach, 3<sup>rd</sup> District Coordinator, who was at the Genesee County EOC and advised her to let the County EM know the declaration status.
- State Emergency Management Coordinators (SEMCs) were notified via our notification system with additional information in an email.
  - This included information on the SEOC activation and a 0900 briefing for SEMCs.
  - Some subject matter experts will provide us an update to establish a common operating picture.
- We have been in contact with FEMA Region V watch desk ... they will be on the call tomorrow and continue to monitor the situation.
- I have been in contact with the FEMA Region V Administrator to keep him updated.
- Operational period for the SEOC will be M-F, 0800 to 1700 at this time.
- Situation Reports (SitReps) will be provided in the evenings.

- An Incident Action Plan will be developed tomorrow.

Call me with any concerns or questions.

Chris

# Damage Assessment and Emergency Status Report

Incident: 2015-10-01-City of Flint-Water Contamination / Shortage

## Operational Period

Operational Period Begin: 01/13/2016 08:00:00  
Operational Period End: 01/15/2016 08:00:00  
Situation Report No. 7  
SEOC Status: Full  
SEOC Hours of Operation Begin: 01/12/2016 08:00:00  
SEOC Hours of Operation End: 01/12/2016 20:00:00

## Executive Summary

SEOC Update:

Accomplished today (January 12):

The SEOC continues to provide

- Situational awareness.
- Common operating picture/objectives.
- Coordination with city/county.
- Potential coordination with federal agencies.
- Incident prioritization.
- Coordination of life/health safety measures.
- Provide resources.
- Public Information Control.

### • Logistics

- o Worked on maintaining supplies and track resources at each of the local PODs
- o Worked to establish a Red Cross warehousing team to assist at two new warehouse locations
- o 50,000 sq. ft. warehouse facility established and will begin accepting resources Wednesday January 13, 2016.
- o Working with DTMB to locate vehicles needed for Water Resource Canvassing on Thursday, January 14, 2016

### • JIC

- o Media was imbedded with a canvassing team today.
- o Media coverage on the canvassing was very positive.
- o Approved a MDARD fact sheet for distribution
- o The Governor's office has pushed out a video PSA lead by Capt. Chns Kelenske.

### • Recovery Branch

- o Working with MSP SEMC to expand door to door teams this week. Expanded canvassing scheduled for Thursday January 14, 2016.
- o Canvassing today was successful and put 4 teams of 6 in the field
- o Totals resources distributed in canvassing operation for 1/12/16.
  - 217 Door hangars.
  - 117 Water (cases).
  - 112 Faucet filters.
  - 3 Pitchers.
  - 48 Water test kits.

### • Planning Section

- o Developed real time tracking system for local resources
- o Working with GIS to include local POD numbers in live GIS distribution map.
- o Completed IAP for the next operational period and the Situation Report for daily activities.

### • Operations Section

- o Fire stations up and running today and providing resources to the citizens.
- o Water resources have been scheduled to fill the designated warehouses
- o Filter resources have been procured and will be delivered over the week to fill the warehouse.
- o Second warehouse 100,000 sq. ft. has been procured.
- o American Red Cross warehouse management team on site at GCCARD
- o Daily Numbers
  - Filters.
    - 2,000 delivered.
    - 84,700 ordered.
  - Replacement Cartridges
    - 10,400 delivered.
    - 184,300 ordered.
  - Water (cases).
    - 7,824 delivered.
    - 19,152 ordered.
  - Test Kits.
    - 6,601 kits delivered.
    - 1,000 ordered.
- Finance Section
  - o Continuing to monitor SEOC staffing and costs incurred on a daily basis
  - o Develop projection of anticipated costs for response and short-term recovery

- GIS Branch Updates.
  - o Today we began migrating content to ArcGIS Online to streamline resource management operations.
  - o Deployed ArcGIS Online Collector App to field teams and tracked resources and site visits. Building a similar tracker for PODs to track the status of resources distributed
  - o We continued to work on updating old mapping products to include newer infrastructure. Lead analysis is ongoing and is at 10% of the city lines
  - o We have coordinated with local partners to develop a draft map of lead service lines to prioritize resources deployment. Finalized map will be developed by U of M Flint in mid-February

#### DTMB:

- Procured additional filters/cartridges to maintain field supply and build supply in warehouse
- DTMB real estate is finalizing lease of 100,000 sq. ft. warehouse for supplies.
- Incoming supplies by end of week.
  - o 39,500 faucet filters.
  - o 41,600 replacement filters.

#### DHHS-CH

- The Community Health Emergency Coordination Center (CHECC) has officially elevated its level of activation to "Level 2 - Partial Activation." Currently the CHECC is staffed with BETP leadership and Section Chiefs only. SMEs will be brought in as necessary
- Coordinating with MDE and MDARD on nutritional planning communications.
- Coordinating with the CHECC to determine status of Environmental Testing and Consulting Lead Investigator(s) request.

#### DEQ

- 10,000 additional water testing kits have been ordered.
- Arranged for DEQ staff to deploy to GCCARD to supervise water kit assembly.
- Arranged for DEQ staff to deploy as a field observer to assist in tracking water kit supplies and samples.

#### Local EOC Update

- Requested Red Cross warehouse teams for both warehouses.
- Working to establish a warehouse for local resource storage.
- Worked with SEOC to better track resource distribution and levels.
- Secured assistance for inventory management at GCCARD warehouse
- 2-1-1 is rerouting calls for homebound seniors to Sheriff's office, resulting in approximately 100 home deliveries.
- Red Cross warehouse team on site at GCCARD today.

#### Incident Response/Recovery Priorities/Objectives

1. Ensure all households within impacted community have required resources.
2. Ensure accurate tracking and accounting of all commodities
3. Improve and maintain public information strategy.
4. Develop a long term public health and services plan.
5. Ensure adequate staffing to support operational requirements.
6. Identify possible assistance programs
7. Develop an approved GIS strategy.
8. Maintain coordination between partner agencies and organizations.
9. Enhance situational awareness and common operating picture of all activities.
10. Develop a comprehensive Recovery Plan.

#### Emergency Declarations

##### Local Declarations

##### Federal Declarations

##### Jurisdiction: Date/Time:

#### Weather Conditions

##### Watches/Warnings

##### Upcoming Forecast

Forecast Update for Flint, MI Area Posted 1030 am January 12, 2016

- Snow and blowing snow to continue off and on into Wednesday night (January 13). Hazardous travel expected at times.
- Very cold through Wednesday night (January 13). The cold could limit ability to remove ice from road surfaces.
- Time to frostbite from exposed skin will be 15 to 30 minutes through Wednesday (January 13)
- Bottled water stored outside or not in temperature controlled locations will freeze due to temperatures well below freezing through the week

##### Through Tuesday Night (Jan 12)

- Snow and blowing snow will create hazardous driving conditions in very low visibility and icy road surfaces. Up to an additional 2 inches of accumulation possible in the Flint area. Could see long periods without snow, or a long period of continuous snow
- Snow will blow back on to treated roads. Rapid changes in visibility and road conditions are likely. This type of weather is typical of the weather that occurs when Michigan has some road closures and larger multi-car accidents

##### Wednesday through Wednesday night (January 13)

- On and off snow showers. Less snow expected than Tuesday. Could see an additional inch of accumulation. Gusty winds continue through

Wednesday evening. Very cold air will remain in the area

Thursday (January 14) through Saturday (January 16)

• Slight warming of temperatures to near 30 degrees during the day. Temperatures in the teens still expected at night. Off and on snow showers to continue into the weekend. Best chance for additional accumulating snow looks to be Friday afternoon (January 15) through Saturday night (January 16).

##### Damage Assessment Summary

#### Agency Summaries

##### Joint Information Center / Public Information Officer

The Joint Information Center (JIC) was operational in Flint from 8 a.m. to 5 p.m. on Jan. 12. State agencies at the JIC included the Governor's Office, Health and Human Services, Michigan Department of Agriculture and Rural Development, and Department of Technology and Management and Budget, Natural Resources, and Michigan State Police.

Tasks accomplished during the operational period included:

- Held an 8:15 a.m. media event where media members had an opportunity to get footage and photos of the water resource teams as they go door-to-door to distribute free bottled water, water filters, water filter replacement cartridges and water testing kits to residents throughout Flint. A photographer/videographer was embedded with the team.
- Collaborated on a Governor's news release about a Public Service Announcement featuring Capt. Chns Kelenske from the Michigan State Police. The PSA provided information about the resources currently available for free to all Flint residents, including water filters, replacement filters, bottled water, water testing kits, and blood testing.
- Issued Web and social media content about the water resource teams.
- Reached out to local and nonprofit PIOs to become active participants in the JIC.
- Finalized MDARD letter and fact sheets to food establishments.
- Sent water filtration video to Comcast. Working to get a Dish Network contact.
- Arranged for an interview with the New York Times, including directors from DEQ and MDHHS.
- Began preparing a news release to include numbers, including teams, sites, local and American Red Cross.
- Monitored traditional and social media.
- Received 17 calls from the news media on the JIC media hotline.
- Expanded JIC staffing and roles.
- Confirmed digital billboard to encourage residents to call 211 for water resources and information.

#### **Agriculture and Rural Development (MDARD)**

Jan 12th - 1/12/16 - MDARD Activities: Food Safety: The updated guidance document for water in retail food and restaurants/food service is done and awaiting final ok in the JIC/SEOC; could go out in US Mail as early as Wed. MDARD Food staff will start scheduling water sampling and inspections for next week. MDARD has requested a map overlaying food facilities with the known areas most impacted to help prioritize follow up.

Animal health update: notifications to potentially impacted facilities are nearly complete. After further coordination with Genesee County Animal Control, the three animal shelters in the Flint area are not on City water. The Michigan Veterinary Medical Association notified all veterinarians in the region last week; MDARD will be individually following up with the two clinics. There are no kennels or pet grooming facilities in the City. Genesee Animal Control will be contacting pet stores and the known households that serve as animal rescue operations and does not need MDARD assistance. MDARD is also looking at opportunities for assistance/guidance related to nutrition, including possible support through donations management.

#### **American Red Cross (ARC)**

Again today the American Red Cross provided volunteers to operate the distribution sites at the 5 fire stations. We added staff to this effort to be better able to manage inventory at those sites. We also brought in a warehousing team to manage inventory at the G-CARD site. Additionally ARC put together a team to work on assembling water test kits at the G-CARD site before the kits go out to the distribution sites. A logistics planner has now been deployed from the ARC national headquarters to assist the SEOC logistics Group Chief.

Tomorrow we expect to continue staffing the 5 fire station distribution sites, and will be standing up a volunteer reception center to process event-based volunteers. Assembly of the water testing kits will continue as needed.

#### **Civil Rights (MDCR)**

Continue to review activities to provide support and assistance to assigned Human Services branch and other SEOC activities.

#### **Community Health (MDCH)**

Provided lead health impact information requested to planning section for presidential letter.

Tasked CHECC with coordinating with Sue Kangas and Farrah Hanley to track financial expenditures.

CHECC is working to ensure that contact lists are current in the MI-Volunteer Registry, should volunteers from the registry be needed. Tracking responses from MI-Volunteer Registry query.

Received confirmation from MDHHS Environmental Health regarding NSF certification requirement for filtering lead from water.

CHECC is coordinating with HHS to obtain EMPOWER data regarding medically dependent individuals in Flint.

Requested that the CHECC contact Lowes regarding the ability to purchase Brita faucet filters.

Confirmed that +100,000 sq. ft. is available in Lansing through MDHHS MOU with private sector partner. On standby if these resources are necessary.

"Enhanced Lead Testing Guidelines Recommended for Children in Flint, MI," developed by Dr. Wells, was sent to healthcare providers via Medscape - WebMD at 0700 today.

Community Health Emergency Coordination Center (CHECC) is activated at a Level 2 - Partial Activation, consisting of BETP leadership staff and CHECC Section Chiefs.

#### **Corrections (MDOC)**

The MDOC continues to monitor the situation and our staff as well as our clients in the community. Water will remain available at the office for both staff and clients to use while at the Parole and Probation offices in the area. EM staff from the MDOC will continue to monitor MiCIMS and attend briefings. We remain available to assist in addressing this situation.

#### **Education (MDE)**

MDE is distributing nutrition guidelines for "Help Fight Lead Poisoning with a Healthy Diet" handout. Additional MDE staff trained for SEOC. (1/11)

MDE is monitoring the situation and coordinating as necessary with other state agencies.

Kyle Guerrant, Deputy Superintendent, was on-site at the SEOC; January 10, 0915-1425.

#### **Environmental Quality (MDEQ)**

The Department of Environmental Quality (DEQ) completed the following activities.

- Delivery of 6101 water test kits to GCCARD
- Verification of NSF/ANSI 53 certified filters for future ordering
- Arranged for DEQ staff deployment to supervise volunteers assembling water kits at GCCARD
- Arranged for DEQ staff deployment as a field observer to assist in tracking water kit supplies and samples
- Established additional vendors for supply of water test bottles

#### **Human Services (MDHS)**

Participated in AM & PM State Agency briefings.

Updated resource requests.

Confirmed delivery to GCCARD versus Home Depot to complete the delivery of 2000 filters, 18,400 replacement cartridges. Arranged for DTMB to pick up around 700 (23) cup pitchers from schools surplus. Plan is to split these up between the FDs. Made contact with Menards to identify filters and replacement cartridges and relayed that information to DTMB for procuring options.

Had conference call with MDHHS finance. They have concerns of the accountability of our purchases and who's driving the ordering. I explained the urgency and the process. They understand now and said carry on.

Identified 16 MDHHS staff volunteers who will be assisting in the door to door distribution operation for Wednesday, Thursday, and Friday

16 local MDHHS staff participated in the mission of the Water Resource Teams today.

CHECC continues to maintain a Level 2 Activation

#### **Licensing and Regulatory Affairs (LARA)**

LARA Executive Staff met and was updated on the situation in Flint. This will be a weekly meeting

Spoke with the Flint Superintendent of Schools, Mr. Tawwab regarding the faucet pilot program. He has approved us to move forward with this program.

Joe Madziar, LARA's Plumbing Division Chief, has provided a material list for Freeman Elementary. The list was provided to DTMB for procurement. We are awaiting an ETA from DTMB on the materials.

We are working with Tony Sitko, building manager for Flint, to coordinate a schedule for the Plumbing Division to be able to get into the school to complete the work

I am communicating with the DEQ to schedule re-testing for Freeman Elementary pilot project.

#### **National Weather Service (NWS)**

Jim Maczko from NWS Grand Rapids will participate in SEOC briefings via phone call and will coordinate support with local forecast office that serves Flint - NWS Detroit/Pontiac

#### **Natural Resources (MDNR)**

January 8, 2016

MDNR is fully participating in all SEOC activities. Situational awareness is being maintained and the department stands ready to assist as needed.

Department POC's include:

Chief Gary Hagler, F/Lt. Jennifer Wolf, F/Lt. Steven B. Burton.

#### **Services to the Aging (OSA)**

Valley Area Agency on Aging - Region 5 (VAAA), in partnership with other local community agencies such as the Genesee County Health Department and MDHHS, has helped organize local meetings and distribute water and water filters. VAAA is an access point for receiving calls from homebound seniors who are not able to pick up water filters or need assistance installing water filters. VAAA reports they continue to receive calls from seniors who need assistance

Contact info for VAAA Executive Director is:

Kathryn C. Boles  
President, CEO  
Valley Area Agency on Aging  
225 E. Fifth Street, Suite 200  
Flint, MI 48502  
(810) 239-7671  
(810) 239-8869 fax

VAAA has distributed 2 bottles of water with each home delivered meal to each HDM client within the City of Flint. Water. VAAA also provided water to homebound seniors who needed water to prepare food as they had limited support to pick up bottled water. Congregate meal participants also have access to water and filters as needed. Once water filters were installed, VAAA discontinued including water with home delivered meals.

VAAA also contacted the Grandparents Raising Grandchildren program to ensure that they were aware of educational efforts and confirm the program had received water filters to distribute to program participants.

On 1/11/16 AASA forwarded to MSP/GIS over 1,400+ NAPIS addresses of Flint seniors who received in-home services in FY15. The NAPIS file was sent encrypted and did not include client names. The NAPIS file included 1,029 HDM, 138 CM, and 30 CCS clients.

VAAA continues to operate as a call center and referral point for area seniors concerned about their drinking water. They've noticed this week that seniors who've had filters installed are beginning to request bottled water again.

AASA's State LTC Ombudsman has checked in with the local Ombudsman in Flint. Local Ombudsman reports Flint area nursing homes have been taking precautions using bottled water for cooking and drinking. The local Ombudsman remains concerned about Nursing Homes' long term need to replace old facility plumbing that may be leaching lead.

#### **State Police (MSP)**

Lt. Pummill, local EOC, has requested 3 additional box trucks for neighborhood delivery. Request has been sent to logistics, Request # SEOC - 1378446

Resource request received for 4 additional MSP personnel to assist with distribution on Wednesday 1/13/16. Request has been forwarded to Lt. Pummill at the Local EOC. Staff has been identified and the personnel list has been provided to Recovery.

Task assignment has been submitted to Logistics to determine how many 5 person distribution teams can be supported on Thursday and Friday. Support would need to include filters, replacement filters, water, test kits, pamphlets, and trucks to transport.

MSP is in the process of identifying available staff to support this effort with the plan to staff up to the level that can be supported by logistics.

A request has been submitted to SEOC Logistics, DTMB, for approximately 20 smart devices that are network enabled that we can install the GIS application onto so that they activity can be tracked real time. These devices do not need to be connected to the state network.

#### **Technology, Management and Budget (MDTMB)**

DTMB Mail Services provided three additional drivers and trucks to assist with door-to-door supplies, this is in addition to the four drivers and trucks already working in the city. Also picked up additional water test kits in Lansing and delivered to Flint this afternoon to ensure kits were available at the distribution sites.

DTMB Real Estate assisted in procuring 100,000 feet of warehouse space and writing the rental agreement. Procurement office acquired additional water filters and refill cartridges that will be delivered on Thursday to the warehouse for distribution.

Twelve trucks of water will be delivered tomorrow and water filters and replacement cartridges will be delivered on Thursday.

Working on resource request to acquire 20 tablets to send out with MSP personnel to help record supplies being delivered in the field.

STATE OF MICHIGAN  
EXECUTIVE OFFICE  
LANSING

RICK SNYDER  
GOVERNOR

BRIAN CALLEY  
LT. GOVERNOR

**EXECUTIVE ORDER  
No. 2016 – 02**

**ACTIVATION OF THE NATIONAL GUARD  
TO ASSIST IN RESPONDING TO THE EMERGENCY RELATING TO  
THE CITY OF FLINT'S WATER SYSTEM**

WHEREAS, Section 1 of Article V of the Michigan Constitution of 1963 vests the executive power of the State of Michigan in the Governor; and

WHEREAS, Under Section 12 of Article V of the Michigan Constitution of 1963 the Governor is the Commander-in-Chief of the state armed forces and may call them out to execute the laws; and

WHEREAS, Section 151 of the Michigan Military Act, MCL 32.551, authorizes the Governor to order any members of the organized militia to active state service in the aid of the civil authority in times of public danger, disaster, crisis, catastrophe, or other public emergency within the State; and

WHEREAS, municipal water in the City of Flint showed elevated lead levels after the City of Flint changed its water source from the Detroit water system to its own treatment plant drawing from the Flint River; and

WHEREAS, by Executive Proclamation issued on January 5, 2016, the Governor declared a State of Emergency in the City of Flint and Genesee County; and

WHEREAS, lead can be introduced to humans through water, and elevated lead levels can result in significant health impacts, particularly for children, pregnant women, and the elderly; and

WHEREAS, the State's first priority in addressing this emergency is to limit potential exposure to lead in drinking and cooking water by limiting potential exposure to lead in the City's water system; and

WHEREAS, other priorities include: (1) directly informing as many Flint residents as possible that filters, bottled water, information on lead, water testing kits, and other resources are available; and (2) directly providing resources to Flint residents and following up with those residents to ensure that they have access to safe water, are fully informed, and have their water supply tested. These tasks will require that personnel go door-to-door in large areas of the City of Flint; and

WHEREAS, due to the significant level of human and other resources required for these tasks, additional assistance is needed to supplement existing personnel and equipment; and

WHEREAS, by the Executive Proclamation of Emergency issued on January 5, 2016, the Governor directed that the Emergency Management and Homeland Security Division of the Department of State Police, coordinate and maximize all state efforts, and call upon all state departments and agencies to utilize available resources to assist the City of Flint and Genesee County pursuant to the Michigan Emergency Management Plan;

NOW, THEREFORE, in consequence of the above, I, Richard D. Snyder, Governor of the State of Michigan, pursuant to the Michigan Constitution of 1963, the Michigan Military Act, 1967 PA 150, MCL 32.501 et seq., and the Emergency Management Act, 1976 PA 390, MCL 30.401 et seq., order the following:

1. The Adjutant General of the Michigan National Guard is directed to order to active state service units and individuals of the Michigan National Guard that, in his discretion, he deems appropriate to meet general mission assignments as determined by the Director of the Department of State Police, or her designee.
2. The Director of the Department of State Police, or her designee, shall coordinate and maximize all state efforts, including such units and individuals of the Michigan National Guard that may be activated to state service to assist the City of Flint and Genesee County in accordance with the Michigan Emergency Management Plan.
3. The Michigan National Guard is activated until such time as determined by the Adjutant General, after consultation with the Director of Department of State Police, or her designee.

The Executive Order shall become effective upon filing.

Given under my hand and the Great Seal of the state of Michigan this 12th day of January, in the year of our Lord, Two Thousand Sixteen

**From:** Morris, David (MSP)  
**Sent:** Wednesday, January 13, 2016 10:37 AM  
**To:** Sible, Shawn (MSP)  
**Cc:** Sands, Thomas (MSP); Shaw, Jim (MSP)  
**Subject:** Flint Water Crisis - FSB Response

Good morning Shawn,

I met this morning with FSB to prepare a Budget to provide assistance to the City of Flint. Based on our discussion, FSB would be requesting the following:

**Budget per Pay Period:**

Lieutenant OT - \$16,760 (1 Lieutenant x 6 days per week x 12 OT hours per day)

Trooper OT - \$72,565 (5 Troopers x 6 days per week x 12 OT hours per day)

Mileage - \$2,275 (Mileage - 1 admin. vehicle driving 10 miles per day & 5 patrol vehicles driving 80 miles per day)

**Total - \$91,600**

We went with a per pay period Budget since we don't know if our commitment will be a few weeks, 3 months, or until the end of the fiscal year? This allows that decision to be made and then the Budget to be finalized.

Please let me know if you have any further questions.

Thanks,  
Dave

This is the message that was sent to each Bureau.

The way I see it, we would need 13 uniform troopers assigned on Thursday and Friday just for the MSP personnel.

I do not know the commitment of personnel you have from other areas requiring uniform troopers to be assigned to.

Please confirm the numbers and ensure the request is made to FSB.

Thank you

gmg

**Subject:** Flint Water Detail  
**Attachments:** Copy of Copy of Flint Water Detail (2).xlsx  
**Importance:** High

Attached is a list containing the names of those approved to participate in the Flint Water detail. In order to minimize travel time, location of the volunteers was considered.

Attire: Appropriate attire for the weather conditions. Jeans are allowable. MSP uniforms including fatigue uniforms are prohibited. Military Surplus attire or attire that could be mistaken as that of the National Guard shall not be worn.

All individuals assigned to work as the Water Response Team in Flint shall report to the Genesee County EOC by 9 am on Thursday and/or Friday.

**Location:**

Genesee County Administration Building

1101 Beach St

Flint, MI 48502

In the basement or level "G" if someone used the elevator

Parking is available at Trinity Church, on the corner of Beach and Eighth. It is two blocks southeast of the Admin Building.

Lunch will be served at the EOC, Genesee County Admin. Building.

Each enforcement member should bring their assigned radio.

## **Sands, Thomas (MSP)**

---

**From:** Gorski, Gary (MSP)  
**Sent:** Wednesday, January 13, 2016 6:36 PM  
**To:** Sands, Thomas (MSP)  
**Cc:** Kelenske, Chris (MSP)  
**Subject:** FW: Lt. Cremonte

Tom  
Requesting a temporary assignment of Lt. Cremonte to EMHSD to assist. See Below

gmg

---

**From:** Kelenske, Chris (MSP)  
**Sent:** Wednesday, January 13, 2016 5:05 PM  
**To:** Gorski, Gary (MSP)  
**Subject:** Lt. Cremonte

Sir

I would like to request Lt. Cremonte be made available to staff the operations chief position in the local EOC. This is being staffed by one of my personnel (Michelle Kuzera) who will need to transition out (only to get a couple days occasionally) so we would want her to shadow her for a couple days first. This mission would need to be available for some time if possible to avoid staff burnout. Lt. Cremonte has the experience as a District Coordinator, EOC operations at the local level, as well as the right command bearing I need in the local EOC. This would not be in the capacity as a FSB employee but EMHSD one.

Can you check with LTC Sands to see if this is possible and if Lt. Cremonte is okay with it?

Chris

Capt. Chris A. Kelenske

**Subject:** MSP Resource Request - Flint Water Response Teams

Capt. Kapp,

Per our discussion, the SEOC has requested MSP FSB coordinate and manage the Flint Water Response Teams for the City of Flint-Water Contamination / Shortage incident. The POC at the EOC is Ms. Michelle Kuzera, she will be able to assist with any questions or concerns. MSP FSB will be responsible for the following:

- Establish a Water Response Team Commander for all team operations.
- Coordinate and manage Water Response Team structure.
- Coordinate and manage Water Response Team resources.
- Coordinate walking routes with concentration in the most hazardous lead level areas.
- Coordinate logistics for Water Response Teams.
- Coordinate iPad distribution and tracking.
- Coordinate and integrate with state, county, and local personnel as well as volunteers assigned to work on Water Response Teams.
- Coordinate and manage team security with MSP and County personnel.
- Determine hours of operation based on assessment of area, hours of daylight, and any other safety information pertinent to operations.
- Coordinate with Sheriff's department resources.
- Staff each team with the appropriate number of MSP enlisted personnel for security purposes.
- Provide a daily report of all activities to include best practices and issues or concerns.
- Attend the 9:30 am and 4:30 pm SEOC briefings via conference call as well as any other conference calls necessary to complete the above mission.

In addition to the above Water Response Team objectives MSP FSB is still responsible for all previously assigned tasks and functions.

Please feel free to contact me if you have any questions regarding this assignment. Please forward the contact information of the commander you have identified for this mission as well as a schedule for staffing this position once it has been assigned and established.

Insp. Matt Bolger

F/Lt. Mike Johnson

Sir

I would like to request Lt. Cremonte be made available to staff the operations chief position in the local EOC. This is being staffed by one of my personnel (Michelle Kuzera) who will need to transition out (only to get a couple days occasionally) so we would want her to shadow her for a couple days first. This mission would need to be available for some time if possible to avoid staff burnout. Lt. Cremonte has the experience as a District Coordinator, EOC operations at the local level, as well as the right command bearing I need in the local EOC. This would not be in the capacity as a FSB employee but EMHSD one.

Can you check with LTC Sands to see if this is possible and if Lt. Cremonte is okay with it?

I discussed with Matt Bolger and Mike Johnson and we are on the same page. The only thing that all need to be aware of is I anticipate ramping up the teams significantly as logistics can support. We will likely need to add a layer between the MSP WRT Commander and field commanders – that would probably be an ARC lead, A State Agency lead, Other volunteer lead, and a County lead so the WRT commander has good span of control. I am thinking we could get to the point where we have 50+ teams (best case scenario).

The WRT commander can figure that out but I am good with this - MSP needs to coordinate all the teams sir.

**Subject:** SEOC Update 1/13/16 - Flint Water - Limited Distribution

**INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE**

### **Update 1/13/16 – 9<sup>th</sup> Day (8<sup>th</sup> Full Day) After Governor's Declaration of an Emergency**

**Mission focus for the day:**

- Receive, store and increase quantities of supplies
- Prepare/approve logistics plan and close lease on warehouse space
- Continue with door to door teams and finalize planning for second wave increase (+15 teams – total for 1/14/16 will be 20)
- Continue to work on Governor's Declaration of an Emergency

### **Attached Documents:**

- SitRep 8

### **Status on Governor's request letter to the President:**

- All support data from state Agencies and local jurisdictions collected as of 6:00 pm on 01-13-16
- Current timeline:

- First draft completed and ready for review by State Department Directors (including the Attorney General) by 11:00 am on 01-14-16
- State agency reviews due back by 1:00 pm on 01-14-16 for revision of the draft
- Revised draft to Captain Kelenske by 2:00 pm on 01-14-16 for review and forwarding to the Governor for final review
- Final draft (based on Governor's review) submitted to FEMA Region V Administrator by no later than cob 01-14-16 but hopefully sooner. FEMA is aware and ready to receive.

#### *Requests and potential response from FEMA/President*

- The letter will request all programs eligible under the Stafford Act including Public Assistance, Individual Assistance, Hazard Mitigation, FEMA's coordination of assistance from other Federal agencies and direct assistance from FEMA
- The letter will also request potential direct reimbursement from other Federal agencies such as EPA, CDC, HUD, DHHS and SBA
- This request is in coordination with the request for Non-Stafford Act federal assistance already requested and received by the State (technical assistance and administration, but no direct reimbursement of disaster costs)
- Direct Federal assistance from FEMA in the form of Individual Assistance to homeowners for household repairs (repair and/or replacement of water service lines and Other Needs Assistance to reimburse for water filters, bottled water, etc.) is a possibility
- Direct Federal assistance from FEMA in the form of Public Assistance is not as likely as it is mostly replacement of publicly owned water distribution lines (and not the direct result of damage from a natural cause)
- If Stafford Act assistance is denied (Public Assistance, Individual Assistance and Hazard Mitigation) FEMA could still provide coordination of assistance from other Federal agencies if the President declares a disaster (or emergency) for the State of Michigan

#### Key items for tomorrow to note are:

- The door to door teams will continue at 9 a.m. – 5 p.m. Thursday morning and continue through the weekend.
- We will continue to ramp up door to door operations with additional teams. Teams are focusing on the high lead level areas and additional data is being analyzed to focus mission areas.
- MNG will have a press event at the armory with incoming soldiers and MG Vadhais.

#### Items to Note

- Received information that Rev. Jesse Jackson will be in town 1/17/16 at 1:30 at the Heavenly Host Church of the Harvest of Dartmouth St, Flint.
- Managed and corrected misinformation on NG role.
- Senator Ananich is stopping by the SEOC tomorrow morning 0845. I am meeting with him and his Chief of Staff. Short visit as he has a 0930 at the Capitol.
- Working with Comcast so they can put teams in the field for distribution.
- Penske is going to give us 15-20 trucks over the weekend.
- Contact made with Two Men and a Truck for resources.
- Meeting set with Google where they will brief me and key staff potential tasks.
- Coordinated with Flint Mass Transportation Authority (MTA) to include Fire Station PODs on bus routes.
- Tomorrow I will have a projection as to the number of teams needed to get all citizens filters in their homes in 5 days / 3 days.
- We are standardizing team structure and supply deployment to increase efficiencies. Mission Ready Package (MRP) specifications will be sent out for other entities to assist with door to door. They will then be able to arrive as a MRP, get supplies, receive a mission location and deploy.
- 5 Water Response Teams were in the field again today. Below are the numbers from the 2 days of just the Water Response Teams (there are paper copies with data still to be entered from the PODs). I was just briefed by the ARC logistics planner and there are efficiencies we can put in place to increase homes touched per day. The next version

of the app will provide more granular details. Additional 30 tablets were configured by DTMB today for field implementation to include use in the PODs.

	Total	1/12/2016	1/13/2016
Occupied Homes	533	242	291
Vacant Homes	238	152	86
<b>Total Homes</b>	<b>771</b>	<b>394</b>	<b>377</b>
<b>Resources</b>			
Door Hangars	473	217	256
Water	265	117	148
Filters	235	112	123
Pitchers	9	3	6
Water test kits	92	48	44
Replacement Filter	93		93
<b>Total Resources Dispersed</b>	<b>1167</b>		
Future sample test site	62	28	34

- We show 17,276 residences with filters (this does not include data entry to be completed from POD or other locations).
  - We have 35,378 service hookups but with apartments, multi residence dwellings, etc we would be around 45,000.
- Logistics Support
  - The American Red Cross Logistics Planner provided me a brief and I approved the plan forward. The current plan includes:
    - Mission – A filter in every home ASAP.
    - 4 Distribution Methods
      - PODs (5)
      - Water Response Teams (20 effective tomorrow and this will increase)
      - Local EOC “Hot Shots” (these are calls for functional needs, unable to get to a POD location due to ??, etc). Personnel dispatched with supplies.
      - Local EOC support for other local requests (Faith based for distribution, etc.)
    - Three warehouse locations at this time
    - How to better leverage ARC resources
- Supplies – Daily Numbers
  - Replacement Cartridges - 30,700 delivered.
  - Water (cases) - 19,152 cases delivered
- Budget projection completed and will be submitted to SBO for review.
- Notes from Water Response Team Command (MSP)
  - Very good synergy between Flint Post troopers and Genesee County Sheriff command and deputies in effective and efficient deployments for distribution efforts.
  - Great attitude and efforts by uniforms and volunteers to make important contributions to the City of Flint on water response team deployments.
  - Clear direction and coordination in the field of supply teams by lieutenants and troopers. No confusion. Clearly defined roles.

All personnel continue to be fully committed to fixing this as quickly as possible.

Chris

---

## Update 1/12/16 – 8<sup>th</sup> Day (7<sup>th</sup> Full Day) After Governor's Declaration of an Emergency

I apologize in advance for the length of this report. With the supply issues we had the last couple of days I wanted to share our inventory plus what we anticipate to ensure we do not have supply issues.

### Mission focus for the day:

- Receive, store and increase quantities of supplies
- Fine-tune logistics
- Increase and deploy door to door teams (4 state teams added to teams from the Sheriff's Department)
- Increase collaboration and messaging of collaboration with local agencies (specifically the Sheriff's Department)

### Attached Documents:

- SitRep 7
- Executive Order Activating the National Guard

### Key items for tomorrow to note are:

- The Governor signed an Executive Order activating the National Guard. Mission will be to relieve ARC volunteers at the PODs (Fire Stations) which will free up the ARC volunteers for door to door activities.
  - I have briefed the ARC Disaster Officer on this plan.
- The Governor requested, through FEMA Region V, support from the Federal Emergency Management Agency (FEMA) to bring together and identify other federal agencies that may have programs and funding that could be dedicated to assisting Flint as part of an interagency recovery plan. One of the existing LNOs has been identified as the POC for this. He will be a great liaison for the FWIACC.
- The door to door teams will continue at 0830 Wednesday morning and continue through the weekend and ramp up door to door operations with additional teams. Teams are focusing on the high lead level areas.
- We will look at all commodities and see where we are and where we need to be while working with the ARC logistics specialist.

### Items to Note

- PSA video sent out to Flint citizens on resources available.
- Water
  - Today's numbers - 7,824 cases of water arrived today, 1/12/16 (109 pallets)
  - Ordered:
    - 19,152 cases of water are going to arrive Wednesday, 1/13/16 (266 pallets)
      - 1/3 is going to GCCARD and the rest is going to the new warehouse
    - 12,768 cases to arrive daily beginning Thursday through Saturday (177 pallets a day)
- Filters
  - Today's numbers
    - Ordered on 1/11/16 and delivered 1/12/16 direct to GCCARD
      - 2,000 – Brita filter faucet mounts
    - Filter Replacements
      - 2,400 – Brita filter replacements (single pack)
      - 8,000 – Brita filter replacements (two pack)
  - Ordered on 1/12/16 to arrive Wednesday
    - Faucet Mounts – To be delivered direct to GCCARD on 1/13/16 (Wednesday)
      - 10,000 – PUR Vertical faucet mount

- 2,500 – PUR Horizontal mount
  - Replacement Filters – To be delivered direct to GCCARD on 1/13/16 (Wednesday)
    - 10,000 – PUR replacement filters (3 pack)
    - 10,000 – PUR replacement filters (single pack)
  - PUR Combination Pack – to be delivered to GCCARD on 1/13/16 (Wednesday)
    - 10,700 – PUR combo packs
- To arrive Thursday
  - Zero Water Pitcher (8 Cup) – Delivering direct to GCCARD on 1/14/16 (Thursday)
    - 1,300 – Zero Water pitchers
  - Faucet Mounts – Delivering direct to GCCARD on 1/14/16 (Thursday)
    - 11,000 – PUR vertical faucet mount
    - 1,500 – PUR Horizontal faucet mount
    - 5,000 – Brita faucet mount
    - 10,000 – Brita adv faucet mount white
    - 12,000 – Brita adv faucet mount chrome
  - Replacement Filters – Delivering direct to GCCARD on 1/14/16 (Thursday)
    - 117,600 – PUR replacement filter
- Test Kits
  - 6601 unassembled kits arrived at GCCARD today, 1/12/16.
  - 500 have been assembled and are ready for distribution
  - 1000 additional unassembled kits have been ordered to be delivered at GCCARD (no ETA yet)
  - 10,142 unassembled kits to arrive at GCCARD early next week
- Second warehouse – Located in Flint
  - 100,000 square feet of secure warehouse obtained.
  - Accepting commodities beginning Wednesday, January 13
- Logistics Support
  - The American Red Cross Logistics Planner arrived from DC today as requested. I outlined what her mission was and how I saw the progression forward. This logistics planner will assist in streamlining the inventory and distribution process now and into the future.
- Door to Door Numbers
  - Today the app implementation for the field went extremely well. There were a few issues that were quickly addressed. One related to how form fields should be filled out. Another was getting styluses for teams so that they don't have to remove their gloves in the cold. All very simple to fixes.
  - We are working on version 2.0 so this can be used at the PODs
  - We should be able to greatly optimize distribution in the near future as we mapped the active water subscribers from Flint's DPW and are adding them to the field team members apps. Of the ~56,000 possible addresses, this reduces the number of possible homes to visit down to ~29,000.
  - Notes from the field commander:
    - "Today we started out the day using two groups that consisted of approximately 10 people in each group. We eventually combine groups with Genesee County Sheriff's group and they brought two more groups with approx. 10 people (Local UAW) in each group. This made us a lot more efficient and we were able to set up a game plan. Tomorrow I feel we will be more efficient and we will have a better plan in place to get the maximum output out of our resources."
  - In the end, there were 394 total home visits with the following breakdowns:
    - 217 Door Hangers
    - 152 Vacant Homes
    - 117 Water Distributions

- 112 Filters
  - 3 Pitchers
  - 48 Water Test Kits
- 211
  - CALL VOLUME:
    - 185 calls for water-related issues had been received as of 4:45 pm.
- Logistics made contact with Comcast and will be supplying them with filters and replacement cartridges for their deliveries in their work trucks as they make services calls. They will follow our procedures for reporting (our checklist).

Chris

---

### Update 1/11/16

The focus today was the media event and getting the supplies and logistics on track. Most of the activity today was working on logistics for the water and other supplies.

### Attached Documents:

- SitRep 6

### Key items for tomorrow to note are:

- The door to door teams will start at 0830 Tuesday morning. It is reported that troopers are going to the door but DHHS employees are the lead with a troop car nearby.
  - State and local GIS created an App today for the teams to use tomorrow but I see potential use at distribution sites.
  - The App data will be used for our maps as we survey the public/distribute supplies and we will be getting real time metrics through the site from the field send back to the SEOC. We are using Android tablets tomorrow but in the future can use any mobile device for this.

### Items to Note

- It was reported that only one POD (Station 5) was out of water longer than 30-45 minutes. This site was ~2 hours without water and part of that was the truck went to the wrong station. Trucks were sent as soon as the local EOC was notified.
- We also did not receive a DHHS shipment that was to come in which caused some filter delivery issues.
- Supplies are limited at this time; however, we are getting our shipments starting at 0630 tomorrow.
- We have Home Depot giving us 12,768 cases (this was a late development so the SitRep indicates half the amount) of water every day starting tomorrow. We are still working with other distributors too.
- ARC is flying in a logistics planner tomorrow. Three additional staff will be with her to shadow and help. We are turning warehouse logistics over to ARC logistics. We are moving tomorrow to a process that has a distribution center (GCCARD) and a warehouse that is 100,000 square that will maintain mass quantities. Staff has continually been placing orders for supplies to ensure we get a head of this. The intent is to keep the warehouse full so we do not have these continual issues of supplies.
- Began mapping lead service lines (anticipate having draft of lead service lines Friday).
- Coordinated with local IT managers overseeing filter tracking system to streamline data collection.

### Local Emergency Operations Center

- Working to coordinate resources at the local level to maintain adequate supplies at all PODs.
- Demand has exceeded supplies and supplies are moving rapidly from PODs today. Working to make sure POD managers notify us when they start running low.
- Working to establish a warehouse for local resource storage.

- Established trigger points for resources at PODs and hourly inventory reporting from the PODs.
- Discussed potential long term water sources between local EOC and SEOC.
- Established planning cycle/meeting scheduled for 1/12/16.
- Local EOC EMHSD staff with Natasha Henderson to request deployment of City representative at local EOC.

Chris

## Update 1/10/16

### Attached Documents:

- SitRep 5
- Door card (English version but Spanish version will be ready for Tuesday)

I have a local EOC section listed below but state personnel are heavily engage in management of both locations. We occasionally hit some road bumps with this event but all personnel are working well together to accomplish our goals (especially state agency personnel).

I have had good discussion with FEMA LNOs. Two statements have been developed from our discussions that hopefully helps put this in more context but if it is more confusing I apologize:

1. In the immediate response, the State, in collaboration and coordination with city of Flint and county of Genesee are working to get water, water filters, and testing kits to the affected population. In conjunction, the state will coordinate with federal agencies to ascertain what resources can come to bear to help mitigate the issue.
2. If asked about a federal declaration from FEMA, we need to articulate the definition of major and emergency declaration and state or note to ourselves that it appears to not qualify; however, there may exist opportunities to leverage federal assistance from some agencies (i.e....EPA) under their own authority to help address this issue.
  - We need to really manage expectations on the potential for a federal declaration...not that we will not go after one but it will be difficult to get.
  - A major disaster is defined in the Stafford Act as any ***"nature catastrophe (including hurricane, tornado, storm, high water, winddriven water, tidal wave, tsunami, earthquake, volcanic eruption, landslide, mudslide, snowstorm, or drought) or, regardless of cause any fire, flood, or explosion.....causes damage of sufficient severity and magnitude, to warrant major disaster assistance.....to supplement the efforts and available resources of States, and local government....."***
  - An emergency declaration is ***"is any occasion or instance for which, in determination .....assistance is needed to supplement State and local efforts and capabilities to save lives and protect property and public health and safety or to lessen or avert the threat of a catastrophe....."***
    - This is limited to immediate and short-term assistance (I hate to put times on this but short-term is like 3 weeks), essential to save lives, protect public health and safety and property.
  - Severity of the situation is ***"A finding that the situation is of such severity and magnitude that effective response is beyond the capability the state and affected local governments, and that the state requires supplementary federal emergency assistance to save and to protect property...."***
  - Nature of assistance for Emergency Declaration is for ***"Debris removal, emergency protective measures, direct federal assistance...."***
    - Debris Removal = ***self-explanatory and we do not have this***
    - Emergency Protective measures = ***water, commodities, transportation (remember ... to supplement what the locals and state are already doing if we need more)***

- Direct federal assistance= *what specific type of work is requested, and what are the reasons why the state/local government cannot perform or contract for performance. Essentially what is the need that state/local govt cannot provide. I can see this being something we need but we may be able to get this outside a federal declaration under the federal agencies own authority to help address this issue.*

Back to the update...

Key items for tomorrow to note are:

- Training is occurring for the door to door teams scheduled for Tuesday morning.
- Deploying an additional MSP District Coordinator to the local EOC for command and control support.
- Deploying two DTMB trucks and two drivers for sustained logistical support for the week.
- Media event with the Governor in Flint.
- New Incident Action Plan starts (1/11 0800 -1/13 0800 operational period). Our objectives are as follows:
  1. Ensure all households within impacted community have required resources.
  2. Ensure accurate tracking and accounting of all commodities.
  3. Improve and maintain public information strategy.
  4. Develop a long term public health and services plan.
  5. Ensure adequate staffing to support operational requirements.
  6. Identify possible assistance programs.
  7. Develop an approved GIS strategy.
  8. Maintain coordination between partner agencies and organizations.
  9. Enhance situational awareness and common operating picture of all activities.
  10. Develop a comprehensive Recovery Plan.

Items to Note

- All 9 churches had filter systems/replacement filters, information sheets, and water test kits delivered as requested by each pastor/reverend on Sunday. We did not think we could get them water due to the limited time but we did end up getting water to all 9 churches with the other items.
- Fire station resource locations stayed open from 9a to 9p and will continue with those hours until further notice (Staffing is in place until Saturday). ARC is staffing these locations.
- The media event was held at Fire Station No. 1 and report back is that it went well and the spirit of collaboration between local, state, non-governmental partners is strong was relayed.
- The four door to door teams will have the hours of 8:30 a.m. to 5 p.m.
  - Each will have logistics support from DTMB, security from MSP, and contact personnel from DHHS.
  - The door card is attached that will be left if no one is home.
- Worked to identify a storage location within the City of Flint for water and supplies. G-CARD is identified as temporary location but we are moving toward a state run warehouse operation (looking at private sector partners to assist, especially with the warehouse management side).
  - GCCard is large enough, centrally located and comes staffed. GCCard has 75,000 sq ft with warehouse managers to assist with tracking resources coming in and out.
- GIS will provide us daily updates of how much was distributed each day but note we have a delay in data entry from delivery to entry in the GIS system. Over the weekend there was a problem locally with staffing to get this completed. A solution is in place and will be implemented so we get timely data. Distributed to date (as of 1/8/16).
  - 12,386 filters
  - 1,985 replacement filters
  - 354 Pitchers
  - 2500 Lead Testing Kits
- Establishing and tracking of resources is a priority. Staffing has been assigned to get a good handle on these to ensure distribution sites maintain an appropriate level of inventory. I have requested trigger points get put in place so we do not get below certain levels in the main warehouse location.

- Contacts with some large water distributors have been made and their and our logistics chiefs will connect first thing this week.
- We have ordered an additional (expedited delivery with ETAs tomorrow)
  - 40,000 Brita Filters
  - 40,000 Brita Replacement Filters
  - 1000 Zero 8-Cup Pitchers
  - 1000 Zero 8-Cup Pitchers
  - 2000 PUR Replacement Filters
  - 93 Pallets of water (about 6700 cases)
- GIS continues to produce multiple maps for use.
- JIC Items
  - Requested PSA on the radio. Media has been approved and working with MAB.
  - Requested JIC to contact Comcast and Dish Network for availability for continuous running of filter install/replacement and test kit video.
  - A news release will likely going out tomorrow regarding canvassing in neighborhoods. Continued social media messaging.
    - Tuesday – embed state PIO with one of the canvassing teams to liaison with media.
    - JIC moving tomorrow to Flint.

### Local Emergency Operations Center

I am providing you some information on some issues we ran into at the PODs. This has been addressed with additional state resources and processes put in place so we do not run out of resources. Public concerns/complaints have not been brought to my attention at this time. Staff is working very hard to ensure we do not run out of supplies at the PODs and they understand the consequences. No one in the Local EOC or State EOC is happy the following occurred and I felt you should know in case it is brought up. Again, I believe we have fixed this and I take full responsibility for any supplies not being on site.

### Fire Station Inventory Levels:

#### Station 1:

- Only time without supplies - 15 minutes without water while the truck was unloaded.

#### Station 3:

- Ran out of replacement filters around 7:00, replacement filters delivered around 7:30. Had to pick up replacement filters from Home Depot and deliver.

#### Station 5:

- Ran out of water around 5:00, water was delivered around 6:30. We needed to find additional trucks because DTMB drivers were over hours. The ARC stepped up and found a truck to go and pick up a pallet of water and deliver.
- Somewhere between 4:00-6:00 they ran out of lead test kits. No way to restock these because City facilities were closed and could not reach anyone.

#### Station 6:

- Around 5:00 ran out of water, filters, and replacement kits. Replacement kits were delivered around 7:30. Additional water and filters were delivered after 9:00 due to the DTMB drivers heading back to Lansing. Food Bank was called and had to get drivers in to operate trucks, pick up water from the School District, load and deliver to all sites. Delays occurred with weather conditions and needing to use last minute sheriff EOC staff to load due to issues with City workers. City workers were scheduled to help and left around 7:00 without helping.
- 2 pallets of water were dropped off in the afternoon and within 1 hour were gone. This was much faster than we expected. On 1/9 they didn't go through 2 pallets of water at any station for the hours 9:00-4:00.
- We received news that a reverse 9-1-1 call notified residents of water which caused an unanticipated amount of people obtaining water. There was also a report of 1 person walking out with 2 cases of water and trying to sell in the parking lot.

#### Station 8:

- Around 7:00 ran out of filters and lead tests. Filters were delivered around 8:00 from the food bank trucks.
- Hourly reports were requested in the morning from volunteers but this information was not received as to the status throughout the day. Early inventory of supplies took between 1 hour-1.5 hours to receive in the EOC. We were not advised of low counts, just zero numbers.
- Reports received that the last couple of hours were slow.
- Residents were advised of the other sites and the opportunity to obtain supplies.

#### Restocking Plan

- United Way set up meeting with Food Bank to discuss.
- Had EOC meeting on this topic to discuss options.

#### Churches:

- All 9 churches received waters, filters, and informational bulletins.
- Lt Roach received positive feedback from 3 of the pastors.
- No complaints were received.

#### Signage:

- Provided information to SEOC on signage requirements at the fire stations.

#### Storage:

- Researched storage spaces; established temporary site at GCCARD.

#### Personnel:

- Lack of local EOC leadership (seems somewhat checked out) with IC and Deputy IC (doing an okay job).
- Captain TaFoya (Genesee County) helped tremendously today with all the plans outlined above and attended the press conference.
- Tina Martinez at the Food Bank and Matt Purcell at GCCARD were extremely helpful in getting last minute operations set up.

Chris

---

#### Update 1/9/16

SitRep 4 attached for more in depth information. The below only contains some items worked on today and while the format in the attached SitRep is not perfect (it is created automatically by MICIMS) it does contain a lot more information you may want to read. I also attached one of our maps. It is our filter distribution map. All filters handed out by anyone working with us feeds into this now. We are continuing to refine these and at this time there is a delay in the upload of address data but we are working on it. We have a ways to go to get filters in every home but this will help direct us to those who need still them. We also are working on identifying abandoned homes.

#### Key items for tomorrow to note are:

- 9 churches will have ARC volunteers and filters for distribution. Some may also get water.
- 5 fire stations are a distribution point for water, filter systems/replacement filters, and water test kits. While only open today until 4 p.m., tomorrow and until further notice they are open from 9a to 9p.
- Media event will take place on the above tomorrow.

#### Items to Note

- 211 has some issues with call load but it is being worked on. 2-1-1 Director contacted MDHHS PIO to discuss/resolve caller wait times and messaging. We anticipate an increase in activity tomorrow in 211 calls so we requested and received an increase to staff 211.

- We are shifting tasks the SEOC took on that are handled more effectively and efficiently at the local EOC. We have established command and control in their EOC. We are running things there but that is not being made public. We are doing this in partnership but we are clearly handling the operation with state personnel oversight.
- A 3rd FEMA LNO arrived today upon my request. This has nothing to do with a Presidential request for a declaration but support for some other items I want worked on for long term recovery.
- We continue morning calls with the local EOC leadership and local emergency manager on what our goals for the day are as well as any issues/concerns.
- Five 5 fire stations have received water, water filters, replacement cartridges, and water testing kits with American Red Cross personnel at each location to assist with delivery of resources and collection of addresses receiving them. These locations will be open from 9a – 9p daily until determined they are no longer needed. Those picking up water testing kits will be advised that they can return the test kits to the fire departments (where they will be picked up and taken to the Flint City Hall), the Flint Water Treatment Plant, or they can take them directly to the Flint City Hall. For those unable to return the kits, 211 can make arrangements for pick up the kits. We understand response to these sites has been positive thus far. The Genesee County EOC will be monitoring these supplies and request replacement of products as needed.
  - A call is going out tomorrow morning to advise this information ... I do not believe it was every resident but Tori Sachs has that info if needed.
- I approved a press release today to advise the public that all levels are working together to ensure delivery of filters, test kits and water; noting that all of these items were delivered to the 5 Flint fire department stations. It was stressed that the public should be aware that the local and state agencies have been working cooperatively to assist the residents - and will continue to do so. This was done to hopefully end or at least minimize the “who can get water and filters out first” when all of this has been connected with the state and coordinated since the state declaration was put in place.
- The arrangement of 2,000 filters, to be taken to 9 local churches on Sunday, January 10, is ongoing. The filters have been secured; they are now in the possession of the DTMB. DTMB will return to Flint on Sunday morning to deliver these to necessary locations. The American Red Cross will be on site at each church to assist with distribution and recording addresses (for GIS). The local EOC is working to ensure these arrangements are complete and run smoothly. Future engagement with the faith based community will occur to assist with additional distribution.
- A Flint City liaison has not been in the EOC but starting Monday this will be in place to keep the Flint Mayor apprised of activities being conducted in the city. She also has been advised she can call me at any time if she needs anything.
- Training has been confirmed for the door-to-door operation scheduled to start Tuesday. Four teams are initially scheduled with more to potentially be put in place. These are the teams that will be handing out water, filter systems/replacement filters, test kits and information. If nobody is home, a door hanger with information is being left. DHHS personnel and one MSP trooper will be on these teams.
  - Training will take place at 1 p.m. on Monday afternoon at the DHHS office on Clio Road. DEQ and DHHS will provide the training.
    - Training is so those going door to door can explain what the filters do, how to install them, if they need install help to call 211 who has a list of people who can install the filters, and answer any other questions versus just handing them the filter.
  - Hours of operation will be Tuesday through Friday from 8:30 a.m. to 5 p.m. AT THIS TIME. I am reevaluating these times to increase contact with someone versus just leaving information.
  - Logistics are being finalized for the teams and trucks to handle stocking and re-stocking of materials during daily operations.
  - GIS maps will provide guidance on deployment locations for these teams and other teams in the field.
- A pilot project at Freeman Elementary with LARA and DEQ has been initiated to see if replacing certain plumbing components in faucets at the school will drop the lead level.

#### MSP/EMHSD GIS Section Updates

Accomplished Today (January 9):

- Produced a Point of Distribution Map. Contains four types of distribution points; Churches, Water Resource Sites, Filter Distribution Sites, Water Distribution Sites.
- Produced Filter Distribution Map.
- Developed process of how best to handle geocoding the household filter locations, worked on processing the data.
- Worked on map of franchise customers outside of Flint City.
- Produced maps for MDARD on food establishments and Local Health Departments.
- Produced map of Church Filter Distribution map for DTMB.

#### Local Emergency Operations Center

- The state has deployed 10 personnel to the Genesee County EOC to ensure we have command and control at the local level. On 1/8/15 The state personnel took over the incident management functions of the Genesee County EOC (not public). The arrival of additional staff allowed the local Emergency Management Coordinator to delegate tasks which relieved a tremendous amount of stress.
- Additional Sheriff staff (2-positions) will be shadowing the state incident management team to allow for transition to the county personnel later in the incident when we are comfortable with them handling things. Not sure when that will be but we have secured a direct bill hotel for staff to stay in Flint as long as needed.
- With the additional staff, the Local EOC will be able to take over functions previously handled by the SEOC including:
  - Logistical activities to support church operations.
  - Logistical activities to support fire stations operations.
  - Coordinate Donations Management activities and draft donations management plan
  - Coordinate Volunteer Management activities
  - Identify local storage/staging facilities
  - Overall inventory tracking
  - Tracking of Points of Distribution (PODs)

Chris

---

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR’S OFFICE

#### Update 1/8/16

SitRep 3 attached.

There is a significant difference in what is being presented by the media and what the local EOC is relaying to us at the SEOC. It is also being driven by the media that this is a state versus local response (who is providing more and quicker versus a coordinated effort between all). That said, I advised SEOC personnel that perception is reality in some eyes and we are to move forward to address items that typically are addressed at the local level. I have ordered the SEOC open all weekend due to make the quick wins that we need and continue to get the coordination and collaboration in place that is needed (but make gains on our own as needed).

#### Items to Note

- Two FEMA LNO’s arrived today and are in the SEOC. A third LNO was requested from FEMA due to some unique issues with this event to include having to deploy more of my staff to the local EOC to get more structure and/or find out why there is an issue with the message the media is showing versus what we are hearing from the local EOC.
- We finally received from the local EOC 8 locations (we were told originally early in the week they had 80-90) that are their Points of Distribution (PODs) for water in conjunction with the local food bank. The PODs are not getting water from the food bank even though the food bank has water. We are going to resolve this issue as we can help deliver

the water to the PODs but we were not aware of this. 8 PODs is not enough locations if water needs to be distributed to citizens. Speaking with the ARC Regional Administrator later today, I believe ARC got water to those locations but I need to confirm that in the morning. The food bank reported they had 376 cases of water.

- We have learned that a low number of residents are testing their water when DEQ can test 400 kits per day. This is an added focus that we believe can be increased through dissemination of test kits with the filters and any water.
- I found out the Mayor was okay with using fire stations as distribution points for water, filters, and water test kits. While this did not come to me through the local EOC, I advised we needed to get water, filters, and test kits to these locations for tomorrow. The distribution at 5 Flint Fire Department stations has been coordinated to be in place by 10:00 am tomorrow morning.
  - DTMB has provided a truck and driver to pick up water test kits from DEQ lab in Lansing, water from the Food Bank and water filters and replacement cartridges from GCARD in Genesee County.
  - 10 American Red Cross (ARC) volunteers will meet the DTMB truck at GCARD at 9:00 am to be provided information about filters. Instructions will be included in water test kits. They will then report to the 5 fire stations to assist in distribution of resources to the public and track addresses of same.
  - Residents will be told where they can drop off their water test kits, or that they can return them to the fire station the next day. Coordination will occur on pick up of water test kits daily to be taken to the Flint City Hall, who will then delivery them to the DEQ testing lab.
- STILL FINALIZING - We have made available 2,000 Filters for distribution on Sunday as parishioners leave mass/services. This will be 200 filters for 10 churches in Flint. While this is a small number of churches, we do not want to waste an opportunity to hand out filters and this seems like a quick way to so. The filters will be put on the DTMB truck on Saturday for delivery to TBD locations for distribution. Logistics remain undetermined as I am still waiting on a list of the churches, pastors/reverends/hours or services/etc. The DTMB truck will be returning to Lansing approximately 11:00 a.m. so we need to finalize this quickly on Saturday. We may utilize ARC to assist with this.
- The Recovery branch is working with the JIC to develop a door hanger card. DTMB is working on the printing portion of the hanger card. Recovery will also be finalizing logistics over the weekend for neighborhood canvassing to occur early next week. 40 volunteers have signed up to attend training on Monday afternoon to complete this task. The mission will be to deliver water sample kits along with water filters/replacement cartridges, and water.
- It appears that 211 has become overloaded. DHHS is researching ways to increase capacity for calls.
- A Volunteer Management Coordinator is in the Genesee County EOC as of today.
- A Donations Management Coordinator has been requested and she will be in the Genesee County EOC Saturday.
- DHHS had a conference call with GM today; they indicated they can provide cash, and supplies, but primarily manpower. No commitments were made at this point. We inquired as to availability of warehouse space and trucks. It was left as GM being a major resource pool that we can tap into as we determine missions. Further conversations will occur, but primarily GM just wanted us to know they are there if needed.
- An additional EMHSD staff member was sent to the Genesee County EOC to act as Operations Section Chief and obtain awareness of the situation there.
- GIS staff met with various parts of Genesee County/Flint personnel to try to get a handle on data available.
- GIS continues to work with local GIS personnel with three GIS staff going to Flint today to work with them. GIS staff is working with U of M on how best to proceed with digitizing water lines for long term recovery.

Chris

---

UPDATE 1/7/16

A summary of some of today's SEOC activities is provided below. Attached is the following:

- Today's SitRep which contains more information than below.
- The resource request/task assignment sheet for your situational awareness. This is how locals request resources as well as how we track resources and any assignments and/or tasks that are to be completed.
- JIC Task Tracking – for your situational awareness on how we are tracking requests and assignments. Once someone is assigned a task or resource request it allows them to document what work has been or will be done as shown at the bottom of the document.

Items to note:

- I received a document this evening from Genesee County which appears to be damage assessment information. Analysis of this will occur tomorrow. It appears to be infrastructure and costs to fix it and no other impacts.
- I spoke with Jamie Curtis, Genesee County Commissioner, this evening. A very good relationship is in place with him, especially with our District Coordinator (DC). I also have our DC working on developing stronger relationships with the Mayor/Mayor's office.
- GIS staff continue to obtain data and work with County and City personnel to get a picture of where resources have been provided, need to be provided, as well as infrastructure locations (pipes) that could be affected.
- Personnel and agencies have been tasked with developing a plan to get people in the community to deliver information, hand out filters, etc. This would target those areas we are showing minimal or no filter distribution based on the data we are collecting. The plan is to get them in the field by Tuesday and the plan will be provided to me tomorrow.
- Filters can be obtained at the following locations:
  - Michigan Department of Health and Human Services office, 125 E. Union St., Flint, MI 48502
  - Michigan Department of Health and Human Services office, 4809 Clio Road, Flint, MI 48504
  - Genesee County Community Action Resource Department office, 2727 Lippincott, Flint, MI 48507
  - Genesee County Community Action Resource Department office, 601 N. Saginaw, Flint, MI 48502
- Conducted briefing with local EOC and county executive.
- Conducted briefing with state agencies (daily updates).
- Began work to schedule legislative/congressional conference calls. Tentatively scheduled for 2 p.m. Friday.
- JIC continued to develop messaging.
- Provided input to local EOC regarding best methods of identifying health and non-structural impacts for damage assessment process.
- Deployed two EMHSD/SEOC liaisons to assist the local EOC.
- Published the Incident Action Plan and continued assignment of objectives/tasks.
- FEMA Liaison Officers just arrived in Lansing to assist command and general staff.
- I spoke with Harvey a few times and he should have talking points later tonight or tomorrow a.m. for his use and also for others who may speak to media outside of state government who may benefit from our messaging.
- We held a media round table at 1 P.M. at the SEOC. Dr. Wells and I spoke and answered questions to numerous media outlets.
- Local agencies and NGOs continue to provide water and filters to citizens.

- The website, [www.michigan.gov/flintwater](http://www.michigan.gov/flintwater), was update with information and links to assistance to include 211. Additional recommendations were provided to include information on the testing water in homes.

#### EMHSD GIS:

##### Accomplished Today:

- Reproduced Socio-Economic Status Map
- Reproduced Predicted Affected Populations Map
- Cleansed old data and reports for water filter distributions
- Created draft map of water filter distributions (Refinement needed before releasing final product)
- Scheduled on-site visit with Flint GIS Department and Genesee County GIS Department
- Formatted databases to host content
- Researched service line database creation and scheduled meeting with U of M Flint to discuss timelines and resource needs
- Generated water infrastructure map (does not include building service lines)

##### Tasks for Tomorrow:

- Meet with Flint City GIS
- Meet with Genesee County GIS
- Meet with U of M Flint GIS
- Finalize water filter distributions map
- Finalize plan for data distribution methods

Chris

---

#### UPDATE 1/6/16

A summary of today's SEOC activities is provided below. I tried to distill this as best I could but there has been a lot of activity and discussion to get an accurate assessment of the situation. Attached is the final draft of objectives and tactics for the operational period and agency situation report (SitRep) which has more SEOC agency information. I have implemented weekly operational periods.

Advise if you want anyone else copied or off this distribution.

#### Daily Update

- Set goals for SEOC and identified response/recovery emphasis
- Requested FEMA liaison officers (LNO) from FEMA Region V. Two LNOs will be on site by ~3 p.m. 1/7/16. Both are known contacts to me and some staff and one has worked extensively with me during the SE MI flooding in a command and control position. These personnel have been specifically tasked with this mission. **THEY ARE NOT HERE TO ASSIST WITH A PRESIDENTIAL DECLARATION REQUEST BUT TO ASSIST ME.**
- PIOs from multiple agencies were here and established the Joint Information Center (JIC). News released pushed out on this. I am very happy with the PIO work and movement toward *coordinated messaging*.
- Held briefing for State Agency Emergency Management Coordinators, which included presentations from DEQ and DHHS subject matter experts to ensure situational awareness and to develop a common operating picture.
  - I opened the briefing by identifying our initial goals, items to think about while subject matter experts were briefing us, and how we are to move forward, find quick wins, and regain trust.
  - MDHHS – Elevated Blood Lead Levels
    - Dr. Elizabeth Wells gave an in depth summary of lead poisoning and what has occurred in terms of health monitoring throughout the Flint crisis.
  - MDEQ – Water Testing Protocols

- Mr. George Krisztian of MDEQ gave an in depth summary of the testing protocols and summary results that as they have developed throughout the emerging crisis.
- Developed Incident objectives, strategy and tactics (see attached)
- Identified SEOC and state agency staff positions
- Assigned work tasks for SEOC operation period from 0800 January 6, 2016 to 1700 January 8, 2016
- Reviewed planned actions, prepared final draft Incident Action Plan
- Made contact with the Genesee County Emergency Manager first thing in the morning and held a conference call mid-day to discuss roles. Daily 0830 command conference calls with local EOC command staff starts tomorrow. Tomorrows call will include the County Commissioner and the City Administrator (both invited). Topics include the incident action plan objectives and establishing better local coordination, command and control to facilitate integration with the SEOC. The local EOC is not functioning as it needs to with personnel and local coordination and we are working on that issue.
- I will be in Flint tomorrow for a 2 p.m. media round table with local officials that was set up by the JIC.
- The attached initial objectives will be updated at least every operational period and as needed. I listed the objectives below but the tactics to accomplish them is in the attached if you want further information.
  1. Activate the State Recovery Task Force (SRTF).
  2. Establish and maintain coordination between the City of Flint, Genesee County, state and federal agencies, and appropriate medical experts.
  3. Obtain and maintain situational awareness and common operating picture of all activities.
  4. Establish SEOC operational period and hours of operations.
  5. Investigate and identify all available programs for assistance with direct or related impacts, including the federal Lead Pipe Replacement Program.
  6. Develop a comprehensive GIS strategy.
  7. Coordinate response and recovery activities with MIVOAD and identify potential mission areas.
  8. Establish and coordinate routine communication between SMEs and coordinate technical assistance among state agencies and to local agencies.
  9. Provide technical assistance to the local Damage Assessment process.
  10. Establish a Joint Information Center (JIC) and develop a public information strategy.
  11. Monitor MI CIMS for resource requests and address as appropriate.
  12. Establish and disseminate cost center information for the incident.
- Additional tasks include:
  - Determine what federal agencies are already involved and their status
  - Identify potential water supplies
  - Determine where affected homes are located, where filters/pitchers (and replacements) were installed/provided, and determine who needs filters, etc.
  - Determine how filter distribution is handled, and if it can be handled more efficiently and effectively
  - Determine what mechanisms are in place for nutrition supplementation

#### EMHSD GIS Accomplishments:

- Hosted a conference call to begin coordination with Flint City and Genesee County GIS departments and the SEOC
- Established a daily call with county and city GIS personnel to synchronize GIS efforts in support of the Flint water crisis at 8:30 A.M.
- Began consolidating local data from local GIS practitioners into a consolidated database, to include:
  - Water Pipeline Locations
  - Filter Distribution Locations
  - November 25, 2015 Water Monitoring Results (Partial, some data remains to be digitized)
  - Affected School Locations
  - Predictive analysis of blood lead levels for affected area
  - Updated Parcels
  - Demographics
  - Block Groups

- Produced a map for the filter distribution locations
- Began contacting specialists who developed historic maps depicting the Flint Water Crisis to obtain the data

**To:** Etue, Kriste (MSP); Gorski, Gary (MSP); Smith, Paul (GOV)  
**Cc:** Baird, Richard (GOV); Hollins, Harvey (GOV)  
**Subject:** RE: Update - Genesee County Declaration

I forgot to advise that we have asked key state agency PIOs to be in the SEOC for the briefing.

---

**From:** Kelenske, Chris (MSP)  
**Sent:** Tuesday, January 05, 2016 6:06 PM  
**To:** Etue, Kriste (MSP); Gorski, Gary (MSP); Smith, Paul (GOV)  
**Cc:** Baird, Richard (GOV); Hollins, Harvey (GOV)  
**Subject:** Update - Genesee County Declaration

Below are some key points for your situational awareness (FYSA) that have taken place or will take place within the next 15 hours.

- I was on the phone with Sean Kammer, Assistant to the Flint City Administrator, when the declaration hit the news so I advised him immediately. He was going to let the City Administrator know.
- I contacted MSP Lt. Roach, 3<sup>rd</sup> District Coordinator, who was at the Genesee County EOC and advised her to let the County EM know the declaration status.
- State Emergency Management Coordinators (SEMCs) were notified via our notification system with additional information in an email.
  - This included information on the SEOC activation and a 0900 briefing for SEMCs.
  - Some subject matter experts will provide us an update to establish a common operating picture.
- We have been in contact with FEMA Region V watch desk ... they will be on the call tomorrow and continue to monitor the situation.
- I have been in contact with the FEMA Region V Administrator to keep him updated.
- Operational period for the SEOC will be M-F, 0800 to 1700 at this time.
- Situation Reports (SitReps) will be provided in the evenings.
- An Incident Action Plan will be developed tomorrow.

Call me with any concerns or questions.

Chris

# Damage Assessment and Emergency Status Report

Incident: 2015-10-01-City of Flint-Water Contamination / Shortage

Operational Period 01/13/2016 08:00:00 to 01/15/2016 08:00:00

Operational Period Begin: 01/13/2016 08:00:00  
Operational Period End: 01/15/2016 08:00:00  
Situation Report No. 8  
SEOC Status: Full  
SEOC Hours of Operation Begin: 01/13/2016 08:00:00  
SEOC Hours of Operation End: 01/13/2016 20:00:00

## Executive Summary

SEOC Update:

Accomplished today (January 13)

The SEOC continues to provide:

- Situational awareness.
- Common operating picture/objectives.
- Coordination with city/county.
- Potential coordination with federal agencies.
- Incident prioritization.
- Coordination of life/health safety measures.
- Provide resources.
- Public Information Control.

### • Logistics

- o Working with DTMB and MDOC to secure vehicles and/or trailers for door-to-door campaign beginning Thursday morning.
- o Work with MSP Ops Chief to build a mission ready package for a volunteer team in the case other cities offer volunteer assistance for door-to-door.
- o Work with DTMB to secure 80,000 square foot warehouse to store water resource supplies

### • JIC

- o PIO from 2-1-1 and Genesee County Sheriff's office were in JIC today.
- o We held a media avail at Fire Station #3 and the event was well attended by media
- o Managed and corrected misinformation from media about National Guard Presence
- o City buses adding water resource centers to route.

### • Recovery Branch

- o Coordinating with Red Cross on volunteers for weekend
- o Ordered 15 passenger vans to transport teams 1/14-1/15
- o Contacted Comcast to coordinate volunteer opportunities- awaiting response of number of potential volunteers.
- o Coordinated trucks and drivers with Corrections to deploy on 1/14-1/15
- o Coordinated tracking numbers with GIS

Overall Numbers 1/12 1/13

Occupied Homes 533 291

Vacant Homes 238 86

Total Homes 771 377

### Resources

Door Hangars 473 258

Water 265 148

Filters 235 123

Pitchers 9 6

Water test kits 92 44

Replacement Filter 93 93

Total Resources Dispersed 1167

Future sample test site 62 34

### • Planning Section

- o Developed real time tracking system for local resources.
- o Working with GIS to include local POD numbers in live GIS distribution map.
- o Developed and published Situation Report #8

### • Operations Section

- o Fire stations up and running today and providing resources to the citizens.
- o Coordinated trucks and drivers with Corrections to deploy on 1/14-1/15.
- o SEOC chiefs along with American Red Cross Logistics liaison deployed to local EOC and warehouse to further develop distribution plan and coordination between all entities.

### o Daily Numbers:

□ Replacement Cartridges.

• 30,700 delivered

□ Water (cases).

• 19,152 cases delivered

### • Finance Section

- o Gather related costs to date to build projection to submit to SBO

- GIS Branch Updates.
  - Map products have been updated with new information. Created a franchise water customer map for MDARD.
  - Continued with mapping of lead service line locations, 20% completed at this time
  - Upgraded ArcGIS Online Collector App to field teams and tracked resources and site visits and procured 30 additional tablets for tomorrow's field teams
  - Updating EOC dashboards to track more detailed metrics and track team locations
  - Implementing a POD tracker for tomorrow that can be used to monitor distributions in real time.
- Current focus is optimizing the dashboards to include triggers that notify staff when inventory limits are exceeded to better manage the ordering process for new supplies

#### DTMB

- Secured warehouse today for storage of bulk supplies
- Secured 30 tablets for field data entry.

#### DHHS-CH

- The Community Health Emergency Coordination Center (CHECC) is working on a nutrition plan.
- They are working with local, regional, and state agencies
- Looking at short term and long term benefits.
- Working with local health department to provide additional support.
- Working on developing a community assessment for disaster behavioral health services

#### DEQ

- Additional staff reported to the GCCARD today to supervise assembly of the water testing kits.
- Field observer working to get inventory of kits returning.

#### Local EOC Update

- Evaluation of need to engage further public health/medical professionals.
- Continuing to identify appropriate agencies that need to be represented in EOC, and discuss strategies to engage them.
- Addressed lack of distribution of supplies to undocumented populations.
- Worked to enhance coordination of financial control to educate county finance staff.
- Coordinated with Flint Mass Transportation Authority (MTA) to include Fire Station PODs on bus routes.
- Secured adequate warehouse space for incoming supplies.

#### Incident Response/Recovery Priorities/Objectives

**Damage Assessment Summary**

**Agency Summaries**

**Joint Information Center / Public Information Officer**

The Joint Information Center (JIC) was operational in Flint from 8 a.m. to 5 p.m. on Jan. 12. State agencies at the JIC included the Governor's Office, Health and Human Services, Michigan Department of Agriculture and Rural Development, and Department of Technology and Management and Budget, Natural Resources, and Michigan State Police.

Tasks accomplished during the operational period included:

- Held an 8.15 a.m. media event where media members had an opportunity to get footage and photos of the water resource teams as they go door-to-door to distribute free bottled water, water filters, water filter replacement cartridges and water testing kits to residents throughout Flint. A photographer/videographer was embedded with the team
- Collaborated on a Governor's news release about a Public Service Announcement featuring Capt. Chris Kelenske from the Michigan State Police. The PSA provided information about the resources currently available for free to all Flint residents, including water filters, replacement filters, bottled water, water testing kits, and blood testing.
- Issued Web and social media content about the water resource teams.
- Reached out to local and nonprofit PIOs to become active participants in the JIC.
- Finalized MDARD letter and fact sheets to food establishments.
- Sent water filtration video to Comcast. Working to get a Dish Network contact.
- Arranged for an interview with the New York Times, including directors from DEQ and MDHHS.
- Began preparing a news release to include numbers, including teams, sites, local and American Red Cross.
- Monitored traditional and social media.
- Received 17 calls from the news media on the JIC media hotline
- Expanded JIC staffing and roles.
- Confirmed digital billboard to encourage residents to call 211 for water resources and information.

**Agriculture and Rural Development (MDARD)**

Jan 13th - 1/13/16 - MDARD Activities: Food Safety: The updated guidance document for water in retail food and restaurants/food service is done and is going out via US Mail, and attached here. MDARD Food staff will start scheduling water sampling and inspections for next week. Verified that the warehouses storing water do not need MDARD Food Licenses

MDARD's Agriculture Development Division provided background on historical grants to the Flint Farmers' Market and Food Bank of Eastern Michigan and will be contacting those organizations to ask about barriers and potential opportunities to help strengthen the food system.

**American Red Cross (ARC)**

The American Red Cross staffed the points of distribution (POD) at the 5 fire stations today, and will do so again tomorrow. The assembly of water test kits continued, today we moved the operation from G-CARD to ARC headquarters. Although the acquisition of warehouse space has been an issue, delivery trucks have been off-loaded throughout the day

The ARC did stand up a volunteer reception center (VRC) today. It will be in operation daily (including weekends) from 9am to 7pm.

#### **Civil Rights (MDCR)**

Continue to review activities to provide support and assistance to assigned Human Services branch and other SEOC activities  
Conducted background on swimming pool water/licensing and researched best practices in community engagement.

#### **Community Health (MDCH)**

Communications have been maintained between the CHECC and the SEOC throughout this operational period. MDHHS, MDE, LARA and MDARD have collaborated on the beginnings of a nutritional plan that includes educational components, consistent messaging across agencies, short term and longer term goals to address the "food desert" that exists in Flint. Information obtained was provided to the CHECC and a lead has been assigned to further develop this multi agency the nutritional plan.

The CHECC began to assess needs and resources to address disaster behavioral health needs for citizens and responders associated with this response. Contact was initiated with the Substance Abuse and Mental Health Services Administration Disaster Technical Assistance team. Discussed disaster behavioral health resources with FEMA V Disaster Recovery Coordinator.

CHECC Continued communication with LHD EPC to determine additional support that may be required.

The CHECC continues to track responses to volunteer availability through the MI Volunteer Registry.

#### **Corrections (MDOC)**

Brent Travelbee and Mike Farmer reported to the SEOC at 0750 hours on 1/13/2016. We have filled all requests for vehicles, personnel and warehouse equipment to assist with water distribution. MDOC Director Heidi Washington is providing full support to our assistance efforts. We will continue to staff the SEOC as a full-time partner as we have assets deployed into the field. All resources are documented on the appropriate forms and shared with the SEOC staff. Additional resource requests are coming in frequently and we are working hard to locate the requested resources while still maintaining minimal local facility operational requirements from the providing facility.

The MDOC is dedicating a considerable amount of resources and staff to this effort. We are working closely with the Logistics Chief to locate needed resources and fulfill resource requests in a timely manner.

Currently we have 25 staff and 18 vehicles dedicated (on site) to the response for Thursday, January 14, 2016, additionally we have 4 pallet jacks, one refrigerated semi-trailer and two MDOC staff assigned to the SEOC location.

Information is as follows:

- (4) Large Box trucks
- (4) 15 passenger vans
- (4) Ford F-250 trucks
- (3) enclosed trailers
- (1) Handicap Van
- (1) 20 passenger Van

The MDOC continues to monitor the situation and its affect on our staff as well as our clients in the community.

#### **Education (MDE)**

MDE is distributing nutrition guidelines for "Help Fight Lead Poisoning with a Healthy Diet" handout. Additional MDE staff trained for SEOC. (1/11)

MDE is monitoring the situation and coordinating as necessary with other state agencies.

Kyle Guerrant, Deputy Superintendent, was on-site at the SEOC; January 10, 0915-1425

#### **Environmental Quality (MDEQ)**

The Department of Environmental Quality (DEQ) completed the following activities.

- DEQ staff deployment as a field observer to assist in tracking water kit supplies and samples
- Coordination of DEQ and LARA personnel for Freeman School Faucet Replacement plan and school testing over the weekend

#### **Human Services (MDHS)**

On the Human Services side, two representatives worked the SEOC during our operation hours of 0800 to 2000 today.

Updated resource requests with water filtration products delivered today.

Participated in numerous briefs and conference calls, related to the response

Genesee Co. MDHHS staff participated in the Flint Water Resource Teams again today. Genesee MDHHS staff have been identified for Thursday, and Friday.

Staying in communication with 211, addressing human service concerns and delivery of resources to the elderly and disabled. Review and provide regular 211 updates to SEOC Ops.

CHECC continues to maintain a Level 2 Activation

#### **Licensing and Regulatory Affairs (LARA)**

LARA has offered to assist with lab testing utilizing the MIOSHA Lab and Scientists as appropriate in coordination with DEQ. We have 3 scientists and the lab manage available. LARA staff are also available for assisting with collection of testing materials or as needed

LARA Bureau of Community and Health Services is in contact with licensed facilities to ensure they are receiving appropriate assistance if needed. The Center for Medicaid and Medicare Services has contacted us regarding any potential issues

#### **National Weather Service (NWS)**

Jim Maczko from NWS Grand Rapids will participate in SEOC briefings via phone call and will coordinate support with local forecast office that serves Flint - NWS Detroit/Pontiac.

#### **Natural Resources (MDNR)**

MDNR is fully participating in all SEOC activities. Situational awareness is being maintained and the department stands ready to assist as needed.

Department POC's include:

Chief Gary Hagler, F/Lt. Jennifer Wolf, F/Lt. Steven B. Burton

#### **Services to the Aging (OSA)**

Valley Area Agency on Aging - Region 5 (VAAA), in partnership with other local community agencies such as the Genesee County Health Department and MDHHS, has helped organize local meetings and distribute water and water filters. VAAA is an access point for receiving calls from homebound seniors who are not able to pick up water filters or need assistance installing water filters. VAAA reports they continue to receive calls from seniors who need assistance.

Contact info for VAAA Executive Director is:

Kathryn C. Boles  
President, CEO  
Valley Area Agency on Aging  
225 E. Fifth Street, Suite 200  
Flint, MI 48502  
(810) 239-7671  
(810) 239-8869 fax

VAAA has distributed 2 bottles of water with each home delivered meal to each HDM client within the City of Flint. Water. VAAA also provided water to homebound seniors who needed water to prepare food as they had limited support to pick up bottled water. Congregate meal participants also have access to water and filters as needed. Once water filters were installed, VAAA discontinued including water with home delivered meals.

VAAA also contacted the Grandparents Raising Grandchildren program to ensure that they were aware of educational efforts and confirm the program had received water filters to distribute to program participants

On 1/11/16 AASA forwarded to MSP/GIS over 1,400+ NAPIS addresses of Flint seniors who received in-home services in FY15. The NAPIS file was sent encrypted and did not include client names. The NAPIS file included 1,029 HDM, 138 CM, and 30 CCS clients

VAAA continues to operate as a call center and referral point for area seniors concerned about their drinking water. They've noticed this week that seniors who've had filters installed are beginning to request bottled water again.

AASA's State LTC Ombudsman has checked in with the local Ombudsman in Flint. Local Ombudsman reports Flint area nursing homes have been taking precautions using bottled water for cooking and drinking. The local Ombudsman remains concerned about Nursing Homes' long term need to replace old facility plumbing that may be leaching lead.

#### **State Police (MSP)**

Teams have been distributing water all day. 771 homes have been visited as of the end of this operational period.

Logistically, we can support 15 teams consisting of 60-75 MSP volunteers beginning on Thursday, 1/14. We will fold these personnel into multi agency teams with local volunteers, other state agencies, the county, etc

To run this operation, we will need enlisted uniform troopers and sergeants (to lead the teams) in marked vehicles, plus any need command and control staff.

Muster location is the Local EOC, 1101 Beach St., Flint. Parking is Available at the Trinity Church, located at the intersection of Beach and 8th St. Operational period is 0900-1600 on Thursday and Friday. (with 0800-0900 and 1600-1700 being travel to and from)

### **Supreme Court**

08 50 - State Judiciary EMC John Ort reported to the SEOC regarding the Flint water emergency. Nothing to report from the Judiciary regarding the emergency. DEQ website resources shared with our State Court Administrative Office (attn: Region II) in case our Genesee County courts have any questions regarding the emergency

### **Technology, Management and Budget (DTMB)**

DTMB Mail Services has seven drivers with trucks assisting in transporting supplies to support point of distribution centers and Flint Water Resource Teams.

DTMB Real Estate assisted in procuring 80,000 feet of warehouse space and writing the rental agreement

Eight trucks carrying 12,768 cases of water will be delivered Thursday, along with two trucks carrying 117,000 water filters and 39,000 faucet mounts.

Filled resource request for 20 tablets to send out with the Flint Water Response Teams to record supplies being delivered in the field.

Clear on that. Shawn already has it and we have been working with his staff.

I see where you plan to submit a budget projection to SBO today.

I want to ensure the Department's budget needs (involving this specific emergency) is inclusive throughout the agency (not just EMHSD). I want to review before it goes to SBO.

Thanks

**Subject:** SEOC Update 1/13/16 - Flint Water - Limited Distribution

**INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE**

### Update 1/13/16 – 9<sup>th</sup> Day (8<sup>th</sup> Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Prepare/approve logistics plan and close lease on warehouse space
- Continue with door to door teams and finalize planning for second wave increase (+15 teams – total for 1/14/16 will be 20)
- Continue to work on Governor's Declaration of an Emergency

### Attached Documents:

- SitRep 8

### Status on Governor's request letter to the President:

- All support data from state Agencies and local jurisdictions collected as of 6:00 pm on 01-13-16
- Current timeline:
  - First draft completed and ready for review by State Department Directors (including the Attorney General) by 11:00 am on 01-14-16
  - State agency reviews due back by 1:00 pm on 01-14-16 for revision of the draft
  - Revised draft to Captain Kelenske by 2:00 pm on 01-14-16 for review and forwarding to the Governor for final review
  - Final draft (based on Governor's review) submitted to FEMA Region V Administrator by no later than cob 01-14-16 but hopefully sooner. FEMA is aware and ready to receive.

### Requests and potential response from FEMA/President

- The letter will request all programs eligible under the Stafford Act including Public Assistance, Individual Assistance, Hazard Mitigation, FEMA's coordination of assistance from other Federal agencies and direct assistance from FEMA
- The letter will also request potential direct reimbursement from other Federal agencies such as EPA, CDC, HUD, DHHS and SBA
- This request is in coordination with the request for Non-Stafford Act federal assistance already requested and received by the State (technical assistance and administration, but no direct reimbursement of disaster costs)
- Direct Federal assistance from FEMA in the form of Individual Assistance to homeowners for household repairs (repair and/or replacement of water service lines and Other Needs Assistance to reimburse for water filters, bottled water, etc.) is a possibility
- Direct Federal assistance from FEMA in the form of Public Assistance is not as likely as it is mostly replacement of publicly owned water distribution lines (and not the direct result of damage from a natural cause)
- If Stafford Act assistance is denied (Public Assistance, Individual Assistance and Hazard Mitigation) FEMA could still provide coordination of assistance from other Federal agencies if the President declares a disaster (or emergency) for the State of Michigan

### Key items for tomorrow to note are:

- The door to door teams will continue at 9 a.m. – 5 p.m. Thursday morning and continue through the weekend.
- We will continue to ramp up door to door operations with additional teams. Teams are focusing on the high lead level areas and additional data is being analyzed to focus mission areas.
- MNG will have a press event at the armory with incoming soldiers and MG Vadnais.

### Items to Note

- Received information that Rev. Jesse Jackson will be in town 1/17/16 at 1:30 at the Heavenly Host Church of the Harvest of Dartmouth St, Flint.
- Managed and corrected misinformation on NG role.
- Senator Ananich is stopping by the SEOC tomorrow morning 0845. I am meeting with him and his Chief of Staff. Short visit as he has a 0930 at the Capitol.
- Working with Comcast so they can put teams in the field for distribution.
- Penske is going to give us 15-20 trucks over the weekend.
- Contact made with Two Men and a Truck for resources.
- Meeting set with Google where they will brief me and key staff potential tasks.

- Coordinated with Flint Mass Transportation Authority (MTA) to include Fire Station PODs on bus routes.
- Tomorrow I will have a projection as to the number of teams needed to get all citizens filters in their homes in 5 days / 3 days.
- We are standardizing team structure and supply deployment to increase efficiencies. Mission Ready Package (MRP) specifications will be sent out for other entities to assist with door to door. They will then be able to arrive as a MRP, get supplies, receive a mission location and deploy.
- 5 Water Response Teams were in the field again today. Below are the numbers from the 2 days of just the Water Response Teams (there are paper copies with data still to be entered from the PODs). I was just briefed by the ARC logistics planner and there are efficiencies we can put in place to increase homes touched per day. The next version of the app will provide more granular details. Additional 30 tablets were configured by DTMB today for field implementation to include use in the PODs.

	Total	1/12/2016	1/13/2016
Occupied Homes	533	242	291
Vacant Homes	238	152	86
<b>Total Homes</b>	<b>771</b>	<b>394</b>	<b>377</b>
<b>Resources</b>			
Door Hangars	473	217	256
Water	265	117	148
Filters	235	112	123
Pitchers	9	3	6
Water test kits	92	48	44
Replacement Filter	93		93
<b>Total Resources Dispersed</b>	<b>1167</b>		
Future sample test site	62	28	34

- We show 17,276 residences with filters (this does not include data entry to be completed from POD or other locations).
  - We have 35,378 service hookups but with apartments, multi residence dwellings, etc we would be around 45,000.
- Logistics Support
  - The American Red Cross Logistics Planner provided me a brief and I approved the plan forward. The current plan includes:
    - Mission – A filter in every home ASAP.
    - 4 Distribution Methods
      - PODs (5)
      - Water Response Teams (20 effective tomorrow and this will increase)
      - Local EOC “Hot Shots” (these are calls for functional needs, unable to get to a POD location due to ??, etc). Personnel dispatched with supplies.
      - Local EOC support for other local requests (Faith based for distribution, etc.)
    - Three warehouse locations at this time
    - How to better leverage ARC resources
- Supplies – Daily Numbers
  - Replacement Cartridges - 30,700 delivered.
  - Water (cases) - 19,152 cases delivered
- Budget projection completed and will be submitted to SBO for review.

- Notes from Water Response Team Command (MSP)
  - *Very good synergy between Flint Post troopers and Genesee County Sheriff command and deputies in effective and efficient deployments for distribution efforts.*
  - *Great attitude and efforts by uniforms and volunteers to make important contributions to the City of Flint on water response team deployments.*
  - *Clear direction and coordination in the field of supply teams by lieutenants and troopers. No confusion. Clearly defined roles.*

**All personnel continue to be fully committed to fixing this as quickly as possible.**

Chris

---

#### Update 1/12/16 – 8<sup>th</sup> Day (7<sup>th</sup> Full Day) After Governor's Declaration of an Emergency

I apologize in advance for the length of this report. With the supply issues we had the last couple of days I wanted to share our inventory *plus what we anticipate to ensure we do not have supply issues.*

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Fine-tune logistics
- Increase and deploy door to door teams (4 state teams added to teams from the Sheriff's Department)
- Increase collaboration and messaging of collaboration with local agencies (specifically the Sheriff's Department)

#### Attached Documents:

- SitRep 7
- Executive Order Activating the National Guard

#### Key items for tomorrow to note are:

- The Governor signed an Executive Order activating the National Guard. Mission will be to relieve ARC volunteers at the PODs (Fire Stations) which will free up the ARC volunteers for door to door activities.
  - I have briefed the ARC Disaster Officer on this plan.
- The Governor requested, through FEMA Region V, support from the Federal Emergency Management Agency (FEMA) to bring together and identify other federal agencies that may have programs and funding that could be dedicated to assisting Flint as part of an interagency recovery plan. One of the existing LNOs has been identified as the POC for this. He will be a great liaison for the FWIACC.
- The door to door teams will continue at 0830 Wednesday morning and continue through the weekend and ramp up door to door operations with additional teams. Teams are focusing on the high lead level areas.
- We will look at all commodities and see where we are and where we need to be while working with the ARC logistics specialist.

#### Items to Note

- PSA video sent out to Flint citizens on resources available.
- Water

- Today's numbers - 7,824 cases of water arrived today, 1/12/16 (109 pallets)
- Ordered:
  - 19,152 cases of water are going to arrive Wednesday, 1/13/16 (266 pallets)
    - 1/3 is going to GCCARD and the rest is going to the new warehouse
  - 12,768 cases to arrive daily beginning Thursday through Saturday (177 pallets a day)
- Filters
  - Today's numbers
    - Ordered on 1/11/16 and delivered 1/12/16 direct to GCCARD
      - 2,000 – Brita filter faucet mounts
    - Filter Replacements
      - 2,400 – Brita filter replacements (single pack)
      - 8,000 – Brita filter replacements (two pack)
  - Ordered on 1/12/16 to arrive Wednesday
    - Faucet Mounts – To be delivered direct to GCCARD on 1/13/16 (Wednesday)
      - 10,000 – PUR Vertical faucet mount
      - 2,500 – PUR Horizontal mount
    - Replacement Filters – To be delivered direct to GCCARD on 1/13/16 (Wednesday)
      - 10,000 – PUR replacement filters (3 pack)
      - 10,000 – PUR replacement filters (single pack)
    - PUR Combination Pack – to be delivered to GCCARD on 1/13/16 (Wednesday)
      - 10,700 – PUR combo packs
- To arrive Thursday
  - Zero Water Pitcher (8 Cup) – Delivering direct to GCCARD on 1/14/16 (Thursday)
    - 1,300 – Zero Water pitchers
  - Faucet Mounts – Delivering direct to GCCARD on 1/14/16 (Thursday)
    - 11,000 – PUR vertical faucet mount
    - 1,500 – PUR Horizontal faucet mount
    - 5,000 – Brita faucet mount
    - 10,000 – Brita adv faucet mount white
    - 12,000 – Brita adv faucet mount chrome
  - Replacement Filters – Delivering direct to GCCARD on 1/14/16 (Thursday)
    - 117,600 – PUR replacement filter
- Test Kits
  - 6601 unassembled kits arrived at GCCARD today, 1/12/16.
  - 500 have been assembled and are ready for distribution
  - 1000 additional unassembled kits have been ordered to be delivered at GCCARD (no ETA yet)
  - 10,142 unassembled kits to arrive at GCCARD early next week
- Second warehouse – Located in Flint
  - 100,000 square feet of secure warehouse obtained.
  - Accepting commodities beginning Wednesday, January 13
- Logistics Support
  - The American Red Cross Logistics Planner arrived from DC today as requested. I outlined what her mission was and how I saw the progression forward. This logistics planner will assist in streamlining the inventory and distribution process now and into the future.
- Door to Door Numbers

- Today the app implementation for the field went extremely well. There were a few issues that were quickly addressed. One related to how form fields should be filled out. Another was getting styluses for teams so that they don't have to remove their gloves in the cold. All very simple to fixes.
- We are working on version 2.0 so this can be used at the PODs
- We should be able to greatly optimize distribution in the near future as we mapped the active water subscribers from Flint's DPW and are adding them to the field team members apps. Of the ~56,000 possible addresses, this reduces the number of possible homes to visit down to ~29,000.
- Notes from the field commander:
  - "Today we started out the day using two groups that consisted of approximately 10 people in each group. We eventually combine groups with Genesee County Sheriff's group and they brought two more groups with approx. 10 people (Local UAW) in each group. This made us a lot more efficient and we were able to set up a game plan. Tomorrow I feel we will be more efficient and we will have a better plan in place to get the maximum output out of our resources."
- In the end, there were 394 total home visits with the following breakdowns:
  - 217 Door Hangers
  - 152 Vacant Homes
  - 117 Water Distributions
  - 112 Filters
  - 3 Pitchers
  - 48 Water Test Kits
- 211
  - CALL VOLUME:
    - 185 calls for water-related issues had been received as of 4:45 pm.
- Logistics made contact with Comcast and will be supplying them with filters and replacement cartridges for their deliveries in their work trucks as they make services calls. They will follow our procedures for reporting (our checklist).

Chris

---

#### Update 1/11/16

The focus today was the media event and getting the supplies and logistics on track. Most of the activity today was working on logistics for the water and other supplies.

#### Attached Documents:

- SitRep 6

#### Key items for tomorrow to note are:

- The door to door teams will start at 0830 Tuesday morning. It is reported that troopers are going to the door but DHHS employees are the lead with a troop car nearby.
  - State and local GIS created an App today for the teams to use tomorrow but I see potential use at distribution sites.
  - The App data will be used for our maps as we survey the public/distribute supplies and we will be getting real time metrics through the site from the field send back to the SEOC. We are using Android tablets tomorrow but in the future can use any mobile device for this.

#### Items to Note

- It was reported that only one POD (Station 5) was out of water longer than 30-45 minutes. This site was ~2 hours without water and part of that was the truck went to the wrong station. Trucks were sent as soon as the local EOC was notified.
- We also did not receive a DHHS shipment that was to come in which caused some filter delivery issues.
- Supplies are limited at this time; however, we are getting our shipments starting at 0630 tomorrow.
- We have Home Depot giving us 12,768 cases (this was a late development so the SitRep indicates half the amount) of water every day starting tomorrow. We are still working with other distributors too.
- ARC is flying in a logistics planner tomorrow. Three additional staff will be with her to shadow and help. We are turning warehouse logistics over to ARC logistics. We are moving tomorrow to a process that has a distribution center (GCCARD) and a warehouse that is 100,000 square that will maintain mass quantities. Staff has continually been placing orders for supplies to ensure we get a head of this. The intent is to keep the warehouse full so we do not have these continual issues of supplies.
- Began mapping lead service lines (anticipate having draft of lead service lines Friday).
- Coordinated with local IT managers overseeing filter tracking system to streamline data collection.

#### Local Emergency Operations Center

- Working to coordinate resources at the local level to maintain adequate supplies at all PODs.
- Demand has exceeded supplies and supplies are moving rapidly from PODs today. Working to make sure POD managers notify us when they start running low.
- Working to establish a warehouse for local resource storage.
- Established trigger points for resources at PODs and hourly inventory reporting from the PODs.
- Discussed potential long term water sources between local EOC and SEOC.
- Established planning cycle/meeting scheduled for 1/12/16.
- Local EOC EMHSD staff with Natasha Henderson to request deployment of City representative at local EOC.

Chris

---

#### Update 1/10/16

##### Attached Documents:

- SitRep 5
- Door card (English version but Spanish version will be ready for Tuesday)

I have a local EOC section listed below but state personnel are heavily engaged in management of both locations. We occasionally hit some road bumps with this event but all personnel are working well together to accomplish our goals (especially state agency personnel).

I have had good discussion with FEMA LNOs. Two statements have been developed from our discussions that hopefully helps put this in more context but if it is more confusing I apologize:

1. *In the immediate response, the State, in collaboration and coordination with city of Flint and county of Genesee are working to get water, water filters, and testing kits to the affected population. In conjunction, the state will coordinate with federal agencies to ascertain what resources can come to bear to help mitigate the issue.*

2. If asked about a federal declaration from FEMA, we need to articulate the definition of major and emergency declaration and state or note to ourselves that it appears to not qualify; however, there may exist opportunities to leverage federal assistance from some agencies (i.e....EPA) under their own authority to help address this issue.
  - We need to really manage expectations on the potential for a federal declaration...not that we will not go after one but it will be difficult to get.
  - A major disaster is defined in the Stafford Act as any *"nature catastrophe (including hurricane, tornado, storm, high water, winddriven water, tidal wave, tsunami, earthquake, volcanic eruption, landslide, mudslide, snowstorm, or drought) or, regardless of cause any fire, flood, or explosion.....causes damage of sufficient severity and magnitude, to warrant major disaster assistance.....to supplement the efforts and available resources of States, and local government....."*
  - An emergency declaration is *"is any occasion or instance for which, in determination .....assistance is needed to supplement State and local efforts and capabilities to save lives and protect property and public health and safety or to lessen or avert the threat of a catastrophe....."*
    - This is limited to immediate and short-term assistance (I hate to put times on this but short-term is like 3 weeks), essential to save lives, protect public health and safety and property.
  - Severity of the situation is *"A finding that the situation is of such severity and magnitude that effective response is beyond the capability the state and affected local governments, and that the state requires supplementary federal emergency assistance to save and to protect property....*
  - Nature of assistance for Emergency Declaration is for *"Debris removal, emergency protective measures, direct federal assistance...."*
    - Debris Removal = *self-explanatory and we do not have this*
    - Emergency Protective measures = *water, commodities, transportation (remember ... to supplement what the locals and state are already doing if we need more)*
    - Direct federal assistance= *what specific type of work is requested, and what are the reasons why the state/local government cannot perform or contract for performance. Essentially what is the need that state/local govt cannot provide. I can see this being something we need but we may be able to get this outside a federal declaration under the federal agencies own authority to help address this issue.*

Back to the update...

Key items for tomorrow to note are:

- Training is occurring for the door to door teams scheduled for Tuesday morning.
- Deploying an additional MSP District Coordinator to the local EOC for command and control support.
- Deploying two DTMB trucks and two drivers for sustained logistical support for the week.
- Media event with the Governor in Flint.
- New Incident Action Plan starts (1/11 0800 -1/13 0800 operational period). Our objectives are as follows:
  1. Ensure all households within impacted community have required resources.
  2. Ensure accurate tracking and accounting of all commodities.
  3. Improve and maintain public information strategy.
  4. Develop a long term public health and services plan.
  5. Ensure adequate staffing to support operational requirements.
  6. Identify possible assistance programs.

7. Develop an approved GIS strategy.
8. *Maintain coordination between partner agencies and organizations.*
9. Enhance situational awareness and common operating picture of all activities.
10. Develop a comprehensive Recovery Plan.

#### Items to Note

- All 9 churches had filter systems/replacement filters, information sheets, and water test kits delivered as requested by each pastor/reverend on Sunday. We did not think we could get them water due to the limited time but we did end up getting water to all 9 churches with the other items.
- Fire station resource locations stayed open from 9a to 9p and will continue with those hours until further notice (Staffing is in place until Saturday). ARC is staffing these locations.
- The media event was held at Fire Station No. 1 and report back is that it went well and the spirit of collaboration between local, state, non-governmental partners is strong was relayed.
- The four door to door teams will have the hours of 8:30 a.m. to 5 p.m.
  - Each will have logistics support from DTMB, security from MSP, and contact personnel from DHHS.
  - The door card is attached that will be left if no one is home.
- Worked to identify a storage location within the City of Flint for water and supplies. G-CARD is identified as temporary location but we are moving toward a state run warehouse operation (looking at private sector partners to assist, especially with the warehouse management side).
  - GCCard is large enough, centrally located and comes staffed. GCCard has 75,000 sq ft with warehouse managers to assist with tracking resources coming in and out.
- GIS will provide us daily updates of how much was distributed each day but note we have a delay in data entry from delivery to entry in the GIS system. Over the weekend there was a problem locally with staffing to get this completed. A solution is in place and will be implemented so we get timely data. Distributed to date (as of 1/8/16).
  - 12,386 filters
  - 1,985 replacement filters
  - 354 Pitchers
  - 2500 Lead Testing Kits
- Establishing and tracking of resources is a priority. Staffing has been assigned to get a good handle on these to ensure distribution sites maintain an appropriate level of inventory. I have requested trigger points get put in place so we do not get below certain levels in the main warehouse location.
  - Contacts with some large water distributors have been made and their and our logistics chiefs will connect first thing this week.
  - We have ordered an additional (expedited delivery with ETAs tomorrow)
    - 40,000 Brita Filters
    - 40,000 Brita Replacement Filters
    - 1000 Zero 8-Cup Pitchers
    - 1000 Zero 8-Cup Pitchers
    - 2000 PUR Replacement Filters
    - 93 Pallets of water (about 6700 cases)
- GIS continues to produce multiple maps for use.
- JIC Items
  - Requested PSA on the radio. Media has been approved and working with MAB.
  - Requested JIC to contact Comcast and Dish Network for availability for continuous running of filter install/replacement and test kit video.
  - A news release will likely going out tomorrow regarding canvassing in neighborhoods. Continued social media messaging.
    - Tuesday – embed state PIO with one of the canvassing teams to liaison with media.
    - JIC moving tomorrow to Flint.

## Local Emergency Operations Center

I am providing you some information on some issues we ran into at the PODs. This has been addressed with additional state resources and processes put in place so we do not run out of resources. Public concerns/complaints have not been brought to my attention at this time. Staff is working very hard to ensure we do not run out of supplies at the PODs and they understand the consequences. No one in the Local EOC or State EOC is happy the following occurred and I felt you should know in case it is brought up. Again, I believe we have fixed this and I take full responsibility for any supplies not being on site.

### Fire Station Inventory Levels:

#### Station 1:

- Only time without supplies - 15 minutes without water while the truck was unloaded.

#### Station 3:

- Ran out of replacement filters around 7:00, replacement filters delivered around 7:30. Had to pick up replacement filters from Home Depot and deliver.

#### Station 5:

- Ran out of water around 5:00, water was delivered around 6:30. We needed to find additional trucks because DTMB drivers were over hours. The ARC stepped up and found a truck to go and pick up a pallet of water and deliver.
- Somewhere between 4:00-6:00 they ran out of lead test kits. No way to restock these because City facilities were closed and could not reach anyone.

#### Station 6:

- Around 5:00 ran out of water, filters, and replacement kits. Replacement kits were delivered around 7:30. Additional water and filters were delivered after 9:00 due to the DTMB drivers heading back to Lansing. Food Bank was called and had to get drivers in to operate trucks, pick up water from the School District, load and deliver to all sites. Delays occurred with weather conditions and needing to use last minute sheriff EOC staff to load due to issues with City workers. City workers were scheduled to help and left around 7:00 without helping.
- 2 pallets of water were dropped off in the afternoon and within 1 hour were gone. This was much faster than we expected. On 1/9 they didn't go through 2 pallets of water at any station for the hours 9:00-4:00.
- We received news that a reverse 9-1-1 call notified residents of water which caused an unanticipated amount of people obtaining water. There was also a report of 1 person walking out with 2 cases of water and trying to sell in the parking lot.

#### Station 8:

- Around 7:00 ran out of filters and lead tests. Filters were delivered around 8:00 from the food bank trucks.
- Hourly reports were requested in the morning from volunteers but this information was not received as to the status throughout the day. Early inventory of supplies took between 1 hour-1.5 hours to receive in the EOC. We were not advised of low counts, just zero numbers.
- Reports received that the last couple of hours were slow.
- Residents were advised of the other sites and the opportunity to obtain supplies.

### Restocking Plan

- United Way set up meeting with Food Bank to discuss.
- Had EOC meeting on this topic to discuss options.

### Churches:

- All 9 churches received waters, filters, and informational bulletins.
- Lt Roach received positive feedback from 3 of the pastors.
- No complaints were received.

### Signage:

- Provided information to SEOC on signage requirements at the fire stations.

Storage:

- Researched storage spaces; established temporary site at GCCARD.

Personnel:

- Lack of local EOC leadership (seems somewhat checked out) with IC and Deputy IC (doing an okay job).
- Captain TaFoya (Genesee County) helped tremendously today with all the plans outlined above and attended the press conference.
- Tina Martinez at the Food Bank and Matt Purcell at GCCARD were extremely helpful in getting last minute operations set up.

Chris

---

Update 1/9/16

SitRep 4 attached for more in depth information. The below only contains some items worked on today and while the format in the attached SitRep is not perfect (it is created automatically by MICIMS) it does contain a lot more information you may want to read. I also attached one of our maps. It is our filter distribution map. All filters handed out by anyone working with us feeds into this now. We are continuing to refine these and at this time there is a delay in the upload of address data but we are working on it. We have a ways to go to get filters in every home but this will help direct us to those who need still them. We also are working on identifying abandoned homes.

Key items for tomorrow to note are:

- 9 churches will have ARC volunteers and filters for distribution. Some may also get water.
- 5 fire stations are a distribution point for water, filter systems/replacement filters, and water test kits. While only open today until 4 p.m., tomorrow and until further notice they are open from 9a to 9p.
- Media event will take place on the above tomorrow.

Items to Note

- 211 has some issues with call load but it is being worked on. 2-1-1 Director contacted MDHHS PIO to discuss/resolve caller wait times and messaging. We anticipate an increase in activity tomorrow in 211 calls so we requested and received an increase to staff 211.
- We are shifting tasks the SEOC took on that are handled more effectively and efficiently at the local EOC. We have established command and control in their EOC. We are running things there but that is not being made public. We are doing this in partnership but we are clearly handling the operation with state personnel oversight.
- A 3rd FEMA LNO arrived today upon my request. This has nothing to do with a Presidential request for a declaration but support for some other items I want worked on for long term recovery.
- We continue morning calls with the local EOC leadership and local emergency manager on what our goals for the day are as well as any issues/concerns.
- Five 5 fire stations have received water, water filters, replacement cartridges, and water testing kits with American Red Cross personnel at each location to assist with delivery of resources and collection of addresses receiving them. These locations will be open from 9a – 9p daily until determined they are no longer needed. Those picking up water testing kits will be advised that they can return the test kits to the fire departments (where they will be picked up and taken to the Flint City Hall), the Flint Water Treatment Plant, or they can take them directly to the Flint City Hall. For those unable to return the kits, 211 can make arrangements for pick up the kits. We understand

response to these sites has been positive thus far. The Genesee County EOC will be monitoring these supplies and request replacement of products as needed.

- A call is going out tomorrow morning to advise this information ... I do not believe it was every resident but Tori Sachs has that info if needed.
- I approved a press release today to advise the public that all levels are working together to ensure delivery of filters, test kits and water; noting that all of these items were delivered to the 5 Flint fire department stations. It was stressed that the public should be aware that the local and state agencies have been working cooperatively to assist the residents - and will continue to do so. This was done to hopefully end or at least minimize the "who can get water and filters out first" when all of this has been connected with the state and coordinated since the state declaration was put in place.
- The arrangement of 2,000 filters, to be taken to 9 local churches on Sunday, January 10, is ongoing. The filters have been secured; they are now in the possession of the DTMB. DTMB will return to Flint on Sunday morning to deliver these to necessary locations. The American Red Cross will be on site at each church to assist with distribution and recording addresses (for GIS). The local EOC is working to ensure these arrangements are complete and run smoothly. Future engagement with the faith based community will occur to assist with additional distribution.
- A Flint City liaison has not been in the EOC but starting Monday this will be in place to keep the Flint Mayor apprised of activities being conducted in the city. She also has been advised she can call me at any time if she needs anything.
- Training has been confirmed for the door-to-door operation scheduled to start Tuesday. Four teams are initially scheduled with more to potentially be put in place. These are the teams that will be handing out water, filter systems/replacement filters, test kits and information. If nobody is home, a door hanger with information is being left. DHHS personnel and one MSP trooper will be on these teams.
  - Training will take place at 1 p.m. on Monday afternoon at the DHHS office on Clio Road. DEQ and DHHS will provide the training.
    - Training is so those going door to door can explain what the filters do, how to install them, if they need install help to call 211 who has a list of people who can install the filters, and answer any other questions versus just handing them the filter.
  - Hours of operation will be Tuesday through Friday from 8:30 a.m. to 5 p.m. AT THIS TIME. I am reevaluating these times to increase contact with someone versus just leaving information.
  - Logistics are being finalized for the teams and trucks to handle stocking and re-stocking of materials during daily operations.
  - GIS maps will provide guidance on deployment locations for these teams and other teams in the field.
- A pilot project at Freeman Elementary with LARA and DEQ has been initiated to see if replacing certain plumbing components in faucets at the school will drop the lead level.

#### MSP/EMHSD GIS Section Updates

##### Accomplished Today (January 9):

- Produced a Point of Distribution Map. Contains four types of distribution points; Churches, Water Resource Sites, Filter Distribution Sites, Water Distribution Sites.
- Produced Filter Distribution Map.
- Developed process of how best to handle geocoding the household filter locations, worked on processing the data.
- Worked on map of franchise customers outside of Flint City.
- Produced maps for MDARD on food establishments and Local Health Departments.
- Produced map of Church Filter Distribution map for DTMB.

## Local Emergency Operations Center

- The state has deployed 10 personnel to the Genesee County EOC to ensure we have command and control at the local level. On 1/8/15 The state personnel took over the incident management functions of the Genesee County EOC (not public). The arrival of additional staff allowed the local Emergency Management Coordinator to delegate tasks which relieved a tremendous amount of stress.
- Additional Sherriff staff (2-positions) will be shadowing the state incident management team to allow for transition to the county personnel later in the incident when we are comfortable with them handling things. Not sure when that will be but we have secured a direct bill hotel for staff to stay in Flint as long as needed.
- With the additional staff, the Local EOC will be able to take over functions previously handled by the SEOC including:
  - Logistical activities to support church operations.
  - Logistical activities to support fire stations operations.
  - Coordinate Donations Management activities and draft donations management plan
  - Coordinate Volunteer Management activities
  - Identify local storage/staging facilities
  - Overall inventory tracking
  - Tracking of Points of Distribution (PODs)

Chris

---

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR’S OFFICE

### Update 1/8/16

SitRep 3 attached.

There is a significant difference in what is being presented by the media and what the local EOC is relaying to us at the SEOC. It is also being driven by the media that this is a state versus local response (who is providing more and quicker versus a coordinated effort between all). That said, I advised SEOC personnel that perception is reality in some eyes and we are to move forward to address items that typically are addressed at the local level. I have ordered the SEOC open all weekend due to make the quick wins that we need and continue to get the coordination and collaboration in place that is needed (but make gains on our own as needed).

### Items to Note

- Two FEMA LNO’s arrived today and are in the SEOC. A third LNO was requested from FEMA due to some unique issues with this event to include having to deploy more or my staff to the local EOC to get more structure and/or find out why there is an issue with the message the media is showing versus what we are hearing from the local EOC.
- We finally received from the local EOC 8 locations (we were told originally early in the week they had 80-90) that are their Points of Distribution (PODs) for water in conjunction with the local food bank. The PODs are not getting water from the food bank even though the food bank has water. We are going to resolve this issue as we can help deliver the water to the PODs but we were not aware of this. 8 PODs is not enough locations if water needs to be distributed to citizens. Speaking with the ARC Regional Administrator later today, I believe ARC got water to those locations but I need to confirm that in the morning. The food bank reported they had 376 cases of water.

- We have learned that a low number of residents are testing their water when DEQ can test 400 kits per day. This is an added focus that we believe can be increased through dissemination of test kits with the filters and any water.
- I found out the Mayor was okay with using fire stations as distribution points for water, filters, and water test kits. While this did not come to me through the local EOC, I advised we needed to get water, filters, and test kits to these locations for tomorrow. The distribution at 5 Flint Fire Department stations has been coordinated to be in place by 10:00 am tomorrow morning.
  - DTMB has provided a truck and driver to pick up water test kits from DEQ lab in Lansing, water from the Food Bank and water filters and replacement cartridges from GCARD in Genesee County.
  - 10 American Red Cross (ARC) volunteers will meet the DTMB truck at GCARD at 9:00 am to be provided information about filters. Instructions will be included in water test kits. They will then report to the 5 fire stations to assist in distribution of resources to the public and track addresses of same.
  - Residents will be told where they can drop off their water test kits, or that they can return them to the fire station the next day. Coordination will occur on pick up of water test kits daily to be taken to the Flint City Hall, who will then delivery them to the DEQ testing lab.
- STILL FINALIZING - We have made available 2,000 Filters for distribution on Sunday as parishioners leave mass/services. This will be 200 filters for 10 churches in Flint. While this is a small number of churches, we do not want to waste an opportunity to hand out filters and this seems like a quick way to so. The filters will be put on the DTMB truck on Saturday for delivery to TBD locations for distribution. Logistics remain undetermined as I am still waiting on a list of the churches, pastors/reverends/hours or services/etc. The DTMB truck will be returning to Lansing approximately 11:00 a.m. so we need to finalize this quickly on Saturday. We may utilize ARC to assist with this.
- The Recovery branch is working with the JIC to develop a door hanger card. DTMB is working on the printing portion of the hanger card. Recovery will also be finalizing logistics over the weekend for neighborhood canvassing to occur early next week. 40 volunteers have signed up to attend training on Monday afternoon to complete this task. The mission will be to deliver water sample kits along with water filters/replacement cartridges, and water.
- It appears that 211 has become overloaded. DHHS is researching ways to increase capacity for calls.
- A Volunteer Management Coordinator is in the Genesee County EOC as of today.
- A Donations Management Coordinator has been requested and she will be in the Genesee County EOC Saturday.
- DHHS had a conference call with GM today; they indicated they can provide cash, and supplies, but primarily manpower. No commitments were made at this point. We inquired as to availability of warehouse space and trucks. It was left as GM being a major resource pool that we can tap into as we determine missions. Further conversations will occur, but primarily GM just wanted us to know they are there if needed.
- An additional EMHSD staff member was sent to the Genesee County EOC to act as Operations Section Chief and obtain awareness of the situation there.

- GIS staff met with various parts of Genesee County/Flint personnel to try to get a handle on data available.
- GIS continues to work with local GIS personnel with three GIS staff going to Flint today to work with them. GIS staff is working with U of M on how best to proceed with digitizing water lines for long term recovery.

Chris

---

UPDATE 1/7/16

A summary of some of today's SEOC activities is provided below. Attached is the following:

- Today's SitRep which contains more information than below.
- The resource request/task assignment sheet for your situational awareness. This is how locals request resources as well as how we track resources and any assignments and/or tasks that are to be completed.
- JIC Task Tracking – for your situational awareness on how we are tracking requests and assignments. Once someone is assigned a task or resource request it allows them to document what work has been or will be done as shown at the bottom of the document.

**Items to note:**

- I received a document this evening from Genesee County which appears to be damage assessment information. Analysis of this will occur tomorrow. It appears to be infrastructure and costs to fix it and no other impacts.
- I spoke with Jamie Curtis, Genesee County Commissioner, this evening. A very good relationship is in place with him, especially with our District Coordinator (DC). I also have our DC working on developing stronger relationships with the Mayor/Mayor's office.
- GIS staff continue to obtain data and work with County and City personnel to get a picture of where resources have been provided, need to be provided, as well as infrastructure locations (pipes) that could be affected.
- Personnel and agencies have been tasked with developing a plan to get people in the community to deliver information, hand out filters, etc. This would target those areas we are showing minimal or no filter distribution based on the data we are collecting. The plan is to get them in the field by Tuesday and the plan will be provided to me tomorrow.
- Filters can be obtained at the following locations:
  - Michigan Department of Health and Human Services office, 125 E. Union St., Flint, MI 48502
  - Michigan Department of Health and Human Services office, 4809 Clio Road, Flint, MI 48504
  - Genesee County Community Action Resource Department office, 2727 Lippincott, Flint, MI 48507
  - Genesee County Community Action Resource Department office, 601 N. Saginaw, Flint, MI 48502
- Conducted briefing with local EOC and county executive.
- Conducted briefing with state agencies (daily updates).
- Began work to schedule legislative/congressional conference calls. Tentatively scheduled for 2 p.m. Friday.
- JIC continued to develop messaging.

- Provided input to local EOC regarding best methods of identifying health and non-structural impacts for damage assessment process.
- Deployed two EMHSD/SEOC liaisons to assist the local EOC.
- Published the Incident Action Plan and continued assignment of objectives/tasks.
- FEMA Liaison Officers just arrived in Lansing to assist command and general staff.
- I spoke with Harvey a few times and he should have talking points later tonight or tomorrow a.m. for his use and also for others who may speak to media outside of state government who may benefit from our messaging.
- We held a media round table at 1 P.M. at the SEOC. Dr. Wells and I spoke and answered questions to numerous media outlets.
- Local agencies and NGOs continue to provide water and filters to citizens.
- The website, [www.michigan.gov/flintwater](http://www.michigan.gov/flintwater), was update with information and links to assistance to include 211. Additional recommendations were provided to include information on the testing water in homes.

#### EMHSD GIS:

##### Accomplished Today:

- Reproduced Socio-Economic Status Map
- Reproduced Predicted Affected Populations Map
- Cleansed old data and reports for water filter distributions
- Created draft map of water filter distributions (Refinement needed before releasing final product)
- Scheduled on-site visit with Flint GIS Department and Genesee County GIS Department
- Formatted databases to host content
- Researched service line database creation and scheduled meeting with U of M Flint to discuss timelines and resource needs
- Generated water infrastructure map (does not include building service lines)

##### Tasks for Tomorrow:

- Meet with Flint City GIS
- Meet with Genesee County GIS
- Meet with U of M Flint GIS
- Finalize water filter distributions map
- Finalize plan for data distribution methods

Chris

#### UPDATE 1/6/16

A summary of today's SEOC activities is provided below. I tried to distill this as best I could but there has been a lot of activity and discussion to get an accurate assessment of the situation. Attached is the final draft of objectives and tactics for the operational period and agency situation report (SitRep) which has more SEOC agency information. I have implemented weekly operational periods.

Advise if you want anyone else copied or off this distribution.

#### Daily Update

- Set goals for SEOC and identified response/recovery emphasis

- Requested FEMA liaison officers (LNO) from FEMA Region V. Two LNOs will be on site by ~3 p.m. 1/7/16. Both are known contacts to me and some staff and one has worked extensively with me during the SE MI flooding in a command and control position. These personnel have been specifically tasked with this mission. **THEY ARE NOT HERE TO ASSIST WITH A PRESIDENTIAL DECLARATION REQUEST BUT TO ASSIST ME.**
- PIOs from multiple agencies were here and established the Joint Information Center (JIC). News released pushed out on this. I am very happy with the PIO work and movement toward *coordinated messaging*.
- Held briefing for State Agency Emergency Management Coordinators, which included presentations from DEQ and DHHS subject matter experts to ensure situational awareness and to *develop a common operating picture*.
  - I opened the briefing by identifying our initial goals, items to think about while subject matter experts were briefing us, and how we are to move forward, find quick wins, and *regain trust*.
  - **MDHHS – Elevated Blood Lead Levels**
    - Dr. Elizabeth Wells gave an in depth summary of lead poisoning and what has occurred in terms of health monitoring throughout the *Flint crisis*.
  - **MDEQ – Water Testing Protocols**
    - Mr. George Krisztian of MDEQ gave an in depth summary of the testing protocols and summary results that as they have developed throughout the emerging crisis.
- Developed Incident objectives, strategy and tactics (see attached)
- Identified SEOC and state agency staff positions
- Assigned work tasks for SEOC operation period from 0800 January 6, 2016 to 1700 January 8, 2016
- Reviewed planned actions, prepared final draft Incident Action Plan
- Made contact with the Genesee County Emergency Manager first thing in the morning and held a conference call mid-day to discuss roles. Daily 0830 command conference calls with local EOC command staff starts tomorrow. Tomorrows call will include the County Commissioner and the City Administrator (both invited). Topics include the incident action plan objectives and establishing better local coordination, command and control to facilitate integration with the SEOC. The local EOC is not functioning as it needs to with personnel and local coordination and we are working on that issue.
- I will be in Flint tomorrow for a 2 p.m. media round table with local officials that was set up by the JIC.
- The attached initial objectives will be updated at least every operational period and as needed. I listed the *objectives* below but the *tactics* to accomplish them is in the attached if you want further information.
  1. Activate the State Recovery Task Force (SRTF).
  2. Establish and maintain *coordination* between the City of Flint, Genesee County, state and federal agencies, and appropriate medical experts.
  3. Obtain and maintain situational awareness and common operating picture of all activities.
  4. Establish SEOC operational period and hours of operations.
  5. Investigate and identify all available programs for assistance with direct or related impacts, including the federal Lead Pipe Replacement Program.
  6. Develop a comprehensive GIS strategy.
  7. Coordinate response and recovery activities with MIVOAD and identify potential mission areas.
  8. Establish and coordinate routine communication between SMEs and coordinate technical assistance among state agencies and to local agencies.
  9. Provide technical assistance to the local Damage Assessment process.
  10. Establish a Joint Information Center (JIC) and develop a public information strategy.

11. Monitor MI CIMS for resource requests and address as appropriate.

12. Establish and disseminate cost center information for the incident.

• Additional tasks include:

- Determine what federal agencies are already involved and their status
- Identify potential water supplies
- Determine where affected homes are located, where filters/pitchers (and replacements) were installed/provided, and determine who needs filters, etc.
- Determine how filter distribution is handled, and if it can be handled more efficiently and effectively
- Determine what mechanisms are in place for nutrition supplementation

**EMHSD GIS Accomplishments:**

- Hosted a conference call to begin coordination with Flint City and Genesee County GIS departments and the SEOC
- Established a daily call with county and city GIS personnel to synchronize GIS efforts in support of the Flint water crisis at 8:30 A.M.
- Began consolidating local data from local GIS practitioners into a consolidated database, to include:
  - Water Pipeline Locations
  - Filter Distribution Locations
  - November 25, 2015 Water Monitoring Results (Partial, some data remains to be digitized)
  - Affected School Locations
  - Predictive analysis of blood lead levels for affected area
  - Updated Parcels
  - Demographics
  - Block Groups
- Produced a map for the filter distribution locations
- Began contacting specialists who developed historic maps depicting the Flint Water Crisis to obtain the data

**Sent:** Tuesday, January 05, 2016 6:06 PM  
**To:** Etue, Kriste (MSP); Gorski, Gary (MSP); Smith, Paul (GOV)  
**Cc:** Baird, Richard (GOV); Hollins, Harvey (GOV)  
**Subject:** Update - Genesee County Declaration

Below are some key points for your situational awareness (FYSA) that have taken place or will take place within the next 15 hours.

- I was on the phone with Sean Kammer, Assistant to the Flint City Administrator, when the declaration hit the news so I advised him immediately. He was going to let the City Administrator know.
- I contacted MSP Lt. Roach, 3<sup>rd</sup> District Coordinator, who was at the Genesee County EOC and advised her to let the County EM know the declaration status.
- State Emergency Management Coordinators (SEMCs) were notified via our notification system with additional information in an email.
  - This included information on the SEOC activation and a 0900 briefing for SEMCs.
  - Some subject matter experts will provide us an update to establish a common operating picture.
- We have been in contact with FEMA Region V watch desk ... they will be on the call tomorrow and continue to monitor the situation.
- I have been in contact with the FEMA Region V Administrator to keep him updated.
- Operational period for the SEOC will be M-F, 0800 to 1700 at this time.
- Situation Reports (SitReps) will be provided in the evenings.
- An Incident Action Plan will be developed tomorrow.

Call me with any concerns or questions.

Chris

Col.

The below update is for your awareness. Our analyst is in communication with Captain Gasper, F/Lt. Boucher, and 1<sup>st</sup> and 3<sup>rd</sup> District command.

### **Subject: Rally Today at Capitol - Flint Water Crisis**

Good Morning,

This morning the organizer indicated he has a head count of about 150 people coming from Flint, there are two groups caravanning to the Capitol. One group leaving around 9:30 and another around 10:00. He did not indicate how many, if any were coming from Detroit, Benton Harbor, Ecorse, or Allen Park. They do mention that "other brethren from across the state are meeting us!" In reviewing all the comments I did not see anything of a threatening nature. It appears this group wants to have a peaceful protest to express their opinions on the water crisis in Flint.

An another note, as I mentioned yesterday I'm starting to see negative sentiments towards the National Guard and State Police presence in Flint. I've seen numerous suggestions for federal "water buffalos" instead of the state support. Below are just a few of the negative comments:

- "I hope our Mayor do something about these Rouge State Police."
- "...my son goes through this daily, he lives on the east side; we have filed complaints but *nothing ever happens*, like you said rouge state cops loosed on our young men especially."
- "National guard? Well now let's see if I have this right. The national guard will be patrolling the streets in military uniforms, the State Police will be in force on the streets along with them. Am I to believe that all this, the military, the State Police and in full force *occupation* of the city of Flint Michigan is a Humanitarian effort?"
- "WHAT MSP doing what??? *sounds like they better go after the crime, ASAP, trying to help the people and the Volunteers need Police Protection...or get shot / Killed.*"

Also there is plenty of negative response to the Governor's comment yesterday at the Auto Show: ""Why the delay in calling FEMA?" for help with the Flint water crisis was the first question for Snyder before he began his journey around the auto show floor. "I'm here at the auto show today," he replied. "It's great to be at the North American International Auto Show. What a great way to showcase Detroit and Michigan." People are posting photographs of an envelope with Attorney Jeffrey Feiger's address as their response.

I will continue to monitor open source for any threats or suspicious postings. So far I haven't seen any evidence of counter protestors or any groups with a counter-view.

Thanks,

Sue

**Subject:** Flint Water Informational e-mail

Good Morning

I am sending this as an informational e-mail.

Currently, the Flint Post and 3<sup>rd</sup> HST are fulfilling the SEOC - requests for personnel and coordination command to the Flint Water Situation. With over 125 volunteers scheduled today and tomorrow, troopers are providing security to volunteer teams handing out water and filters, street-by-street and house-by-house.

Today we have the following enlisted numbers in place:

F/Lt. assigned to the Joint Information Center (JIC) has and continues to work with local and national media, for MSP, and other agencies.

F/Lt. as the Water Response Team Commander.

Lt. as the logistics – Distribution Coordinator.

Sgt. as the EOC – Safety Officer.

Sgts. As Ground Operation Coordinators.

Troopers providing security to the teams.

There are many assignments that fall under this portion of the overall operation and the Response Commander reports to command within the EOC.

I will send these out periodically as there may be a request to up our commitment based on the number of volunteers and supply of filters over the next weeks.

Thank you  
Gene

### **Third District Commanders**

As a heads up I ask you to review this information, make a phone call to F/Lt. Kish or Lt. Dehner, and make arraignments (You and/or a Sgt.) to visit the EOC – Flint. As this effort continues and possibly ramps up, you, your staff, and your troops will be called on for support. The request and direction for troopers will come as soon as we have information they will be needed, and will include details such as DCDS codes and reporting plans.

As a F/Lt. or Lt. you may be specifically assigned as the Water Response Team Commander for all team operations. To prepare, please make every effort to visit the EOC during operation hours 730am-9pm, and discuss duties with the on-site commander.

It is my plan to keep Lt. Dehner as a consistent presence / commander in the EOC, but you can be assigned to be part of that team. The following information is for your review and I will keep you advised as information is available.

### **Current Duties:**

- EOC Safety Officer – Sgt.
- Water Response Team Commander for all team operations – F/Lt – Lt. and or assistant.
  - Coordinate and manage Water Response Team structure. This includes Street Sgts.
  - Coordinate and manage Water Response Team resources.
  - Coordinate walking routes with concentration in the most hazardous lead level areas.
  - Coordinate logistics for Water Response Teams.
  - Coordinate iPad distribution and tracking.
  - Coordinate and integrate with state, county, and local personnel as well as volunteers assigned to work on Water Response Teams.
  - Coordinate and manage team security with MSP and County personnel.
  - Determine hours of operation based on assessment of area, hours of daylight, and any other safety information pertinent to operations.
  - Coordinate with Sheriff's department resources.
  - Staff each team with the appropriate number of MSP enlisted personnel for security purposes.
  - Provide a daily report of all activities to include best practices and issues or concerns.

In addition there is a 9:30 am and 4:30 pm SEOC briefing via conference call as well as any other conference calls necessary to complete the above mission.

**TROOPER MISSION:**

Providing water filter escort/traffic control/security for 60+ MSP volunteers (broken into 3 distribution teams) who will be distributing water filters door to door tomorrow in the City of Flint. The majority of operations will be conducted from patrol car, on city streets. This mission is being sustained in coordinated support with deputies from the Genesee County Sheriff's Office, who are also supplying marked patrol units.

**TIME:**

0730 HRS Briefing

1700 HRS Release to home post assignment Troopers only

**LOCATION:**

Genesee County Administration Building (Directly across from Flint City Hall)

Emergency Operations Center (EOC)

1105 Beach Street

Basement Level

**PARKING:**

Parking is available on Saginaw Street directly in front of the county building (east side), or in the adjacent church parking lot on Beach Street

**RADIO CHANNELS:**

**MEALS:**

Lunch will be provided at noon at the EOC

Please call with any questions and advise me by e-mail if you were able to make a site visit.

**Subject:** FW: Brief of District PIO Activities since Saturday 01/09/16

Sir

As an FYI this is a short synopsis of our PIOs interaction with media and our dedication to the positive story.

Gene

---

**Subject:** Brief of District PIO Activities since Saturday 01/09/16

Capt. a brief snapshot so far,

>On Sunday 01/10/16 I spoke at a press conference at Fire Station 1 to discuss the five newly established water resource sites in Flint as well as the water resource teams being deployed on Tuesday 1/12/16 which would be going door to door.

>On Monday I worked out of the JIC center and assisted with the Governors press conference as well as conducting several interviews.

>On Monday I contacted Sgt. Jim Lang at the Tri-City Post and he began to handle some of the local PIO responsibilities.

>On Tuesday 1/13/16 I held a press conference at the GCCARD building with Capt. Tafoya from the Genesee County Sheriff Department. I gave a brief overview of the role of the water resource teams and how the resources were going to be deployed. I also gave the media an opportunity to get photos and footage of the water resource teams as they deployed door to door to distribute free bottled water, water filters, water filter replacement cartridges and water testing kits to residents throughout the city.

>On Tuesday I coordinated with several media personnel to get them interviews and video of the water resource teams and water distribution sites.

>On Wednesday 1/14/16. I spoke at a press conference at fire station 3 in regards to the National Guard assistance in the City of Flint. The sheriff spoke as well as Major Keegean from the National Guard.

>On Wednesday I performed several interviews and coordinated with several media personnel to get them interviews and video of the water resource teams and water distribution sites.

>On Thursday 1/15/16 I attended the press conference at the Saginaw National Guard Armory where Major General Gregory Vadnais spoke. I also gave a couple of follow up interviews.

>The General was asked a very direct question from the reporter from the LA Times. As the General who oversaw Hurricane Katrina, do you think Flint has enough water distribution centers or should they have more? The General advised in his snapshot of the resource centers he attended, there were no long lines, there was not an extended wait time and he believed what Flint had at this time was adequate.

>The Media I have spoken to include local and national including: Good Morning America, ABC World News, NBC Nightly News, CBS Evening News, Vice News out of New York, LA Times, Script News, ABC, NBC, CBS, Fox, M-Live, WSGW Radio and many more.

>I have also taken several photos and posted to our Twitter account.

## Sands, Thomas (MSP)

---

**From:** State of Michigan <MISOM@govsubscriptions.michigan.gov>  
**Sent:** Thursday, January 14, 2016 5:30 PM  
**To:** Sands, Thomas (MSP)  
**Subject:** Volunteer Opportunity in Flint

The State Emergency Operations Center (SEOC) is coordinating a response to the ongoing health and safety issues in the city of Flint's drinking water. Teams from the Michigan State Police, Genesee County Sheriff's Department, Michigan Department of Health and Human Services, and volunteer organizations have been delivering bottled water, water filters, replacement cartridges and water testing kits at homes in the city of Flint since Tuesday.

To help with this critical work, the SEOC is looking for volunteers to expand this effort and continue this distribution during the upcoming holiday weekend. Teams are being assembled for shifts on Saturday, January 16; Sunday, January 17; and Monday, January 18, 2016. If you are interested in volunteering your time for this critical work, please complete the information in one of the attached surveys (depending on which day you are volunteering).

To volunteer on Saturday, January  
16, <https://www.surveymonkey.com/r/28NVJBL>

To volunteer on Sunday, January  
17, <https://www.surveymonkey.com/r/26NMJKK>

To volunteer on Monday, January  
18, <https://www.surveymonkey.com/r/26P7P5G>

Volunteers will begin their assignment at the Local Emergency Operations Center located in the Genesee County Administration Building located at 1101 Beach St, Flint at 9 a.m. and end by 4 p.m. Parking is available at the corner of Beach Street and 8th Street. Lunch will be provided. This is strictly a volunteer effort, as all three days will be unpaid. Volunteers are responsible for their own transportation; mileage reimbursement for personal vehicles is not authorized. Volunteers should dress for working outdoors and wear foot attire appropriate for walking.

This opportunity is for state employees and their immediate family members 16 years of age or older only, others looking to assist should volunteer through the American Red Cross in Flint. The volunteer coordination center

for the Red Cross is located at 1401 S. Grand Traverse, Flint, MI. They are open from 9 a.m. to 7 p.m.

For more information on the state's response efforts, visit [www.michigan.gov/flintwater](http://www.michigan.gov/flintwater).

**Subject:** Lt. Cremonte

Sir

I would like to request Lt. Cremonte be made available to staff the operations chief position in the local EOC. This is being staffed by one of my personnel (Michelle Kuzera) who will need to transition out (only to get a couple days occasionally) so we would want her to shadow her for a couple days first. This mission would need to be available for some time if possible to avoid staff burnout. Lt. Cremonte has the experience as a District Coordinator, EOC operations at the local level, as well as the right command

bearing I need in the local EOC. This would not be in the capacity as a FSB employee but EMHSD one.

Can you check with LTC Sands to see if this is possible and if Lt. Cremonite is okay with it?

**Cc:** Sipes, Stephen (MSP); Kapp, Gene (MSP); Dehner, Amy (MSP); Young, Patrick (MSP); Pummill, Paul (MSP)  
**Subject:** Genesee County EOC Relief-Next Week

All,

*I'd like to begin a rotation for Water Team Commander/OIC for the Flint Water Emergency. This is being done to help provide relief to the Flint Post lieutenants. This is a great opportunity to also get some experience with emergency management operations if you haven't had that much experience with it. Let me say, I appreciate the support and offers for assistance I've already received. Lt. Amy Dehner is the Safety Officer for the MSP at the EOC. She has prepared a checklist of items that will require your attention on a daily/hourly basis. These documents are attached to this e-mail. This isn't a difficult task, and it is a role primarily of leadership and communication. Starting next Tuesday, we will begin a rotation of outside personnel to support and sustain this ongoing operation. Have no fear, Lt. Dehner will assist you with tasks and will walk you through the daily routine next week. The intent is to get each of our commanders familiar with this operation so that weeks down the road, you would be knowledgeable enough to come in and fly the operation solo from the left seat with confidence. We want to train up out of area sergeants as well to assume the Safety Officer position to support you when you are the OIC. This is a process that will begin the week of January 25<sup>th</sup>. The hours are generally 8:00 am until 5:00 pm in the EOC. The address for the Genesee County EOC is 1101 Beach St., Flint right across from City Hall. The EOC is located in the basement or on level G if the elevator is used. This is truly a unified command with the Genesee County Sheriff who has been a valued partner on the operation along with the Red Cross, Genesee County Health Department, and others. As we've gained experience, we've also gained some efficiency. We do have a solid handle on this incident. This is a zero fail mission.*

### District Lieutenant Rotation:

Tuesday 1/19: John Julin

Wednesday 1/20: (Chris Luty, tentative/Pummill as alternate)

Thursday 1/21: Shannon Sims

Friday 1/22: Chris Luty

*I am attaching the task lists and other documentation for your review. I'd suggest you keep these copies handy for your rotation in the EOC. You may call myself or Lt. Dehner with additional questions. Also, look at your calendars and begin*

scheduling a day each week for the next month you can come down and pull a shift in the EOC. What I suggest also is if a sergeant is available to join you, we can offer the training to both of you at the same time. Eventually this could evolve into a primarily sergeant led operation with some lieutenant support.

F/Lt. Thomas Kish  
Commander  
Michigan State Police-Flint Post  
G 4481 Corunna Rd  
Flint, MI 48532  
(810)732-1111

JOIN THE MSP

All,

In continuing State of Emergency water filter distribution operations in the City of Flint, you have been tasked to support security operations tomorrow for MSP volunteers, **FILL IN DATE**. Please ensure those under your command have been notified about their report time and location. Below is operational assembly information that is critical for you to read as this is very short notice :

**MISSION:**

Providing water filter escort/traffic control/security for 150+volunteers who will be distributing water filters door to door tomorrow in the City of Flint. The majority of your operations will be conducted from your patrol car, on city streets. This mission is being sustained in coordinated support with deputies from the Genesee County Sheriff's Office, who are also supplying marked patrol units.

**TIME:**

0730 HRS Briefing

1700 HRS Release to home post assignment

**LOCATION:**

Genesee County Administration Building (Directly across from Flint City Hall) Emergency Operations Center (EOC)

1105 Beach Street

Basement Level

**PARKING:**

Parking is available on Saginaw Street directly in front of the county building (east side), or in the adjacent church parking lot on Beach Street

**NOTABLE EQUIPMENT REQUIREMENTS:**

**RADIO CHANNELS:**

**MEALS:**

**FILL IN INFO**

**GROUND OPERATION OIC(s):**

**FILL IN INFO**

**EOC SITE SAFETY OFFICER:**

**FILL IN INFO**

**OTHER INFORMATION:**

This is a high-visibility event for the public and media as well. Please expect members of Executive Council to attend and participate, and/or possibly want to ride along with you in your patrol car.

## MSP Site Safety / Water Distribution

### Administrative Tasking List

#### Flint Water Detail

Times are approximate and subject to change

700	Confirm mobile distribution logistics with ground OIC Confirm meal delivery/logistics for volunteers/deputies/troopers iPad confirmation with ground OIC - sign out to designated team leaders
900	Briefing to volunteers (see attached briefing template in Tasking Packet) Conference call with SEOC (they will notify you with time and call in information) Publish morning SITREP (see attached template in Tasking Packet) to Flint Post Commander/APCs/District/MSP-EOC email
1200	Begin team coordination through SEOC (they will send names) for state volunteers for following day's mission Coordinate trooper scheduling w/ Sgt. Sparks for next mission day (see projected schedule through 1-22 in Tasking Packet)
1600	Ground mission begins to exfiltrate streets Confirm through ground OIC to ensure vehicles are pre-loaded for next day's operations Confirm through ground OIC map routes, areas of operation and team leader breakdown for next day's operation Confirm meals through Ops Chief (EMHSD) for next day's ground distribution mission Confirm through ground OIC that iPads are returned, and being charged for next day's operations Publish next day's EOC staffing officers to MSP-EOC Confirm Possession of state gas cards (4); TOT Ground OIC for next day's operation
1800	Publish Evening SITREP / AAR (see attached template in Tasking Packet)
1900	SEOC Conference Call

"Standing with Flint"**

This one is hosted by  
the ( Right now 17 people are signed up to attend. The  
location is 1099 Saginaw Street, Flint. )

The description of the event is as follows:

We the People of the County of Genesee and of the State of Michigan, stand united to say to this government "ENOUGH IS ENOUGH", there have been lives lost and, along with families being ruined from illnesses. We demand that those responsible are held accountable.

To help our effort, The GCVN are requesting a show of support on Sunday, January 24, 2016 from Patriots and Patriot groups across the land as a united front, standing with all citizens of the City of Flint, MI. We ask , and all other like groups to wear your uniforms and insignia to this event. All others are welcome to join us as well! We ask that you only wear side arms and not long rifles, this is not about our 2nd Amendment, this is about the infringement on the good people of Flint. . God Bless the Republic,

On behalf of .

They are asking participants to bring water for the citizens of Flint. plans to have two U-Hauls of water to distribute.

I'll continue to monitor the event and provide updates.

Thanks,

Sue

## **MSP Flint City Water Detail**

### **Genesee County EOC – MSP State Security Officer SITREP**

#### **DATE/TIME:**

1/17/2016 1900 HRS

Prepared by Lt. Patrick Young

#### **AGENCIES PRESENT:**

MSP EMHSD/ Flint Post Personnel, DEQ, American Red Cross, Genesee County local emergency manager, Genesee County Sheriff, Genesee County Health Department, Michigan Community Service Commission, and the Michigan Army National Guard.

#### **ACTIVITY SUMMARY:**

- Distribution teams totaling roughly 104 volunteers have returned to the EOC and or left for the evening. This does not include personnel from the MSP, MDOC, GCSO, or truck drivers.
- We are currently coordinating loading procedures for 15 trucks.
- 22 iPad have been turned back in, secured in the EOC and are charging for tomorrow's mission.
- Gas cards have been obtained to resolve local level re-fuel issues of distribution vehicles.
- It has been reported that the 10 ARC teams have returned and are clear.
- The ARC is reporting 1732 residential contacts for the day.
- The numbers for this day's residential contacts for MSP/GCSO have yet to be determined.

#### **SAFETY ASSESSMENT:**

Local access shows 13 Degrees Fahrenheit with a light wind. The streets are icy in spots. The National Weather Service reports are being monitored.

#### **NEXT ANTICIPATED SITREP PUBLISH TIME:**

1000 HRS 01/18/2016 from Lt. Patrick Young.

Based on additional intelligence that has been gathered over the last 24 hours it is apparent that several groups plan to protest at the Capitol. The majority of the protest is centered around Flint Water. There are groups, who support the Governor such as the Michigan Republicans, who plan to hold a water drive during the same time other vocal anti-governor groups will be demonstrating.

The MIOC is currently creating a document compiling all current Intel.

Please advise if you need additional and thank you.

This simply means more volunteers of national guard troops. This probably also means more uniforms which will have to come from other Posts. I will reach out to the other commanders in the morning seeking district support.

Talk to you in the morning.

**Subject: Update: Request for additional Troopers/County and or Local LE for Door to Door Operations**

F/Lt. Kish,

The Governor has approved the use of the National Guard for the Door to Door Operations in Flint. So, please proceed with the planning process for obtaining the *additional Troopers/County and or Local Officers with marked patrol vehicles to assist* the National Guard. As stated below, they plan on deploying teams on Wednesday 1-20-16.

**\*\* Critical Info\*\*** Capt. Kelenske has asked that the above information not be released to the media or any personnel outside the SEOC or Local EOC's. This information will probably be announced by the Governor during his State of the State Address tomorrow (1-19-16).

Thank you for your assistance,

Spl/Lt. Mardella Horhn

**Subject:** Request for additional Troopers/County and or Local LE for Door to Door Operations

F/Lt. Kish,

Below is just to give you a heads-up.

The SEOC may be requesting additional \_\_ \_\_ Troopers/County or Local Officers along with marked patrol vehicles to assist with the Door to Door Operations with the National Guard starting tomorrow (1-19-16). The SEOC is still waiting for the Governor to approve the use of National Guard personnel. We should know more this afternoon. If approved the National Guard will be deploying the below:

- A total of \_\_ National Guard personnel will be assisting with the Door to Door Operations.
- There will also be \_\_ National Guard Command Officers responding to supervise personnel.
- On Tuesday (1-19-16) \_\_ of the National Guard personnel will be arriving. The Door to Door Operations will be split into two groups. \_\_ National Guard personnel will be involved in the Door to Door Operations in the morning and \_\_

National Guard personnel will be Deployed for the Door to Door Operations in the afternoon.

- The remaining National Guard personnel will be arriving on Wednesday (1-20-16).

I will let you know if and when the use of the National Guard personnel are approved for use.

**Updated Information (1:55 p.m.):**

- If approved, all National Guard personnel will be arriving on Wednesday (1-20-16). As stated above, of the National Guard personnel will be boots on the ground assisting with the Door to Door Operations and will be **National Guard Command Officers**. Upon arrival the National Guard personnel will report to the local EOC for briefing and will be deployed into the field using Michigan Department of Corrections transport vehicles. There will be approximately teams deployed.

**Please note: Still waiting on Governors approval.**

Thank you,  
Spl/Lt. Mardella Horhn

**Cc:** Sipes, Stephen (MSP); Kapp, Gene (MSP)  
**Subject:** Complaint against trooper

Lt., Mr. Bernard Lawler of , complained about a trooper's actions yesterday and follow-up with Mr. Lawler was requested. I made contact by phone with Mr. Lawler today at approximately 3:45PM. He was at work and I asked if I could meet him in person to discuss what happened. Mr. Lawler said a phone conversation was more than adequate. His wife was currently at home and he felt she would be too intimidated if a trooper showed up at the residence. Mr. Lawler went on to say he is a State Employee with the Department of Health and Human Services. He is also a former Flint City Council member who is still active in communicating with his surrounding community.

Yesterday, his wife became aware that one of the water distribution teams working their neighborhood missed their house. His wife and her mother jumped in the car and drove down the street and stopped near the distribution team. His wife made contact with one of the state troopers assigned to the team and requested water and supplies. Mr. Bernard said his wife was driving their Cadillac. His wife told him the trooper looked at the Cadillac and then back at her and asked if there were any kids in the home. Before she could answer, thankfully, a National Guard Soldier standing with the trooper answered her and said she could have the water/supplies. He said his wife felt degraded by the trooper's question and demeanor. Mr. Bernard, being employed by DHHS, said he knew the script of what was supposed to be said by the troopers and this trooper's response was not correct.

His wife didn't want to make a complaint because she was afraid the state police would begin harassing her. Mr. Bernard was very concerned about this trooper and other state troopers' reported actions throughout the city. He has hear from neighbors and the Mayor who also told him she they've heard similar stories of state troopers degrading members of the public. He said it shouldn't matter what the economic status is of certain citizens within the city of Flint. Everyone should be treated with respect.

Mr. Bernard said he made contact with a state police sergeant yesterday after the incident occurred. This contact took place at the EOC. He explained to the sergeant what had happened. He became upset and angry as the sergeant began to explain why the trooper asked the question and why he may have been perceived to have a demeaning attitude. Mr. Bernard didn't feel like the sergeant really cared about what happened.

I asked Mr. Bernard if he wanted to make a formal complaint against the trooper. I explained that this complaint would travel up the chain of our command and a review of the trooper's actions would take place. I also asked Mr. Bernard if

he wanted me to simply make contact with the trooper and talk to him about what happened rather than make a formal complaint. I followed up by assuring Mr. Bernard that I was not trying to talk him out of filing a complaint. Mr. Bernard requested that I talk to the trooper and use this incident as a reminder of how state troopers should and should not talk/treat people. He would be more than satisfied if this incident could be used as an example in training to help troopers work better with the public.

I spoke to Mr. Bernard at length as to what is expected of his state police and how all people should be treated with respect and dignity. Upon finishing up our conversation, I left Mr. Bernard my name and cell phone number. I advised Mr. Bernard to keep the number handy in case he needed anything now or in the future. Mr. Bernard thanked me and seemed more than satisfied with our conversation. A short time later, Mr. Bernard sent me a text message asking if I could follow up with talking to the sergeant that pulled him into the hall and justified the trooper's behavior. I acknowledged his request.

Mr. Bernard Lawler's TX:

Lt. Patrick Young  
Assistant Post Commander

Subject: Complaint against Trooper

LTC Sands:

I just took what amounts to a complaint against a trooper for overly aggressive and intimidating actions while distributing water in the City of Flint.

In a nutshell, Mr. Bernard Lawler, a manager with DHHS, came into the JIC and proceeded to relay a his concerns about how his wife was treated yesterday by a uniform trooper who was assisting with the water distribution in his neighborhood.

Mr. Lawler indicated he was a prior member of the Flint City Council.

I believe he should be contacted by the local post command.

Mr. Lawler can be reached either at

The below is an update for tonight's state of the state. This is for situational awareness and not for dissemination. The new information is noted in red. The MIOC will be staffed during the event and sending updates as needed. In the event any staff onsite has suspicious activity please contact the MIOC for immediate assistance.

XX  
XX

**Protesters have gathered in front of Lansing City Hall.**

MIOC investigated a potential threat that was called in to the Attorney General's Department. We believe the caller has been identified.

Participants are to arrive at the Lansing City Hall Courtyard at 124 West Michigan Avenue in Lansing at 5 p.m. The rally will begin after a press conference with Flint families and advocates. There will be a warming center near the Capitol at the Central United Methodist Church at 215 N. Capitol Avenue, Lansing. It isn't clear if the press conference would be held at Lansing City Hall or if the group would march to the Capitol and hold the press conference there.

Bus transportation for protesters has been arranged from Flint, Detroit, Grand Rapids, and Kalamazoo. Many individuals have also indicated they are drivers for carpools. , I expect the number of attendees is actually greater than 737. (Each bus holds approximately 50 passengers.)

The Michigan Republican Party intends to hold a "Water Drive" for Flint on Tuesday, January 19, 2016, between 4 p.m. and 6 p.m. on the East Capitol Steps. In viewing comments on open source they are unfavorable towards the Republican Party and I could foresee there could be conflict between groups and the Republican Party group. There were no positive comments. One commenter wondered if all the plastic bottles being distributed in Flint are being recycled?

Individuals have indicated Michael Moore, Jesse Jackson, and other dignitaries have been invited to attend. not all participants are favorable to this. There were counter-protesters at Flint City Hall during Michael Moore's presentation. In response to an article published on MLIVE.com related to Mr. Jackson's visit there were no positive comments. [http://www.mlive.com/news/index.ssf/2016/01/jesse\\_jackson\\_expected\\_in\\_flin.html](http://www.mlive.com/news/index.ssf/2016/01/jesse_jackson_expected_in_flin.html) The reporter asked readers "what would you like to ask him related to Flint?"

- Ask him why he hasn't shown up during the last 50 years while Democrats were running Flint into the ground.
- Ask him to kindly leave. We don't need him inciting race riots like he does wherever he goes.
- Ask him what he is doing about the hundreds of kids being murdered in his own neighborhood by gang violence.

The MIOC will continue to monitor events for public safety and situational awareness recognizing that all citizens have a constitutionally protected right to peacefully assemble and protest. If you have any questions or concerns please don't hesitate to contact the MIOC.

[illegible]

MIOC investigated a potential threat that was called in to the Attorney General's Department. We believe the caller has been identified as '

Participants are to arrive at the Lansing City Hall Courtyard at 124 West Michigan Avenue in Lansing at 5 p.m. The rally will begin after a press conference with Flint families and advocates. There will be a warming center near the Capitol at the Central United Methodist Church at 215 N. Capitol Avenue, Lansing. It isn't clear if the press conference would be held at Lansing City Hall or if the group would march to the Capitol and hold the press conference there.

Bus transportation for protesters has been arranged from Flint, Detroit, Grand Rapids, and Kalamazoo. Many individuals have also indicated they are drivers for carpools.

, I expect the number of attendees is actually greater than 737. (Each bus holds approximately 50 passengers.)

The Michigan Republican Party intends to hold a "Water Drive" for Flint on Tuesday, January 19, 2016, between 4 p.m. and 6 p.m. on the East Capitol Steps. In viewing comments on open source they are unfavorable towards the Republican Party and I could foresee there could be conflict between the groups and the Republican Party group. The Michigan Republic Party published the information on their Facebook page today. There were no positive comments (see attached example). One commenter wondered if all the plastic bottles being distributed in Flint are being recycled?

Individuals have indicated Michael Moore, Jesse Jackson, and other dignitaries have been invited to attend. , not all participants are favorable to this. There were counter-protesters at Flint City Hall during Michael Moore's presentation. In response to an article published on MLIVE.com related to Mr. Jackson's visit there were no positive comments. [http://www.mlive.com/news/index.ssf/2016/01/jesse\\_jackson\\_expected\\_in\\_flin.html](http://www.mlive.com/news/index.ssf/2016/01/jesse_jackson_expected_in_flin.html) The reporter asked readers "what would you like to ask him related to Flint?"

- Ask him why he hasn't shown up during the last 50 years while Democrats were running Flint into the ground.
- Ask him to kindly leave. We don't need him inciting race riots like he does wherever he goes.
- Ask him what he is doing about the hundreds of kids being murdered in his own neighborhood by gang violence.

The MIOC will continue to monitor events for public safety and situational awareness recognizing that all citizens have a *constitutionally protected right to peacefully assemble and protest*. If you have any questions or concerns please don't hesitate to contact the MIOC.

**Subject:** Flint Status Update

All,

As of January 21, Rich Baird has assumed the Lead Point of Contact role for Flint. This has been communicated to the existing team working on the Flint water emergency. As of today, an office has been opened in the State of Michigan building located at 125 Union Street in downtown Flint. In addition to the individual team members listed below, a representative from DEQ, DHHS and the Department of Civil Rights will join Rich's team.

Per Rich, here is a list of the "Mission Flint" team and a summary of roles and responsibilities:

LG Calley—Will establish an office in Flint and provide input to POC Leader. He will also be focused on sustaining a quality partnership with Dr. Mona Hanna-Attisha and DHHS to attest to blood sampling protocols and interpretation, and begin executing additional monitoring/education and remediation for those impacted. He will also provide input and guidance to the EO communications team on ways to be more proactive with messaging and the public narrative (drawing attention to volunteers, community groups, and stories that are happening but not getting into the narrative).

Harvey Hollins—Harvey will continue (with R. Baird) to nurture a quality partnership with Mayor Weaver and her team, pastor groups, and provide grass roots community leadership so that we can stay acutely attuned to the needs of the Flint Community and bring resources to bear. Harvey will also serve as the co-facilitator for the FWIACC with the first meeting occurring on January 27.

Bill Nowling—Bill will step back from the role he is playing as Crisis Leader for Communications Department. Meegan Holland will work closely with LG Calley to improve (department wide) proactive efforts in messaging and narrative. Bill will approve all communications from our Flint Team. He will coordinate the Mercury team communications engagement and engage with Mark Davidoff and the Deloitte team to provide more support to Mayor Weaver (through his associate Ms. Cockrell).

Tori Sachs—Tori will continue playing a "utility" role on a variety of fronts, including supporting the philanthropic campaign, eliciting University engagement (Community Scholars, etc.), monitoring vendors and follow up with third party validation groups, assisting with messaging and volunteer deployment, and supporting Col. Greg Durkac in tracking our critical matters and decisions organization framework.

Colonel Greg Durkac—SME for project management, logistics, and organizational frameworks for critical matters and decisions. He lives in Linden (just outside Flint) and is deferring his retirement for this assignment.

Captain Chris Kelenske--As Chris winds down from Phase 1 Emergency Stabilization, it is important he remain engaged as a spokesperson, coordination expert, and leveraging his expertise as we continue a different model of community outreach (testing, monitoring, engaging resources, etc.). He will also work with Harvey on the FWIACC and in continued community outreach.

Nat Forstner/Ben Geiger— Will take the lead on data collection, analytics, comparative interpretation and communication to Governor Snyder and principals. Need more benchmarking and historical data not just from Michigan but around the country.

Others who have agreed to engage as appropriate are Mike Finney (community outreach), Nick Khouri (treasury support and financing), Chris Rizik (Entrepreneurial recruitment and identification of venture capital/other capital) Peter Remington (Philanthropic and Campaign Strategy) and Matt Rizik (Intergovernmental relations City/County).

Clearly there will many more connection points as represented in the FWIACC but the above represent a type of "executive committee" to lead us into Phase 2 and 3 of "Mission Flint".

Please feel free to reach out to me, Rich or Jarrod if you have any questions or suggestions.

Thanks,

I discussed with Matt Bolger and Mike Johnson and we are on the same page. The only thing that all need to be aware of is I anticipate ramping up the teams significantly as logistics can support. We will likely need to add a layer between the MSP WRT Commander and field commanders – that would probably be an ARC lead, A State Agency lead, Other volunteer lead, and a County lead so the WRT commander has good span of control. I am thinking we could get to the point where we have 50+ teams (best case scenario).

The WRT commander can figure that out but I am good with this - MSP needs to coordinate all the teams sir.

Chris

**Subject:** MSP Resource Request - Flint Water Response Teams

Capt. Kapp,

Per our discussion, the SEOC has requested MSP FSB coordinate and manage the Flint Water Response Teams for the City of Flint-Water Contamination / Shortage incident. The POC at the EOC is Ms. Michelle Kuzera, she will be able to assist with any questions or concerns. MSP FSB will be responsible for the following:

- Establish a Water Response Team Commander for all team operations.
- Coordinate and manage Water Response Team structure.
- Coordinate and manage Water Response Team resources.
- Coordinate walking routes with concentration in the most hazardous lead level areas.
- Coordinate logistics for Water Response Teams.
- Coordinate iPad distribution and tracking.
- Coordinate and integrate with state, county, and local personnel as well as volunteers assigned to work on Water Response Teams.
- Coordinate and manage team security with MSP and County personnel.
- Determine hours of operation based on assessment of area, hours of daylight, and any other safety information pertinent to operations.
- Coordinate with Sheriff's department resources.
- Staff each team with the appropriate number of MSP enlisted personnel for security purposes.
- Provide a daily report of all activities to include best practices and issues or concerns.

- Attend the 9:30 am and 4:30 pm SEOC briefings via conference call as well as any other conference calls necessary to complete the above mission.

In addition to the above Water Response Team objectives MSP FSB is still responsible for all previously assigned tasks and functions.

Please feel free to contact me if you have any questions regarding this assignment. Please forward the contact information of the commander you have identified for this mission as well as a schedule for staffing this position once it has been assigned and established.

Insp. Matt Bolger

F/Lt. Mike Johnson

**Subject:** JIC Liaison

LTC Sands:

I just got off the phone with Captain Kelenske. He indicated F/Lieutenant Sweeney would be a good addition to the SEOC in the position of JIC Liaison.

I suppose it is best to work out arrangements for his service in the SEOC with Captain Roesler. They're not expecting him tomorrow so maybe Friday would be a good day to begin.

Prior to heading to the SEOC, F/Lieutenant Sweeney should contact the SEOC Ops Chief at [MSP-SEOCopsc@michigan.gov](mailto:MSP-SEOCopsc@michigan.gov) to let them know of his availability and schedule.

**FOR IMMEDIATE RELEASE**  
January 22, 2016

**Gov. Rick Snyder: This is a positive  
step forward for the city of Flint**

*RTAB, state treasurer approves additional powers  
for Flint's mayor*

LANSING, Mich. — Gov. Rick Snyder today offered the following statement of support after State Treasurer Nick Khouri approved the Receivership

Transition Advisory Board's recommendation that additional executive powers be returned to the mayor of Flint.

"Last week, I agreed with Flint Mayor Karen Weaver's request for the powers and authority vested in the city administrator to be transferred to the mayor, and I support the RTAB's decision today to return additional executive powers to Mayor Weaver during this critically important time. This is a positive step forward for the city of Flint.

"Mayor Weaver will now have the authority to appoint the city administrator and all department heads. Today's action is the next step in transitioning to full, local control in Flint."

*The state of Michigan continues to coordinate response efforts in partnership with the city of Flint, Genesee County, and local community organizations. For information about clean water resources available in Flint—such as bottled water, water filters, home testing kits, and replacement cartridges, please visit [www.mi.gov/FlintWater](http://www.mi.gov/FlintWater). For information about donating or volunteering in Flint, please visit [www.HelpForFlint.com](http://www.HelpForFlint.com).*

**Subject:** Flint Water Emergency

I would like you to schedule a meeting early next week (with all copied on this email) - to discuss the MSP's ongoing role with the Flint Water Emergency.

I would prefer everyone attend in person and no conference call for those invited.

I will create an Agenda of items to discuss.

If you want to put on EC meeting date (with specific time) that could work.

Thanks

Tom

Yesterday morning we briefly discussed assigning F/Lt. Bowman in the SEOC as the PIO. I appreciate your support for this assignment.

Capt. Kelenske approved this yesterday, but I do not know if anybody reached out to First District or to F/Lt. Bowman.

Please advise F/Lt. Bowman to reach out to F/Lt. Sweeney tonight for the time and location to report. (New SEOC)

Please confirm when this is put in place for tomorrow.

Thank you

**Subject:** Thank you for your service

### THANK YOU!

Fellow employees,

Each day, more than 46,000 state of Michigan employees come to work with the confidence and commitment to make Michigan a better place to live, work and play. I appreciate the way you care about the citizens we serve, and how it is reflected in the work that you do.

As you have heard from me and the media, our reputation and trust can be severely impacted when people do not make good decisions, or use good judgment in solving problems. That principle is universal, but never more so than when public health is at stake. What happened in Flint can never be allowed to happen again anywhere in our state.

I know that you want to work in a place where employee input is valued, efforts are recognized, and teams are always striving for continuous improvement. That's why we introduced employee surveys, Bureaucracy Busters and other reinvention initiatives. We want and deserve a culture of innovation, continuous improvement and employee engagement at every level. We can never take for granted how important the people are who depend on us to do our jobs, and I am asking you not to let the situation in Flint negatively impact your motivation to excel every day.

Many of you have taken an interest in helping the citizens of Flint on your own time, and I'd like to take this opportunity to recognize and thank those who have volunteered over the last couple of weekends. You have worked tirelessly to deliver cases of bottled water, water filters, replacement cartridges and water testing kits to the families in need. I appreciate you donating your time to help our fellow Michiganders. To date, more than 37,000 homes have been visited by one of our water resource teams.

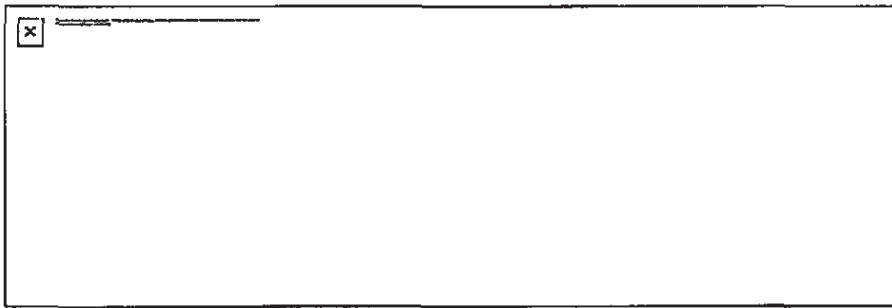

For employees who would like to further help the people of Flint, please visit [www.HelpForFlint.com](http://www.HelpForFlint.com) to learn how you can do so. For additional information and to sign up for daily updates, please visit [www.mi.gov/FlintWater](http://www.mi.gov/FlintWater). I am committed to ensuring that all residents have access to safe and clean water.

Again, I'd like to express my gratitude for the work you do every day to continuously improve our state and earn the trust of those you serve. You make a real difference.

Thanks,

Governor Rick Snyder

**Subject:** Assistance to the City of Flint

**Importance:** High

Good afternoon all,

PCA 28670 has been established to track the OT worked assisting with the City of Flint with the water contamination. Please continue to use Project # FLTWAT and Phase 16 to track non-OT hours to that are spent assisting with this issue, as this will help us when asked the overall impact of assisting the City of Flint.

If for some reason you run into an issue where meals, lodging, supplies, etc. are necessary for this assistance, please contact me so that I can make a decision on how to handle that cost.

Please let me know if you have any questions.

Thanks,  
Dave

Steve,

A request is being made by Capt. Kelenske for Kyle Bowman to assist as the PIO Liaison in the SEOC. He would provide relief for Kevin Sweeney who has been assisting in the SEOC.

If so, please have him make contact with Kevin Sweeney tomorrow.

Let me know, thanks.

I received this from David Behen.

We can discuss in the morning how I get this directly from the MIOC and not by DTMB (as well as key MSP command in FSB need this info too.)

Thanks

1/31/2016  
#OpPoisonedH2O

Greetings citizens of the world we are Anonymous. The Flint water crisis has drawn the attention of Anonymous. Anonymous would first like to pay respect to this deliberate poisoning. We will not rest until the families of the murdered people and lead poisoned children get justice. The victims have been specified (garbled). We will support you and magnify your voice. For Michigan Governor Rick Snyder your failed cost cutting measures have caused the death of your people you are charged with the responsibility to protect. The decent and responsible next action from you would be to step down from office. This isn't what you have chosen to do. Instead you are allowing the people of Flint to be further terrorized by the system you set up. You gave the power of Flint's

government to an emergency manager. Darnell Earley rejected using Flint River water in 2012 after meeting with the EPA. Yet you overrode his decision. You used the contaminated river water and the deteriorated plumbing. You also decided to save another \$100 per day by not adding the critical chemicals to keep from further degrading the aging infrastructure. City and State workers have been provided clean drinking water for quite some time now. Yes, these debts and lifelong illnesses squarely are on your hands. The people of Flint are still being mailed bills for poisonous water. Further you threaten them with condemnation of their homes, removal of their children and placement of those children in a state agency that you govern. We will not stand idly by while you murder, poison, and terrorize our brothers and sisters in Flint Michigan. This is a call to all hacktivists, activists, trolls, protestors, marchers, agents, vishers, those who work in this corruption can speak through us Anonymously as well. All people of humanity should know that Michigan has the largest reserve of fresh water on earth. If this can happen in Michigan it can most assuredly happen where you live. We ask that you use your skills, talents, and time to help bring justice to our fallen and injured family in Flint. Cyber attacks are already under way. In the event that children are taken from their home because of failure to pay for poisonous water there will be concentrated cyber attacks on Governor Snyder, government websites, Brian Larkin, Howard Croft, Natesha Henderson (spelling?), and Dave Walling you should do the right thing as well. Protestors should peacefully occupy the water department, 1101 Saginaw Street, Flint, Michigan. Don't let your neighbors pay for poisonous water. Protest at the Governor's mansion protest the EPA in all states. They are allowing the poisonous water to still grown and further victimization of people who live in and visit Flint. Governor Rick Snyder, State of Michigan, City of Flint, US Environmental Protection Agency, we are Anonymous united as one, divided by zero, we do not forgive we do not forget, expect us.

If you have any questions please let me know.

**Subject:** Governor Rick Snyder in Flint today

Captain Gasper,

I'm wondering if the information is accurate? .....

1 hr

Quincy Murphy has appeared before the Board of Canvassers with petitions to recall Governor Snyder. During his first appearance last week the language was rejected. Murphy plans to appear again at the meeting February 8, 2016, with new recall petition language. In the meantime, Murphy has suffered two incidents where an older white male has shot at his home twice in one day. He did report these incidents to the police.

I don't view Murphy as a threat but he may be a target. I do expect Murphy to attend the 10 a.m. announcement.

This information is being shared with you for situational awareness. If you have any questions please don't hesitate to contact me.

Sue

**Subject:** Signal One - Third District posts

Good morning Operations Lieutenants:

Lt. Col. Sands has authorized a \_\_\_\_\_ in preparation for the potential of civil unrest for planned protests in the City of Flint today, February 3, 2016, and potentially through the remainder of the week. \_\_\_\_\_ will be for on-duty regularly scheduled patrols for Third District posts. Would please send out the notification as outlined in Official Order #4:

\_\_\_\_\_ is in effect immediately for scheduled on-duty Third District post patrols.

\_\_\_\_\_ is in preparation for the potential of civil unrest resulting from planned protests in the City of Flint today, February 3, 2016, and potentially through the remainder of the week.

Impacted personnel are to take the appropriate actions in response to \_\_\_\_\_ as outlined in Official Order #4. The MIOC and Third District command will continue to monitor events for public safety and situational awareness recognizing that all citizens have a constitutionally protected right to assemble.

Authority: Lt. Col. W. Thomas Sands, Deputy Director, Field Services Bureau

 **iSIGHT PARTNERS**

## Campaign Profile: #OpFlint

**HACKTIVISM (HK)**

February 3, 2016 8:58 AM, 16-00001174, Version: 1

### KEY POINTS

- #OpFlint is a long-running information-sharing campaign that has only recently exhibited cyber threat activity, almost certainly based on media attention given to the water crisis in Flint, Michigan.
- iSIGHT Partners believes that the group "New World Hackers," which has participated in the campaign by conducting distributed denial-of-service (DDoS) attacks against networks associated with the city of Flint and state of Michigan, poses a moderate threat to targeted individuals and groups. The group "AnonSec," which primarily engages in defacement and data leak attacks, may also be interested in participating.

## THREAT DETAIL

### Background

#OpFlint has been a long-running information-sharing campaign, run by the actor @CITYofFLINT, concerning purported authoritarianism and corruption in the city of Flint, Michigan—particularly with regard to reports of toxicity in the water supply. However, #OpFlint has only recently exhibited cyber threat activity, almost certainly as a result of significant media attention being paid to the city as a result of President Obama declaring a state of emergency on Jan. 16, 2016, based on levels of lead found in the water. Other hashtags used to promote the campaign include #Flint, #FlintWater and #FlintWaterCrisis, although we have observed that these hashtags have not been used to announce cyber threat activity.

### #OpFlint Threat Activity Consists of DDoS Attacks

Threat activity for #OpFlint has consisted entirely of DDoS attacks; we have not yet seen plans for or announcements of defacement or data leak attacks. Outlined below are the cyber threat discussions and incidents observed to date:

- On Jan. 23, 2015, at least one threat actor expressed interest in conducting participatory DDoS attacks as part of #OpFlint, but we believe that no threat activity resulted from this interest.
- On Jan. 16, 2016, and continuing through Jan. 17, the group New World Hackers claimed to have conducted ongoing DDoS attacks against DNS associated with michigan.gov and cityofflint.com; in particular, group member @xOdeyas may be responsible (see [16-00000774](#), Jan. 18, 2016). Michigan state officials confirmed that michigan.gov was taken offline briefly during the weekend of Jan. 16–17, 2016.
- On Jan. 21, state officials also confirmed a DDoS attack that had disrupted the website of the Hurley Medical Center in Flint, which, according to one online journal, "has been accused of turning away lead victims."
  - This attack potentially highlights the fractured nature of Anonymous-affiliated groups. Many threat actors stated their opposition to the attack after it was made public, and attempted to disassociate the attack from #OpFlint. There are limited indicators that actors involved in #OpFlint saw Hurley Medical Center as an organization worth targeting with cyber threat activity, but we saw no plans to engage in such activity before the event.
- On Jan. 27, the Anonymous-inspired group "AnonymousCorrupt" (@AnonCorruption) claimed to have conducted a second round of DDoS attacks against michigan.gov. New World Hackers did not promote these attacks, suggesting that they were not involved. According to independent observers, the site went offline twice on the evening of Jan. 27. A website uptime monitor also confirmed that michigan.gov was offline at

approximately 10 PM EST on Jan. 27. It is possible that these attacks were in response to publicized interviews and a press conference given by Michigan Governor Snyder that day.

On Jan. 20, 2016, a video was released by "AnonIntelGroup," which stated that Michigan Governor Rick Snyder was guilty of "voluntary or involuntary manslaughter." Despite the severity of this accusation, the video only stated that Anonymous would "stand behind" efforts from the city of Flint to bring charges against Governor Snyder, and that it would "amplify your voice." This indicates that the actors behind this video intend to share information, and not conduct threat activity, as part of #OpFlint.

### **Current and Potential Threat Actors**

Anonymous-affiliated individuals and groups have been the primary actors involved in conducting and discussing cyber threat activity related to #OpFlint. It is important to note that a single group known as "Anonymous" has not existed for several years. Many groups are influenced by and draw imagery and inspiration from the original Anonymous collective, and they are therefore referred to as Anonymous-affiliated, not Anonymous itself.

At present, only the groups New World Hackers and AnonymousCorrupt have publicly claimed to have conducted cyber threat activity as part of #OpFlint. AnonSec, which participated in the 2014 campaign #OpDetroit (which targeted utilities and corporations in response to water shutoffs by the Detroit Water and Sewage Department) has shown an interest in #OpFlint but has not been observed planning or promoting cyber threat activity for the campaign. Finally, the actor behind the initial #OpFlint campaign, @CITYofFLINT, appears to be more interested in sharing information than conducting cyber threat activity.

#### *New World Hackers*

New World Hackers is a recently active group that has engaged in multiple DDoS campaigns against various entities with a moderately high success rate. The group has participated in the campaigns #OpBeast (anti-bestiality) and #OpISIS.

New World Hackers is associated with, and uses the services of, BangStresser, a DDoS service advertised by @AR\_Talents, a former member of Binary Sec. iSIGHT Partners assesses with high confidence that the BangStresser service is capable of conducting effective DDoS attacks against high-profile targets.

- We have observed @AR\_Talents conduct successful DDoS attacks against Saudi Arabian network in the past for the campaign #OpNimr.
- New World Hackers also claimed credit for the DDoS attack against the BBC on Dec. 31, 2015. The group asserted that they used the BangStresser DDoS tool in order to target the BBC and that their attack exceeded 600 Gbps. If true, the attack would have been the largest DDoS attack ever (current confirmed record is approximately 400 Gbps); however, the lack of confirmation from BBC, DDoS mitigation service providers and Internet service providers (ISPs) leaves the actors' claims of attack strength suspect.

#### *AnonymousCorrupt*

AnonymousCorrupt (@AnonCorruption) is a recently active group or actor that has claimed responsibility for a number of DDoS attacks since Jan. 12, 2016. The group collaborated with New World Hackers for the initial round of DDoS attacks on michigan.gov and cityofflint.com on Jan. 16, 2016. AnonymousCorrupt has not publicized its method for conducting DDoS attacks, as has New World Hackers. At least one statement from New World Hackers suggests that AnonymousCorrupt is part of the New World Hackers group.

#### *AnonSec*

AnonSec is a group that has participated in at least one Michigan-focused campaign, #OpDetroit. The group primarily conducts defacement and data leak attacks. Most of the group's threat activity can be categorized as motivated by ego satisfaction or a concern for information security, although one actor appears to be motivated by pro-Islamic ideology. The actor @\_d3f4ult of AnonSec has shown an interest in the #OpFlint campaign but has not promoted others' threat activity or announced his own.

We believe that the group has limited technical sophistication but shows an interest in optics and development.

- In March 2014, group member 3r3b0s stated, "We use multiple tools. Many of our members do manual injecting, but some use Backtrack/Kali Linux and its various tools." We believe this represents an understanding of relative sophistication of attack methods and a desire to show that at least some members of the group could engage in threat activity without the use of tools.
- The group appears to have had a working knowledge of SQL injection (SQLi) and cross-site scripting (XSS) attacks early in 2014. In November 2014, a member of the group (very likely Th3 Ap3x) shared his custom script for identifying vulnerable admin pages to conduct SQLi attacks.

#### *@CITYofFLINT*

The account @CITYofFLINT has been active since as early as 2010. We have not seen it claim responsibility for cyber threat activity. In fact, the account has tweeted, "I have never asked my friends to 'hack' anything. But I know they could..." We believe the actor is more interested in sharing information than conducting cyber threat activity.

- After reports of the DDoS attack against the Hurley Medical Center, @CITYofFLINT stated, "nobody on my team hit Hurley." This reinforces the actor's avoidance of threat activity, while also implying that @CITYofFLINT consists of multiple people, or that the actor behind the account considers itself a leader for a group.
- @CITYofFLINT will use the term "#tangodown" to refer to individuals in the Flint government being fired or under media scrutiny, as opposed to referring to DDoS attacks.

#### **Expectations and Mitigation**

iSIGHT Partners expects that the threat actors who have shown interest in conducting or have already conducted cyber attacks as part of #OpFlint will be most likely to engage in DDoS attacks against websites or networks associated with the state of Michigan, the city of Flint and Governor Snyder. Actors could also engage in defacement or data leak attacks, in which case we would anticipate the use of SQL injection vulnerability scanners.

## *Expectations*

- **DDoS attacks:** Assuming that New World Hackers again targets michigan.gov and cityofflnt.com, they will almost certainly continue to use BangStresser.
- **Defacement/data leak attacks:** The entrance of AnonSec into the campaign would signal an increased risk of attacks based on network compromise. In this case, the use of SQL injection vulnerability scanners would be almost certain.

## *Mitigation*

- **DDoS attacks:** DDoS attacks can be mitigated by investing in commercial DDoS protection.
- **Defacement/data leak attacks:** Patching and updating systems overall and employing standard measures against SQLi attacks (see [15-00005714](#), June 25, 2015) will make threat activity much more difficult, as numerous hacktivists rely on publicly available scanners to locate vulnerable targets. Additionally, given actors' specific accusations against Governor Snyder, networks or social media accounts associated with that individual should make sure that those entities' passwords follow basic security practices (e.g., non-default passwords).

## **Public Response of Victims**

Threat actors regularly exaggerate the extent of their successes, and in many cases, they lie outright. For example, a DDoS actor is more likely to say a site is "down" than to say that a site was only unavailable for a few minutes. Therefore, it is important for targeted groups or individuals to deliver calm and factual assessments of cyber threat activity instead of responding in an overzealous or overblown way. Additionally, it is vital that public figures not make retaliatory statements against hacktivists currently targeting them, as this could cause the actors to continue or increase targeting. For example, John Smedley, a former Sony executive, has been a consistent target of the hacktivist group Lizard Squad based on statements that he made against the group in 2015 (see [16-00000894](#), Jan. 22, 2016).

[HOME](#) | [NEWSROOM](#) | [BLOG](#) | [CONTACT](#) | [FACEBOOK](#) | [TWITTER](#) | [INSTAGRAM](#)

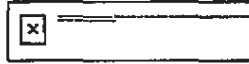

### Budget recommendation will include \$30 million request for Flint water bill repayments

When Governor Rick Snyder presents his budget recommendation next Wednesday, Feb. 10, he will include a \$30 million request for the residents of Flint to keep their water service on and eliminate the need to pay for water they cannot completely trust to drink.

Under the governor's ask, the funding would enable the city of Flint to apply credits for customers on future bills. Estimates show water is roughly 47 percent of billing and sewer costs are around 53 percent. The credit would be applied to consumption usage (roughly 65 percent) of a resident's water portion of the bill, such as for bathing, drinking, cooking, and washing your hands. Residents still would be responsible for paying the sewer portion of their water bills.

Professor Marc Edwards of Virginia Tech said, "This essentially refunds all the money associated with consumption or consumer use. I think it's an amazing gesture of common sense and good will and it corrects an injustice. I don't think there's a precedent for this. I feel so encouraged by the direction this is going."

**Click here to learn more about the budget request.**

We spoke with Staff Sgt. Thomas Vega about the critical resources they're providing to Flint families every day. He also encouraged residents to pick up and return their water testing kits to Flint fire stations. Test results will be posted online at [www.mi.gov/flintwater](http://www.mi.gov/flintwater). **Click here to watch the video.**

**Subject:** "Weekly Ann Arbor Protest: ArrestGovSnyder FlintWaterCrisis"  
**Attachments:** Protesters\_ 'Arrest Rick Snyder! Make him drink the water!' \_ MLive\_2-4-2016.pdf

Good Morning,

The first "Weekly Ann Arbor Protest: ArrestGovSnyder FlintWaterCrisis" was held last night in front of Governor Snyder's residence at \_\_\_\_\_, it is reported that over 80 individuals turned out for the demonstration. Participants loudly chanted, carried posters, and wrote messages on the sidewalk in front of the residence. The event description indicates the group will continue to protest on Wednesdays between 5:30 p.m. - 6:30 p.m. in front of Governor Snyder's residence in Ann Arbor.

The next protest will be held on Wednesday, February 10 between 5:30 p.m. – 6:30 p.m. also in front of Governor Snyder's residence in Ann Arbor.

This is for situational awareness only.

Thanks,

Sue

It's hard out here for a governor.

Facing continued pressure to resign over the Flint water crisis, Michigan Gov. Rick Snyder has been **publicly heckled** while trying to dine out in Ann Arbor, he's been the subject of criticisms written in chalk on downtown sidewalks, his face is on wanted posters plastered around multiple cities, and then there's the protests.

Dozens of protesters demonstrated once again Wednesday night outside the embattled governor's personal condo in downtown Ann Arbor.

Protest organizer Jan BenDor of Michigan Rising said they're planning to continue holding weekly protests outside the Main Street loft condo the governor and his wife moved into this past year. The Snyders had been living in a gated community just outside the city before deciding to make the move downtown.

"We're just hoping to keep this situation in the public eye," BenDor said of the Flint water crisis. "Often even the worst tragedies just disappear after a week or so of concern, and this is a long-term horrible thing that has happened in our state. So, we want to make sure everybody keeps helping with this."

The condo's window blinds were closed Wednesday night, and it wasn't clear that anybody was home, but protesters still chanted loudly.

"Arrest Rick Snyder! Make him drink the water!" they yelled as they marched along Main Street.

"Jail the nerd!" they chanted in unison multiple times.

"No more procrastination! We want incarceration!"

The protesters didn't channel all of their energy into anger and frustration toward the governor, though.

They also handed out fliers informing passersby how they can help the residents of Flint, with suggested charities to support.

MDHHS begins investigation into rash reports in Flint's water crisis

Free iPhone app shows Flint residents water distribution sites in city

UM-Flint's enrollment dropped 3 percent after water crisis went national

**All Stories**

"We're encouraging people to donate to the **FlintKids.com** website for the long-term health care of the poisoned children," BenDor said. "And we are also encouraging donations to some other agencies that are doing uniquely good work."

The flier also directs people to a CrowdRise page for a charity for Flint residents called **Crossing Water**.

Ann Arbor resident Susan Fecteau was among those protesting. She's also behind the anti-Snyder sidewalk chalk messages seen around downtown.

"You enjoying your clean water up there, Rick?" read one of the messages written on the sidewalk right outside the governor's window Wednesday night.

Fecteau said she's been out chalking just about every day for weeks now and she's been watched and photographed. She's not sure who's doing it, but somebody has been wiping away her messages after she leaves, but she keeps going back.

She said Wednesday's protest was about making sure people are fully aware of what has happened in Flint.

She said people need to take back their government.

"People need to get educated about it, and understand that when we vote guys in like this, this is what happens, this is the result," she said.

"And I've been stunned as I've been talking to people. I'm surprised people still don't know what has happened. People don't understand about the emergency manager law. They don't understand about FOIA and that he's FOIA-proof."

Not everyone was happy with the protest, though.

Paula Porter, an employee of the Four Directions store on the ground level under the governor's condo, came out and confronted the protesters. She questioned whether what they were doing was constructive or effective.

"I'm on their side, but I'd prefer they go to Flint," she said. "I've lived in Flint. Go spend time in Flint, get things done."

Porter said she doesn't think the governor is going to care much about what protesters outside his condo have to say.

A city police officer was on the scene at one point responding to complaints that people were stuffing fliers into one or more mail slots.

Dave Murray, a spokesman for the governor, said in response to the protest that Snyder is focused on the people of Flint, not politics.

"He's making sure Flint residents are getting the assistance they need as we move forward, addressing issues related to health, education and infrastructure," he said.

"Today the governor discussed his \$30 million proposal to bring relief to Flint residents who have been paying for water they cannot use to drink or cook with. This is on top of the \$28 million our partners in the Legislature approved last week to provide immediate relief and the \$9 million approved in October.

"People across our state, from both sides of the aisle, are coming together to help the people of Flint."

**Subject:** Unconfirmed Possible Protest in Flint

Good Afternoon,

The MIOC received information from a source who indicated individuals of the Black Lives Matter/Occupy Boston incident that occurred in January 2015 in Boston may travel to Flint to conduct a similar protest.

Below is an overview of the circumstances from the January 2015 Boston protest and how Massachusetts State Police mitigated the simultaneous protest situations on I-93.

In the January 2015 incident, protesters used sleeping dragons (connecting themselves with carabiners inside plastic PVC pipe) to shut down a major interstate on a portion of I-93 in Medford north of Boston. State Police responded en masse and physically each trooper jointly carried the individuals off the interstate.

Simultaneously, protestors, parked three vehicles across I-93 in Milton south of Boston. In this instance, a U-Haul truck pulled up in front of the three vehicles on I-93 and protesters off loaded 55 gallon drums which were filled with concrete. Protestors then proceeded to affix themselves to the barrels with sleeping dragons (again connecting themselves with carabiners). The concrete filled barrels weighed over 1,000 pounds. Boston Fire Department members responded to the scene and used cutting tools to break up the cement. This process took about two hours to complete.

- The event occurred during morning rush hour for maximum disruption of traffic into Boston.

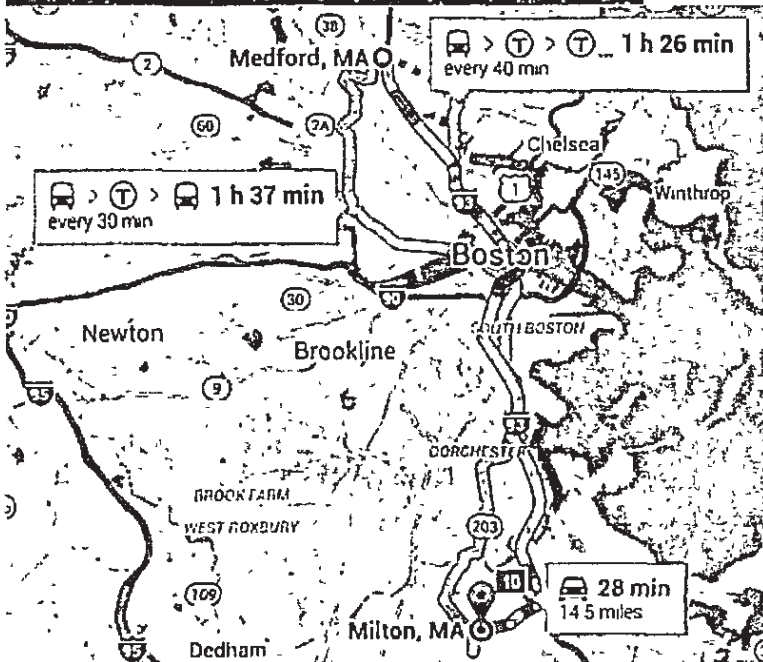

- An eyewitness reported they had seen the protesters practicing with the U-Haul in an industrial park before the actual event.
- Logistically, in Medford the protestors picked a spot adjacent to a large parking lot where they had convenient parking and easy access to the interstate.
- In Milton protesters positioned themselves in front of an overpass. This position gave onlookers and the media a good observation point to view the activities of the protesters.
- The concrete filled drums also contained bricks, glass, brake drums and other debris which made it difficult for the cutting tools to cut through.

Sgt. Jim Lass has been in contact with Lt. Bob Leverone of Massachusetts State Police who forwarded some photos of the sleeping dragons used in these incidents.

The MIOC has received the names and personal information of the arrested protestors and research is currently being conducted on these individuals. The ten protestors pleaded guilty today to willfully impeding an emergency vehicle and were given six months unsupervised probation and 60 hours of community service even though prosecutors requested 90 days behind bars. The group said they had no remorse.

[http://www.bostonherald.com/news/local\\_coverage/herald\\_bulldog/2016/02/no\\_jail\\_time\\_no\\_apology\\_from\\_193\\_protesters](http://www.bostonherald.com/news/local_coverage/herald_bulldog/2016/02/no_jail_time_no_apology_from_193_protesters)

I hope this information is helpful. Analysts will be working Saturday and Sunday to monitor social media for situational awareness and to determine if any groups are planning to protest in Flint or at the Capitol.

If you have any questions please feel free to contact me.

## **Flint water: KWA chief helped FBI in corruption case**

Paul Egan, Detroit Free Press 12:02 a.m. EST February 9, 2016

(Photo: Flint and Genesee Chamber of Commerce)

LANSGING — The Flint drinking water crisis and the Detroit City Hall corruption case are two of the biggest Michigan scandals of the last 10 years.

Linking them is political consultant Sam Riddle, a Flint native and felon.

What proved to be a disastrous decision to draw drinking water from the Flint River came about after Flint decided to stop buying water from the Detroit Water and Sewerage Department in favor of a new \$285-million pipeline now under construction to Lake Huron -- the Karegnondi Water Authority.

Flint's decision to join the KWA was separate from the decision to use the Flint River as an interim source while waiting for the new pipeline to be completed. But without the KWA, Flint's split with Detroit as a source of Lake Huron drinking water was much less likely.

Genesee County Drain Commissioner Jeff Wright, who also is the CEO of the KWA, hired Riddle as a \$2,000-a-month consultant in 2007 and 2008 to lobby the Detroit City Council in connection with the planned pipeline.

DETROIT FREE PRESS

Family of lead-poisoned Flint girl, 2, files suit

Buy Photo

Jeff Wright (Photo: DFP)

Wright acknowledges he secretly recorded conversations with Riddle, acting as an informant for the FBI, while his contract with Riddle was in place — a fact that was reported in 2010 by the Free Press and other media.

Wright, the KWA, and other figures in and around the public health catastrophe are under increased scrutiny in the wake of the crisis, which has exposed an unknown number of children and other Flint residents to lead poisoning and may also be linked to outbreaks of Legionnaires' disease in Genesee County that have resulted in nine deaths. Andrew Arena, a former Detroit FBI director who is heading up Attorney General Bill Schuette's investigation of the crisis, told the Free Press editorial board Thursday his investigation extends back to 2006, when the KWA, slated for completion this summer, was in its infancy.

The FBI, other federal agencies, and a task force appointed by Gov. Rick Snyder also are investigating the lead contamination of Flint's drinking water.

Buy Photo

Sam Riddle (Photo: DFP)

How did Wright become an FBI informant?

Wright won't say, but FBI informants typically -- though not always -- are people under suspicion of criminal conduct who become cooperating witnesses in exchange for favorable treatment or the dropping of charges that could be pending, said Peter Henning, a professor at Wayne State University Law School and former federal prosecutor.

Former Genesee County Prosecutor Arthur Busch told the Free Press this week he wanted to charge Wright with money laundering in 2005 but was unable to do so because of legal issues involving the statute of limitations.

Developer Blake Rizzo, providing information in 2003 as part of what led to a plea deal, accused Wright of illegally funneling money that came from Rizzo through a corporation for use in his 2000 campaign for drain commissioner, Busch said. The Rizzo case and the accusations against Wright were extensively reported in the Flint Journal in 2005 and 2006.

Busch said that after he left the county prosecutor's office, his file on Wright was delivered to the U.S. Attorney's Office, because federal law had a lengthier statute of limitations for money laundering than state law did. Wright was never charged, though the Flint Journal reported in 2005 the FBI seized his campaign records.

"What I'm surprised at is how Wright has avoided any scrutiny," Busch said Monday. "He's in charge of water for the whole ... county."

- Time line: How Flint's water crisis unfolded
- Full coverage: Flint water crisis

Wright, who has denied the money-laundering allegations and attacked Rizzo's credibility, wouldn't say Wednesday whether the case Busch was pursuing landed him in jeopardy with federal investigators and resulted in him becoming an FBI informant.

"Mr. Riddle was involved with a lot of people that were stealing millions of dollars of taxpayer money and ratepayers," Wright told the Free Press. "I was asked to perform a service and I did, and I would be glad to do it again."

Riddle and Wright told different versions of what Riddle was lobbying the Detroit council to do, from March 2007 to December 2008.

Riddle told the Free Press on Monday that Detroit had a permit to withdraw water from Lake Huron but the city was withdrawing less water than the permit allowed. Wright wanted Detroit to allow Genesee County to use the permit capacity Detroit was not using to support the planned new pipeline, said Riddle, who sees what happened in Flint as "environmental racism" perpetrated by the Snyder administration and feels Wright was mostly interested in developing a new pipeline as a political power base.

Wright said Riddle's description of his lobbying assignment is inaccurate. Genesee County had already applied to the state for a Lake Huron withdrawal permit. He said he hired Riddle at the recommendation of Donald Williamson, who was mayor of Flint at the time, to provide introductions to the Detroit council and staff to explore the possibility of Genesee County and Detroit working together on a new pipeline.

Wright wouldn't say what the conversations he recorded with Riddle related to, but he said they were unrelated to the Detroit corruption investigation. Evidence of Wright's role as an FBI informant was filed in federal court in connection with a corruption case in Southfield involving former Southfield City Councilman William Lattimore and former state Rep. Mary Waters, who had been romantically involved with Riddle.

In 2010, Riddle was sentenced to 37 months in federal prison for his role in conspiring to bribe Lattimore in connection with city approvals to relocate a pawnshop. Riddle, an aide to former Detroit Councilwoman Monica Conyers, who also went to prison, was indicted in the Detroit City Hall corruption prosecution, but his bribery-related case ended in a mistrial.

Whatever evidence Wright may have gathered against Riddle was never presented in court. Riddle said he became suspicious of Wright working with law enforcement when Wright began telling him, "I'll pay whatever it costs" to get the Detroit council to share its withdrawal permit.

"I've been around the block, and I'm not going to be entrapped," Riddle said.

Wright's drain commission also had a contract in 2007 with Synagro, a sludge company that was also at the center of the Detroit City Hall corruption case. Wright said his office has used Synagro periodically, through competitive bidding, apply waste products to land. Wright said he had no dealings with James Rosendall, the former Synagro official who was sent to prison for bribing Detroit officials.
